THE ULTIMATE GARAGE

DURA[®]
Fitted Garages

At Dura we have everything you need to transform your garage from a frustrating 'dumping ground' into a tidy, useful space, without building! Whatever your budget, we have a solution – from wall mounted storage and cabinets to bike hooks and flooring.

Exceptional quality,
used by professional
workshops worldwide!

Page

5 great reasons to transform your garage...

- Create a dream garage with everything in its place
- Add value to your home and gain extra space without the cost of building
- Reclaim your garage, de-clutter and have somewhere to park your car
- Store expensive tools, garden and sports equipment safely and securely
- Turn your garage into the perfect lifestyle room – a gym, workshop, or safe play area

...and 5 great reasons to choose Dura

- Creators of the 'Fitted Garage' concept in 1997, and still Europe's market leader in garage transformations
- Award-winning products as used by the professionals
- Europe's best selling, quality, heavy-duty steel cabinets built for tough garage environments
- Full design and installation service available
- Designed and manufactured by us in the UK with a 5 Year Guarantee

A comprehensive combination including towel and bin facilities

DURA COMBINATION PACKAGES

Helping you choose the perfect setup

The Fitted Garage™ modular system offers a huge range of possibilities, so we've put together some of our most popular combinations to help provide you with some ideas. You could select one of these shown opposite, add to it, or create your own from the full product range shown throughout the following pages. Better still, why not ask our design team for ideas with our FREE DESIGN SERVICE?

TOOL STORAGE CABINETS

Organise your tools like the professionals

Central to the Fitted Garage™ modular system are the tool storage cabinets. Available in 900 and 1200mm widths with a variety of drawer configurations, they provide efficient storage in a compact footprint. Drawers are foam lined to help protect tools and are fully lockable. The pinseal ABS plastic worktop provides a firm, durable surface to work on, and each configuration is available on adjustable feet, or lockable castors.

We can supply quality tools for your home workshop too!

RCHT-111
11 Drawer
1200mm Tool Cabinet
H 1395, W 1200, D 600mm

DRAWER INSERT OPTIONS

In addition to our foam inlay which comes as standard in all tool cabinets, we offer three drawer infill upgrade options.

Anti-Slip Matting

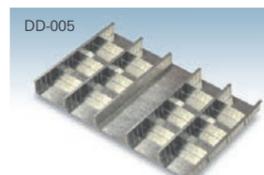

Anti-slip drawer matting is supplied in 500 x 1500mm rolls and can be cut to fit any drawer. Its webbed rubberised design helps restrict the movement of polished tools while the drawer is in motion.

AM-001
2 rolls of anti slip mat
(each roll 500 x 1500mm)

Drawer Divider Sets

Designed to fit a **medium** drawer (but not top boxes or under-bench cabinets). Sets are supplied as separate trays which are subdivided with adjustable metal slats. Additional packs of slats available.

DD-003
Drawer dividers for a 1200mm medium drawer. Contains 7 trays, with 18 divider slats.

DD-005
Drawer dividers for a 900mm medium drawer. Contains 4 trays, with 12 divider slats.

DD-002
Drawer dividers for a 600mm medium drawer. Contains 3 trays, with 9 divider slats.

SL-001
A pack of 5 additional divider slats.

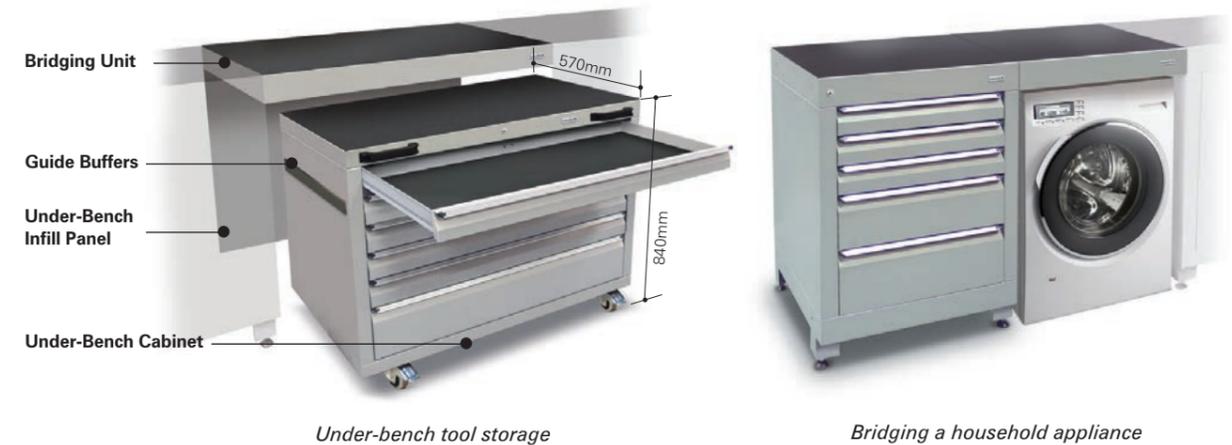

Tool Control Foam

Custom cut tool control foam can be provided for any cabinet drawers in a variety of colours.

For a quotation for this special option, please contact our design team on **01280 700563**.

UNDER-BENCH TOOL STORAGE SYSTEM

Under-bench tool storage

Bridging a household appliance

Bridging Units

Bridging units span gaps between base cabinets, providing a useful space below to allow an under-bench mobile cabinet, or for your own equipment or household appliance. Bridging units are available in the modular 600, 900 and 1200mm sizes, and can be fitted beneath back panels and wall cabinets.

BR-009
1200mm Bridging Unit
W 1200, D 600mm

BR-090
900mm Bridging Unit
W 900, D 600mm

BR-008
600mm Bridging Unit
W 600, D 600mm

Under-Bench Cabinets

Under-bench cabinets are smaller versions of the standard mobile tool cabinet range, to fit beneath bridging units. The cabinets come with guide buffers which are fitted to the sides to assist with the movement of the cabinet in and out of the space.

Please note: Drawer sizes are narrower than the standard tool cabinets, so cannot be fitted with drawer divider sets.

UC-120C
1160mm Under-Bench Tool Cabinet
• 5 medium drawers
• 1 deep drawer
• Lockable castors
• Anti-tilt mechanism
• Front handles
H 840, W 1160, D 570mm

UC-090C
860mm Under-Bench Tool Cabinet
• 5 medium drawers
• 1 deep drawer
• Lockable castors
• Anti-tilt mechanism
• Front handles
H 840, W 860, D 570mm

UC-060C
560mm Under-Bench Tool Cabinet
• 5 medium drawers
• 1 deep drawer
• Lockable castors
• Anti-tilt mechanism
• Front handles
H 840, W 560, D 570mm

Under-Bench Infill Panels

These low back panels create a tidy appearance beneath the bridging unit when the space is empty. Available in our modular 600, 900 and 1200mm sizes, they fix to the bridging unit and adjacent base cabinets.

BRI-120
1200mm Infill Panel

BRI-090
900mm Infill Panel

BRI-060
600mm Infill Panel

600MM BASE CABINETS

GENERAL BASE CABINETS

Flexible storage for any requirement

The Fitted Garage™ system includes a range of base cabinets which match the tool cabinet range, offering other storage possibilities. These cabinets offer tool drawers and cupboard space. There are base cabinets with double doors, tall cabinets for bulky storage and special cabinets for integrated bins or sinks. In addition, there are floorless cabinets for hiding rolling items you can't lift... such as that annoying wheelie bin!

BASE CABINETS WITH DOUBLE DOORS

GENERAL BASE CABINETS continued...

TALL STORAGE CABINETS

Ideal for bulk storage or hanging workwear!

Our spacious tall cabinets are fully lockable and contain a single adjustable shelf – although more can easily be added.

CU-006
Standard Tall Cabinet
with right-hand door
H 2000, W 600,
D 600mm

CU-007
Shallow Tall Cabinet
with right-hand door
H 2000, W 600,
D 400mm

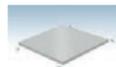

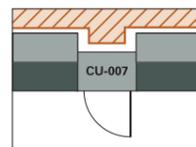

CU-006L
Standard Tall Cabinet
with left-hand door
H 2000, W 600,
D 600mm

CU-007L
Shallow Tall Cabinet
with left-hand door
H 2000, W 600,
D 400mm

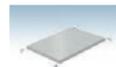

CR-061
Coat Rail
Rail and brackets to fit within CU-006 or CU-006L tall cabinets **only**.
(Also available for RS-062 & RS-092, see page 22)

Similar to standard tall cabinets but with a reduced depth of **400mm** – designed to fit around a brick pillar or obstruction.

SHC-060
Extra Shelf
Shelf and brackets to fit a CU-006 or a CU-006L.

SHC-005
Extra Shelf
Shelf and brackets to fit a CU-007 or a CU-007L.

Vertical Tool Storage

VSD-030
Vertical Tool Cabinet
H 2000, W 300, D 600
A narrow space-saving tool storage cabinet with a lockable vertical drawer featuring a square peg panel surface on both sides (compatible with accessories on page 20)

FLOORLESS UTILITY CABINETS

Hide wheelie bins and larger equipment out of sight!

Our floorless utility cabinets are designed to store equipment that cannot be easily lifted – allowing items on wheels to be rolled in.

BUES-090
900mm Utility Cabinet
Cabinet size: H 950, W 900, D 600mm
Maximum internal capacity:
H 950, W 740, D 560mm

BUES-120
1200mm Utility Cabinet
Cabinet size: H 950, W 1200, D 600
Maximum internal capacity:
H 950, W 1040, D 560mm

CUES-120
1200mm Large Utility Cabinet
Cabinet size: H 2000, W 1200, D 600
Maximum internal capacity:
H 1835, W 1040, D 560mm

Store a 240 litre wheelie bin – as supplied by most councils

CUES-090
900mm Large Utility Cabinet
Cabinet size: H 2000, W 900, D 600
Maximum internal capacity:
H 1835, W 740, D 560mm

Floorless cabinets are best positioned between other base cabinets for maximum stability. Cabinets are shown with content for illustrative purposes only. Accessories shown are not included.

SINK AND WASTEBIN CABINETS

Create a beautifully integrated wash-up area in your garage!

As part of the base cabinet range we offer integrated wastebins and sink units. Combine these with the towel dispenser wall cabinet (WUIT-060 p17) to create an organised 'clean up' section in your garage – perfect for a home workshop or for gardening enthusiasts.

Wastebin Cabinets

BB-001
H 950, W 600, D 600mm
• Sliding drawer with removable PVC bin
• Pinseal ABS plastic worktop
• Adjustable feet

Sink Cabinets

Base cabinets with an integrated stainless steel bowl (inner diameter 420mm) and mixer tap – available in the three modular widths. For further information regarding the specification and fitting of these cabinets please contact our design team on **01280 700563**.

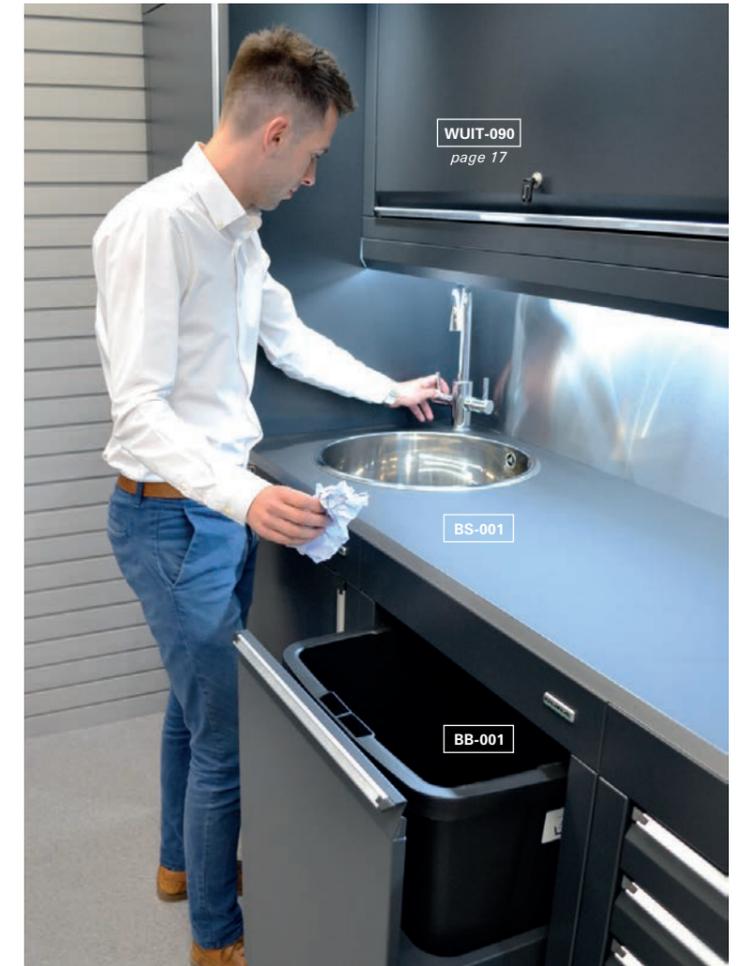

BS-001
600mm Sink Cabinet
H 950, W 600, D 600mm
• Waste outlet
• Lockable door
• Pinseal ABS plastic worktop
• Adjustable feet

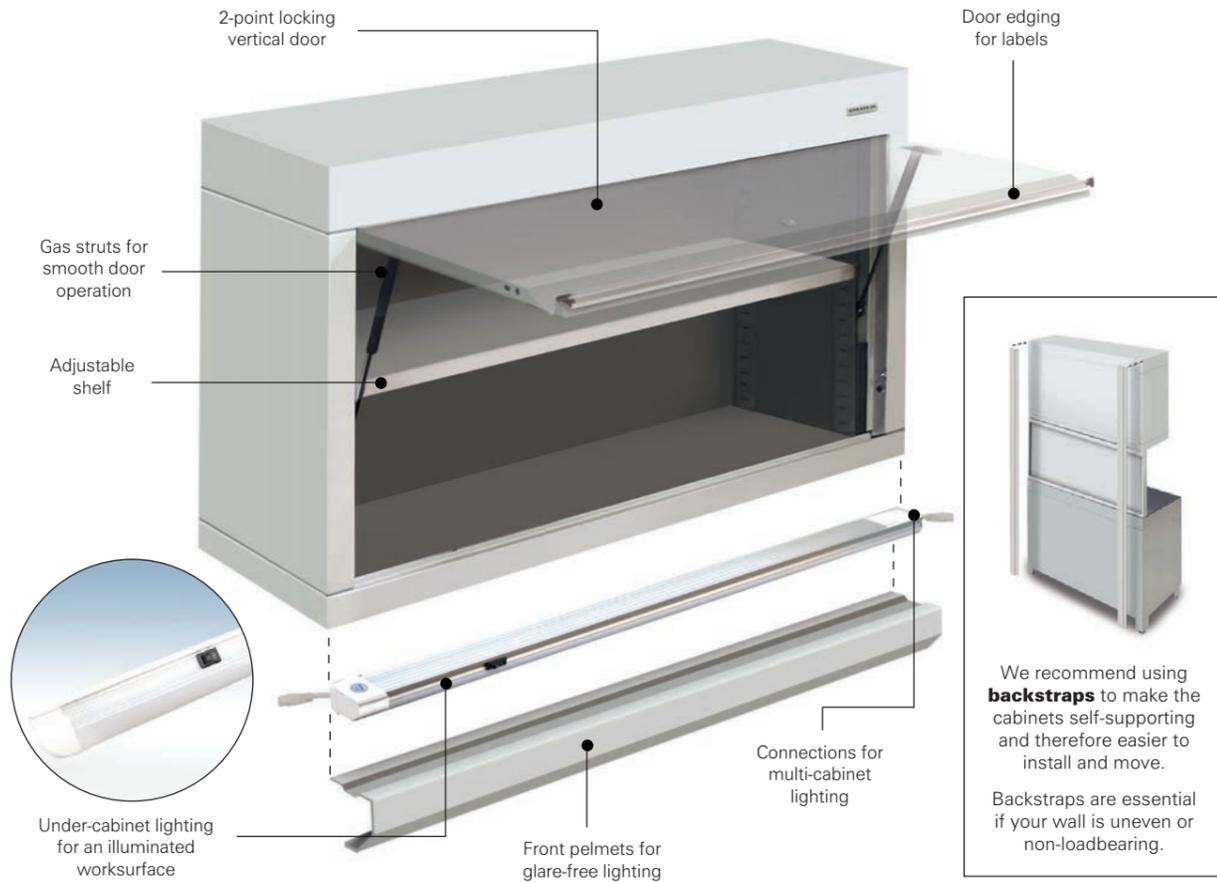

BS-090
900mm Sink Cabinet
H 950, W 900, D 600mm
• Waste outlet
• Lockable door
• Pinseal ABS plastic worktop
• Adjustable feet

BS-120
1200mm Sink Cabinet
H 950, W 1200, D 600mm
• Waste outlet
• Lockable door
• Pinseal ABS plastic worktop
• Adjustable feet

We recommend using **backstraps** to make the cabinets self-supporting and therefore easier to install and move. Backstraps are essential if your wall is uneven or non-loadbearing.

WALL CABINETS AND LIGHTING

Wall Cabinets These cabinets can be fitted directly to load bearing walls or mounted to base cabinets supported with backstraps.

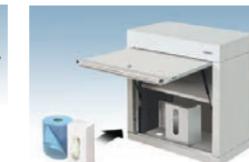

WU-060
600mm wall cabinet
• Vertical door
• Adjustable shelf
H 600, W 600, D 300mm

WU-090
900mm wall cabinet
• Vertical door
• Adjustable shelf
H 600, W 900, D 300mm

WU-120
1200mm wall cabinet
• Vertical door
• Adjustable shelf
H 600, W 1200, D 300mm

WUIT-060
Towel & Glove Cabinet
• Vertical door
• Towel dispenser with 1 roll
• Glove dispenser with 1 box
• Adjustable shelf
H 600, W 600, D 300mm

Consumables for dispenser cabinet
PT-001
Pack of 6 rolls of paper towels
GLO-001
Box of 100 latex gloves

Under-Cabinet Lighting

For individual wall cabinets
Kits containing pelmet, LEDs and interconnecting cable to link with other kits where necessary.
UCL-120 for 1200mm
UCL-090 for 900mm
UCL-060 for 600mm

For combination packages
LED Lighting kits for the complete configurations shown on page 7.
UCL-404 for DCP-404
UCL-504 for DCP-504
UCL-616 for DCP-616

Edging Pelmet Plate
To cover exposed end of wall cabinets. (Orientation when viewed from front of cabinets)
UCL-003 for left hand edge
UCL-004 for right hand edge
UCL-001 UK Power Cable
Cable connector and 13 amp plug (fits as left hand supply only).
UCL-002 Euro Power Cable

Backstraps

BK-001
Set of 2 backstraps to connect a base cabinet, a back panel and a wall cabinet. For other configurations see page 21.
We recommend using these backstraps to make the cabinets self-supporting and therefore easier to install and move. Backstraps are essential if your wall is uneven or non-loadbearing.

WALL CABINETS AND LIGHTING

Maximise your storage at higher levels

Wall cabinets are designed to accommodate a range of features at high-level for improved efficiency and to maximise storage space. Lockable doors open vertically, supported with gas struts for smooth operation. Available in 600, 900 and 1200mm widths, they are available with pelmets and under-cabinet lighting to provide a comfortable working area beneath.

For details see page 36

Organising everything at your fingertips

Our wide range of back panels allow you to configure the space below your wall cabinets how you wish. For a clean, simple look, use our blank panels or the stylish stainless steel option, with or without electrical points. Use our louvre panel system to attach an aerosol shelf or component bins. For easy access to frequently used tools, use our square peg panel and repositionable hook system.

BACK PANELS – BLANK, STAINLESS STEEL AND ELECTRICAL

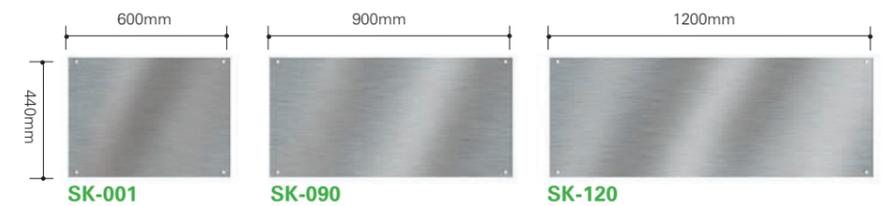

Blank Panels

For a simple, coordinated look. Alternatively attach magnets (not supplied) to use as a noticeboard.

Stainless Steel Panels

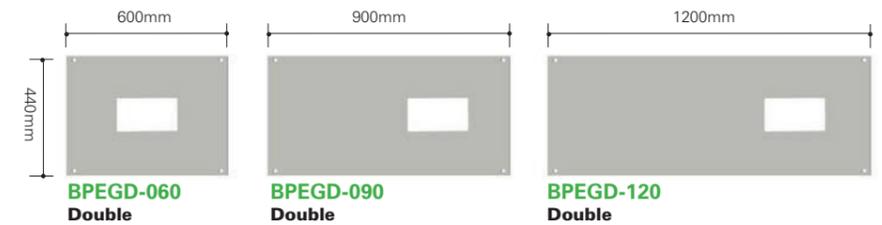

Ideal for a sink splashback area, or as a stylish alternative to blank panels.

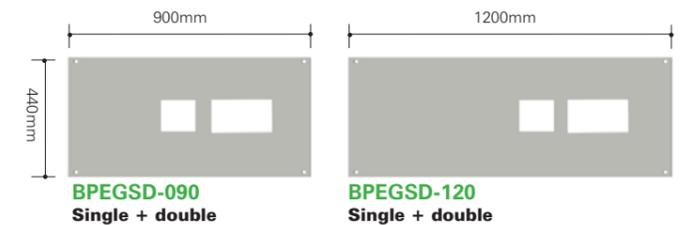

Electrical Panels

Blank back panels can be fitted with electrical sockets or light switches, available as a double socket or a single + double socket combination.

900 and 1200mm width panels can be fitted either way up, allowing a left-hand or right-hand design option.

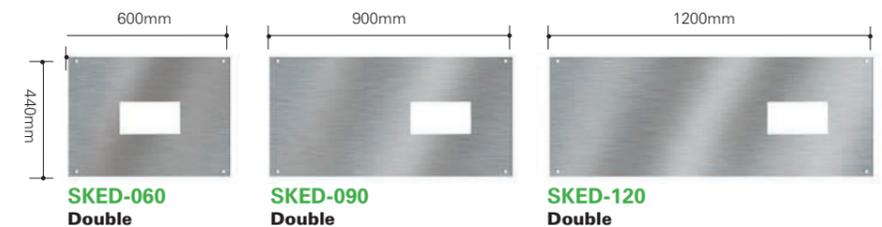

Fittings with grey finish

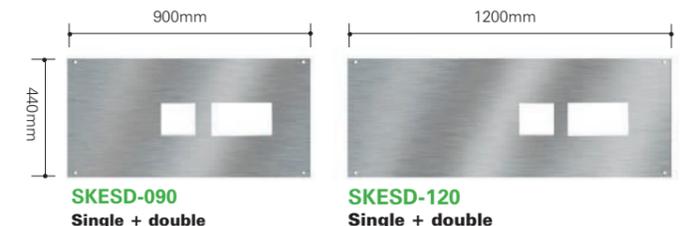

Stainless Steel Electrical Panels

Stainless steel panels can also be fitted with electrical sockets or light switches, available as a double socket or a single + double socket combination.

900 and 1200mm width panels can be fitted either way up, allowing a left-hand or right-hand design option.

Fittings with stainless steel finish

All back panels are available in alternative heights to accommodate worktop thicknesses greater than the standard pinseal worktop. Please contact our design team on 01280 700563 for further information.

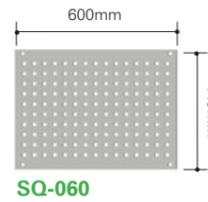

BACK PANELS AND ACCESSORIES continued...

SQUARE PEG BACK PANELS

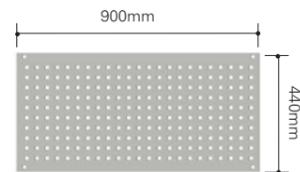

Square Peg Panels

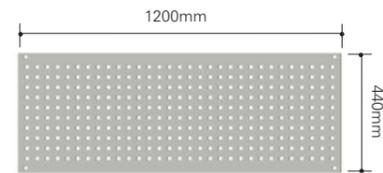

The square peg panel system accommodates a range of hooks and clips which can be easily repositioned. The hooks and clips attach and release easily by squeezing together the lower teeth of the clip.

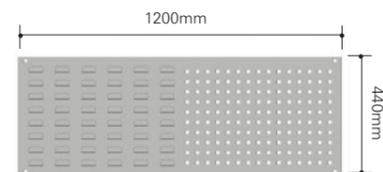

SQ-060

SQ-090

SQ-120

LPS-120 Hybrid panel

A back panel which is half square peg panel, and half louvre panel (see above).

HEAVY-DUTY SHELVING AND WORKBENCHES

Create your own home workshop

Turn a cluttered garage into the perfect workshop for DIY tasks at home. Our spacious heavy-duty shelving units can store bulky items easily and safely – and with the options of double doors to secure items out of sight. Combine these with our range of worksurfaces, from freestanding benches to bridging units to span between other base cabinets (see page 9).

We can supply quality tools for your home workshop too!

• Matches base cabinet height
• Pinseal top
• Pinseal lower shelf
• Vice mounting plate
• Adjustable feet
H 950, W 1200, D 600mm

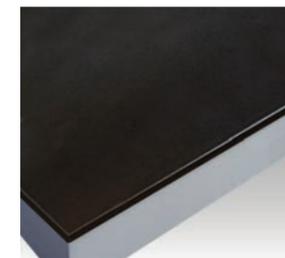

WBBP-950 Back Panel for WB-003
A low-level back panel to fit behind the 950mm workbench to cover any exposed wall.
Products shown with are delivered flat-packed and require assembly.

WORKTOP OPTIONS

The following examples are our most popular worksurfaces, which can be fitted to all base cabinets and workbenches. To explore our full range or find out further information, please contact our design team on 01280 700563.

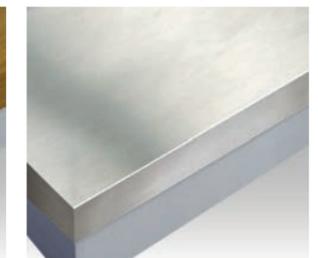

Pinseal ABS Plastic Worktop
This is a hard-wearing 3mm surface that is the standard finish for base cabinets and workbenches.

Duralon Worktop
A hard-wearing 12mm thick compact resin top, which can be provided as a single piece spanning several cabinets where required to achieve a join-free finish.

European Oak
A popular classic 40mm thick, that adds real character and will gradually darken as it matures. 40mm staves construction. (Supplied oiled).

Stainless Steel Worktop
A tough, attractive solution. Stainless steel is wrapped around an MDF core to a 40mm depth.

STOREPANEL™ SYSTEM

It's never been simpler to clear clutter from your garage floor with our wall storage solution, StorePanel™. Our clip-on hooks and accessories create a flexible way to maximise your wall space.

“Don't under-value your wall space!”

STOREPANEL™ WALL-MOUNTED STORAGE

The StorePanel™ system gives you ultimate flexibility for organising and re-organising!

The smart, flexible wall storage system

Clear clutter off the floor and onto the walls with StorePanel™ – the ultimate flexible wall-mounted storage solution. Whatever your lifestyle demands, from bikes to sports equipment, these tough PVC panels provide the perfect storage solution. Once in place, you simply ‘clip-on’ the hooks and baskets, wherever you want. Then, move them around as you wish – *no more drilling!*

How the system works...

Panels are screw-fixed to a suitable wall, or hung using mounting strips
 U caps can be added to conceal edges for a neat finish
 Hooks and baskets simply clip into place
 Turn the TwistLock to secure the hook
 Re-organise or add more hooks without the need for drilling!

HEAVY-DUTY STOREPANELS™

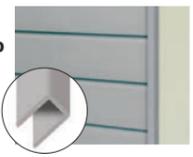

SWHD-G4
Grey 4ft StorePanel™ panel
 These are our standard panels supplied at a convenient 4ft size.
H 386, W 1220, D 16mm
Order in multiples of 6.

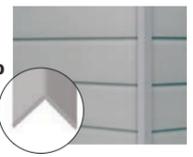

SWHDMS-001
Mounting Strip
 These are optional and allow for installation without any fixing screws visible. Mounting strips are metal bands with pre-spaced prongs to support the StorePanel™ system.
Contact our design team for any calculation assistance.

SWHDUC-G
Grey U Cap Strip
 for concealing vertical edges of StorePanel™ panels.

SWHDLL-G
Grey Large 'L' Corner Cap Strip
 for concealing adjoining corners of StorePanel™ panels.

SWHDFSG-001
Grey Flat Strip
 for covering joints between adjacent StorePanel™ panels.

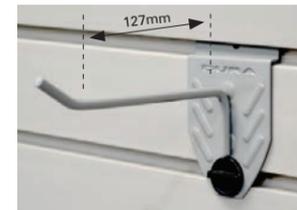

Screw fixings for StorePanel™: Due to the wide variety of possible wall structures, the StorePanel™ are supplied WITHOUT screws. Please contact our design team for advice on suitable screw fixings for your project.
Large grey 8ft StorePanel™ panels: The StorePanel™ are also available in longer 8ft lengths. However, these are primarily for use by our installation team, as shipping items of this bulky nature can often prove difficult. For further information, please call our design team on **01280 706050**.

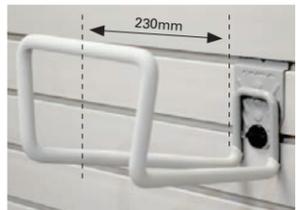

ACCESSORIES FOR THE STOREPANEL™ SYSTEM

DUAS-001
2.5" Single Prong Hook
 General all-purpose hook.

DUAS-002
5" Single Prong Hook
 General all-purpose hook.

DUAS-005
Heavy-Duty Utility Hook
 A 180mm wide hook with rubberised light grey coating, ideal for storing a hose reel or a stepladder.

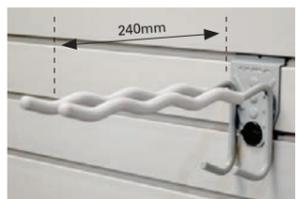

DUAS-006
Universal Hook
 Two pronged hook with 100mm reach, with rubberised light grey coating for general tool storage.

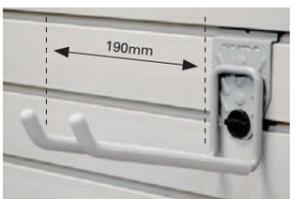

DUAS-008
Bike Hook
 A specialised hook designed to store a bicycle off the ground by its front wheel.

DUAS-009
Heavy-Duty Cradle Hook
 A larger hook with curved double prongs with rubberised light grey coating for storing bulkier tools and equipment.

DUAS-010
Heavy-Duty tool Hook
 A hook with two 240mm long prongs with rubberised light grey coating and two small hooks.

DUAS-011
Heavy-Duty Universal Hook
 A longer version of the Universal Hook DUAS-006 with a reach of 190mm.

DUAS-201
Shallow Basket
 An open-wire design basket for storing general items. Basket size Approx W600, D300, H110mm

DUAS-202
Deep Basket
 A deeper open-wire design basket for more storage capacity. Basket size Approx W600, D300, H210mm

LUA-001
Louvre Adaptor Panel for StorePanel™
 600mm wide louvre adaptor panel that clips to StorePanel™ panels to allow storage bins to be mounted – ideal for organising screws and other small fixings. *W 600, H 145mm.*

FLOORING & CEILING

Garage floors are often concrete, littered with cracks and stains, whilst ceilings are often left as rafters, creating strong draughts. Give your garage a luxury and professional finish with our range of flooring and ceiling solutions.

“Beautiful finishes for the perfect garage interior”

FLOORING

Your guide to choosing the right floor for your garage

Concrete garage floors create problems with cracking, dust and cold, so a new floor finish can transform your garage ...but which is right for you? Here we explain our selection of quality flooring solutions, which solve the problems of cold dusty floors or flaking floor paint.

PVC INTERLOCKING FLOOR TILES

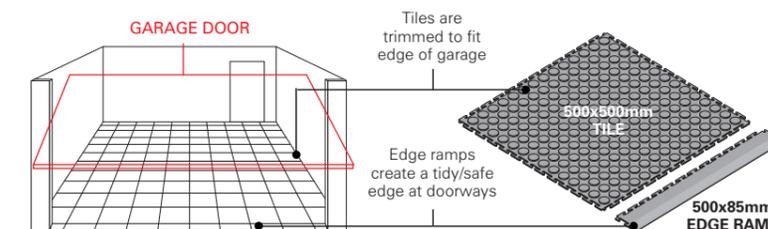

Raised disk surface

Smooth textured surface

PVC floor tiles have become an increasingly popular choice in the domestic garage because they are easy to fit and require no adhesive, so a normal double garage can usually be covered in a day and used immediately.

PVC floor tiles form a great thermal, noise and dust barrier. If you are using your garage as a multi-use room such as a gym or playroom, this is the perfect choice. PVC tiles are available with raised disks (studs) or a smooth textured finish.

7mm heavy-duty floor tiles

	Black	Light Grey	Dark Grey	Green	Blue	Yellow	Red
Heavy-duty raised disk tile 500 x 500mm	EFT7-100	EFT7-200	EFT7-220	EFT7-400*	EFT7-500	EFT7-600*	EFT7-700*
Heavy-duty smooth textured tile 500 x 500mm	EFT7-101	EFT7-201	EFT7-221	EFT7-401	EFT7-501	EFT7-601	EFT7-701
Heavy-duty edge ramp 500 x 85mm	ERS7-101	ERS7-201	ERS7-221	ERS7-401	ERS7-501	ERS7-601	ERS7-701

* Special order product, please call for details.

In some instances, cars with very soft compound tyres can stain floors, so it is sometimes worth considering the use of a tyre mat under the tyres, or the application of a semi-sealant solution.

PORCELAIN FLOOR TILES

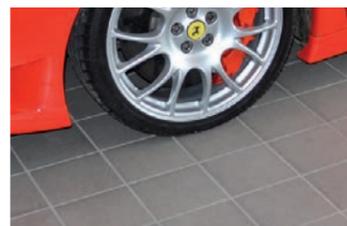

The luxurious floor surface for your garage

Porcelain tiles are virtually free of maintenance, other than regular cleaning requirements of a home, office or work place.

Porcelain tiles are common in automotive workshops as they are extremely hard wearing. Tiles specifically for professional automotive workshops, with raised patterns, have improved anti-slip properties over normal ceramics when wet and are ideal for garages.

Porcelain tiles, though more expensive than painted floors, will last a long time and prove a good investment. They look great, are easy to clean, and are available in a wide selection of colours and finishes.

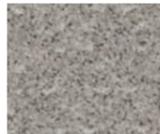

For estimates and samples, please contact our design team on 01280 700563.

CEILING PANELS

The complete garage transformation!

To give your garage a convincing 'room-like' feel, we recommend our ceiling cladding system. The tongue and groove design allows the ceiling panels to be fitted quickly and easily – covering existing ceilings or exposed roof joists, and provides support for downlights. Call our design team on

01280 700563 for a quotation, layout advice, or further product information.

- CGPW-001**
Ceiling Panels - White 4 pack
Pack of 4 interlocking ceiling panels (each panel 250 x 2700mm) covers a total area of 2.7m².
- CGJHW-001**
'H' Joining Strip - White
2.7m long 'H' profile strip for joining ceiling panels by their exposed short edges.
- CGSTW-001**
Starter Trim Strip - White
2.7m long starter trim for fixing to perimeter of ceiling.

OTHER GARAGE PRODUCTS

Loft Insulation and Hatches
If you have a new ceiling fitted, you may need loft insulation or possibly a loft hatch. Our installation team can fit these at the same time as the ceiling
Please ask for full details and prices.

GDS-015
Door Seal Strip
In addition to our floor finishes, you may wish to include a door seal strip. This 15mm high seal strip is made from high quality thermoplastic, designed to form a watertight seal between the garage door and the floor. Helps to eradicate the damaging effects of wind-blown rainwater and may also prevent small rodents from entering the garage. Thermoplastic is both environmentally friendly and recyclable.
Priced per metre including sealant.

VAC-001
Space Saving Garage Vacuum
When it comes to tidying your garage, using a conventional vacuum cleaner can often prove to be impractical and time consuming. This compact GarageVac requires very little wall space and has a 2.4m hose that **stretches to 12m!** Designed with an integrated tool caddy to keep all attachments organised and in one place.
Please ask for full details.

DESIGN & INSTALLATION SERVICES

From customised cabinets to flooring and wall storage, our expert team will work with you to design and install your dream garage, ensuring your fit-out is as efficient and stress-free as possible.

“ Let our expert team turn your garage ideas into reality ”

THE COMPLETE DESIGN AND INSTALLATION SERVICE

With Dura, you have the option to use our expert team to handle everything for your garage transformation from start to finish. You may wish to tackle the installation yourself, as all of our products come with fitting instructions and we are never more than a phone call away if you need help and advice. However, for most installations we recommend using our expert team, as we offer a complete package from design to installation, leaving you to enjoy your new garage!

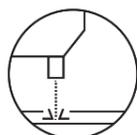

1. Survey and consultation

In order to gain a complete understanding of your requirements, we can undertake a detailed survey and consultation at a time to suit you.

2. Planning Service

Once we have collated all your information, we can then create a series of 2D and 3D visuals to show you just how your dream garage can look.

3. Manufacture and Assembly

Using our state of the art manufacturing facility in Plymouth, we'll then make sure that each of your cabinets is produced to the highest standards and to your exact specification.

4. Professional Installation

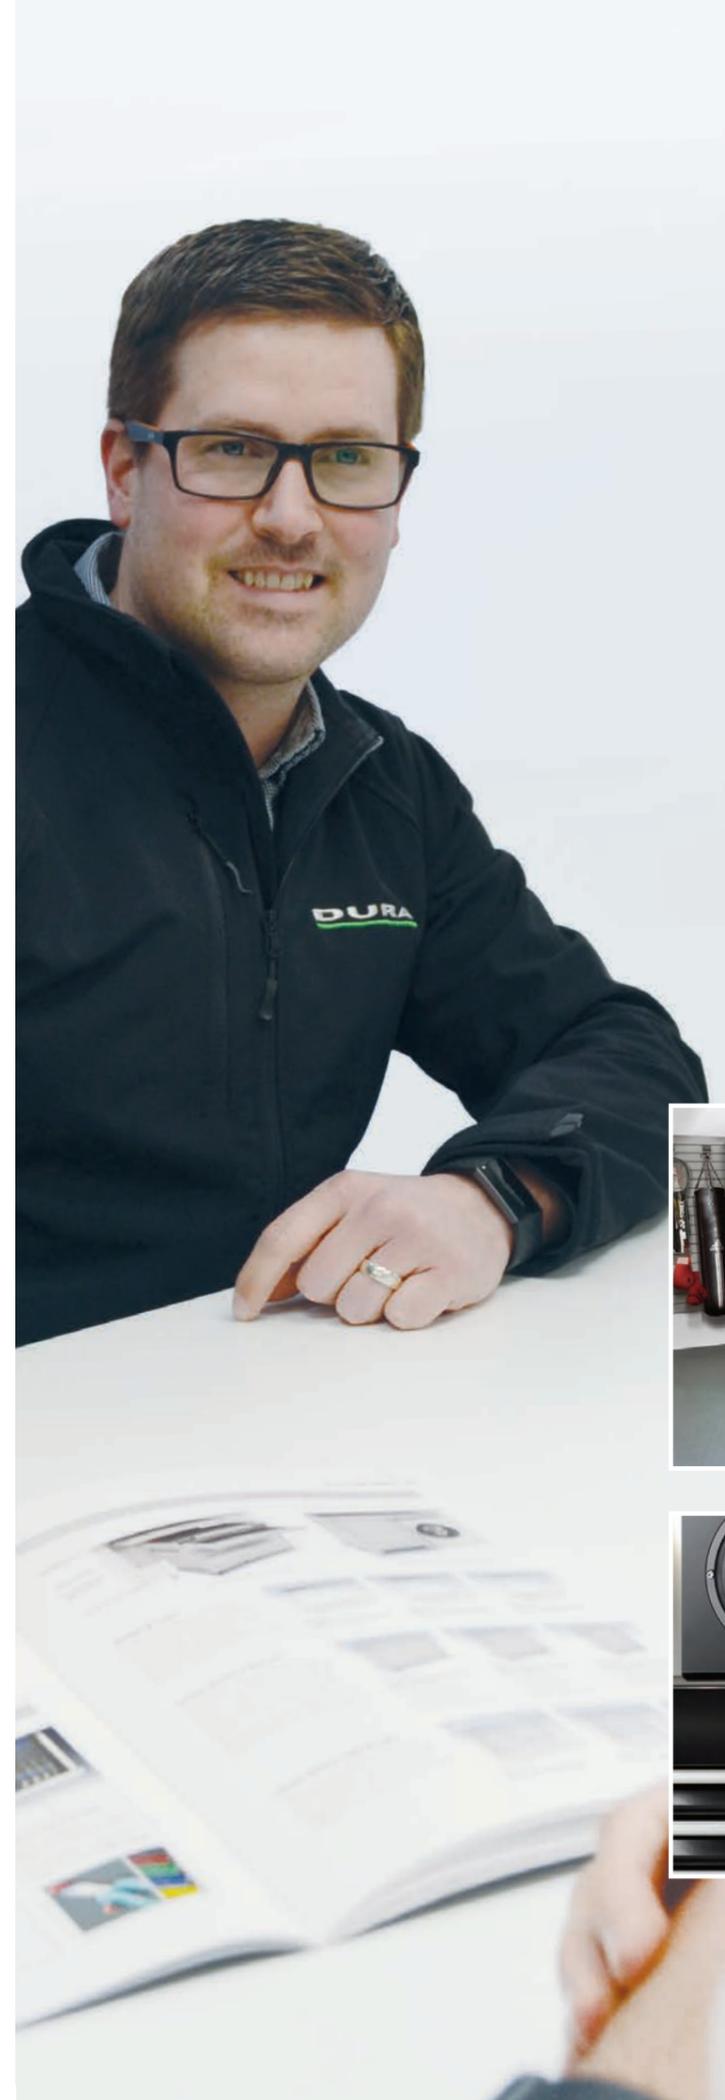

To ensure your garage installation runs completely smoothly, our experienced team of installers will carry out every step, ensuring your fit-out is completed to the highest finish.

1. Survey and Consultation

We have over 20 years of experience in transforming garages with thousands of satisfied customers, so you know you are in safe hands. From an initial conversation we can usually establish your approximate requirements and give you a ball park figure.

In most instances this would be followed by a site survey, which is a free service with no obligation. One of our experts will survey your garage noting the type of construction of your garage walls (brick, thermalite™, concrete block etc), any obstructions such as pipes, cables, boilers etc, and take accurate measurements. We can then discuss what you want to use your garage for – a family garage, a multi-use gym or a fitting home for your favourite car. This will help us to determine the best design for you.

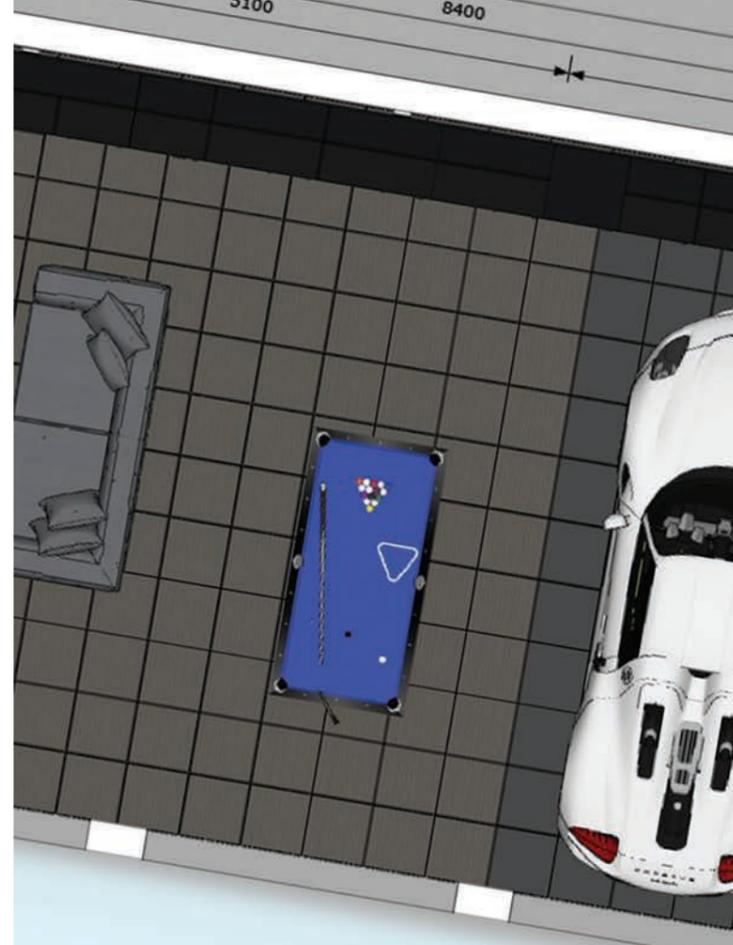

2. Planning Service

Using the survey information, our expert designers will put together a layout to suit your exact requirements. These are the same designers that work on projects for major prestige automotive brands, so you can be reassured that you're getting the best possible service.

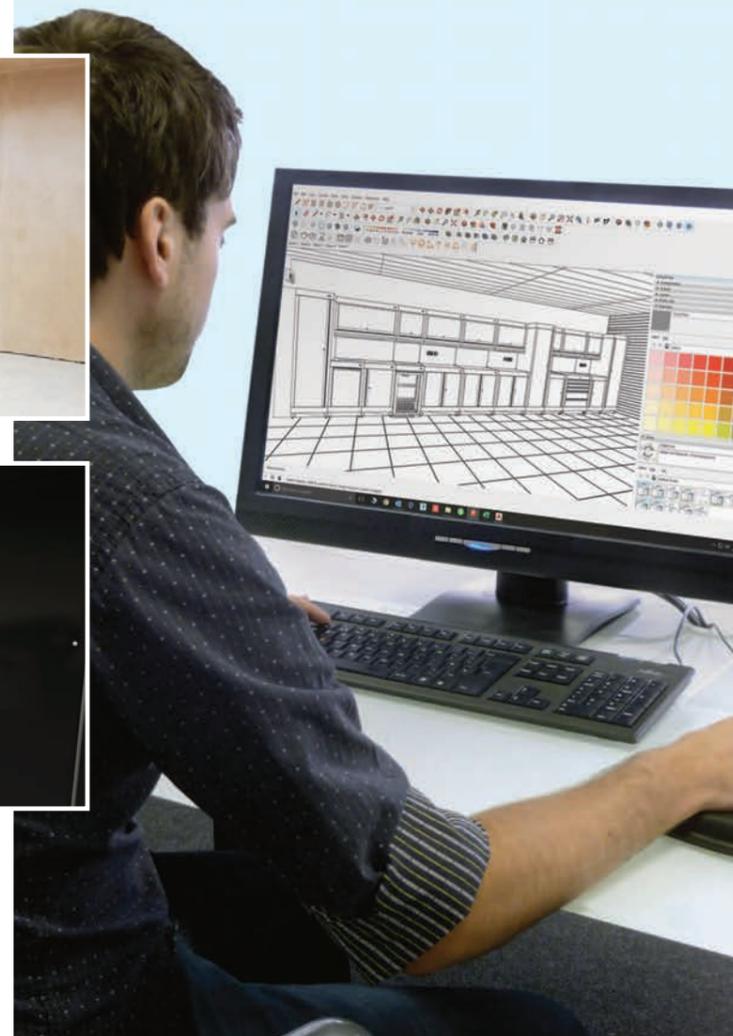

Our designers will produce a computer-generated visual for you so you can see exactly how your transformed garage will look. This will be sent to you with a complete quotation (with no hidden extras!). If the layout isn't quite how you would like it, let us know and we will be happy to change it, offering suitable alternatives or layouts.

FINISHED INSTALLATION

3. Manufacture and Assembly

Dura cabinets are manufactured at our own factory in Plymouth – the same cabinets as supplied to the world’s leading automotive brands, so you can be assured of their quality.

Cabinets are laser cut for perfect accuracy, before being folded using the latest CNC machinery. They are then welded prior to going through a pre-treatment and paint process that is designed for the tough garage environment.

Dura cabinets are made to order, so we are able to offer custom options such as a special colour or graphics. Finally our cabinets are assembled and fully checked prior to shipment. We are so confident in our quality that we offer a FREE 5-Year Guarantee.

4. Professional Installation

Our friendly installation team can handle everything for a smooth, stress-free installation. Each individual cabinet is assembled at our factory, but some items such as shelving units and benches require final assembly on site.

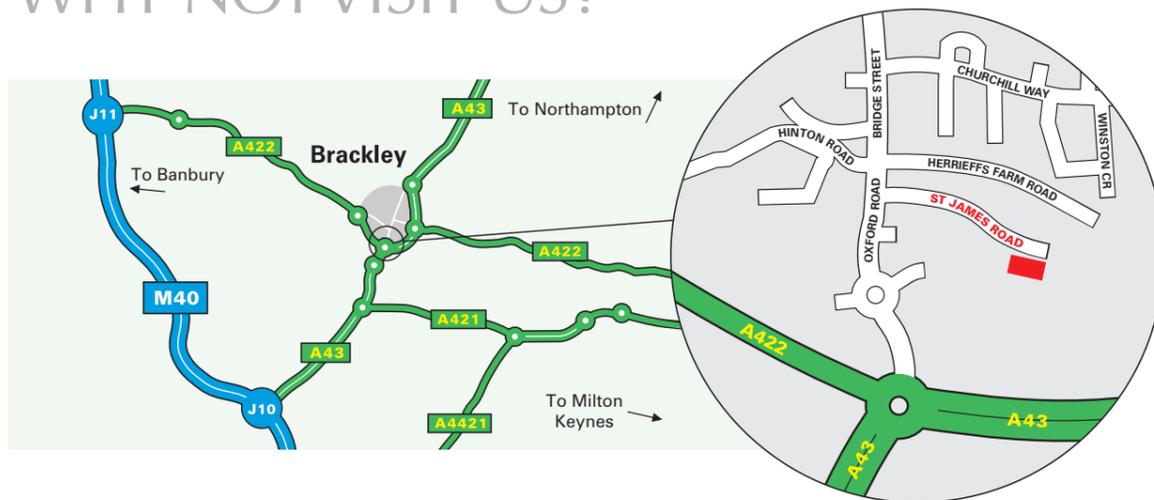

Our installers will unpack and check each item, then working to the designer’s drawings, will assemble your individual combination, making sure the cabinets are securely fixed and accurately levelled. Wall cladding panels will be cut and fitted to suit, using batons where required, and flooring installed with the right allowances for expansion.

Finally our team will clear and remove any packaging associated with the installation, leaving you to enjoy your garage!

WHY NOT VISIT US?

You are welcome to visit our showroom at our headquarters in Brackley, where we have a full range of products and cabinets for you to try out.
