

# DATRON Digital Experience Session

**23rd March 2022, 2 p.m. - 2:45 p.m.**

## **Milling for beginners and switchers**

**With DATRON next you control your productivity like a smartphone**

{BRIEFANREDE[std:Sehr geehrte Damen und Herren]},

Concentrated knowledge summarized for you in an entertaining way: This is what the DATRON Digital Experience Sessions stand for. Experience "the Best of" DATRON next control in March and see that industrial high-speed milling is easier to learn than any other solution.

### **Are you a milling beginner?**

Then you can use DATRON next to control a 3-axis CNC milling machine in the shortest possible time via the intuitively understandable software. Operate DATRON next as easily as your smartphone. Wizard functionalities and the integrated camera guide you through the milling program in just a few steps. Let yourself be guided to the corresponding functions by self-explanatory icons and realistic tools, components, etc. displayed in 3D

## Are you already a milling professional?

Then see for yourself how, while simply to understand, you are dealing with a full-fledged control system that meets even the highest industrial demands. DATRON next gives you comprehensive access to the parameters and to the inner behavior of the machine. Using the integrated editor, you can, for example, create complex milling strategies and make necessary adjustments in existing programs. The programming language allows you to create programs with loops and conditions. In addition, extensive technology functions are available to you for controlling the dynamic behavior, contour smoothing or the spraying system.

A control that adjusts to any experience level and saves precious time? **That is DATRON next!**

**Register now for free!**

During the **Digital Experience Session**, our DATRON experts will of course be available to answer your questions via live chat.

Do you have questions about the DATRON Digital Experience Sessions? Write to us at **experience@datron.de**.

We are looking forward to meeting you!

**Love to serve you:**

**Benjamin Böck** - Head of Prototyping & Testing

**Marc Reis** - Head of Tech Academy
