PREFILTER

PE

Technical Data

-  Polyethylene
-  25 µm
-  99%
-  -20°C to +80°C
-  Max. 2 bar @ 20°C
-  Aluminium end caps
-  Perbunan Gaskets

Ultrafilter offers filter elements for most compressed air applications. These high quality filter elements are made with the finest pleating technology and aluminum endcaps. Unique to the industry with their extremely low differential pressure.

PE elements are made of a sintered polyethylene filter media and guarantee absolute retention rates. By using various filtration mechanisms – such as direct impact and sieve effect – contaminants down to the size of 25 µm are being retained.

Features and Benefits

- Pure highly molecular polyethylene filter media
- High dirt holding capacity and low differential pressure
- Guaranteed retention rate
- Homogenous pore structure for optimised regeneration capabilities

Applications

- Machinery industry
- Chemical and petrochemical industry
- Pharmaceutical industry
- Food & beverage industry
- Plastics industry
- Prozessindustrie
- Instrumentation and control air
- Klima control

THE SCANDINAVIAN FILTRATION PARTNER

SHOP ONLINE

At www.ultra-filter.com you will find a wide selection of filtration products ready for you to order.

ABOUT US

Ultrafilter Scandinavia offers a wide selection of filtration products for compressed air, liquids and gas. We have stock in Denmark and from here we distribute all of our products to Scandinavia and the Baltic countries.

Ultrafilter Scandinavia is a part of the Ultrafilter group. Our production facility is in Germany and we have several subsidiaries in Europe and the United States.

You can buy our products on local websites. Information about our products as well as brochures and manuals can be found on our website (www.ultra-filter.com).

We can adapt all of our filtration products to your needs, and we offer visits from our consultants in order to find the right solution for you. We also offer on going service on our products once they are installed.
