

Global provider of fluoropolymer surface solutions; applicator of coatings, professional consultancy service

ACCOAT

Oil and gas Coating systems

Accoat has a solution for your Coating needs

Whitford Xylan - complete range of fluoropolymer coatings

Molykote Coatings - Heat cure coating for high loads

Gardobond® R zinc-phosphate – high-efficient conversion coatings

Chemours™ StreaMax™ - Minimizing the accumulation and deposition in production tubulars of asphaltenes, paraffins, and scale.

Solvay Plastics, Specialty Polymers High Performance Polymers

Zinc Flake Technology -No hydrogen embrittlement

Accoat A/S

We innovate surfaces through intelligent coatings

Competencies

- High grade polymer coating
- One stop shop supplier of project solutions
- Small scale production, up scaling and high volume production
- Capable of handling heavy items
- Engineering consultancy services
- Product and process development
- Project management
- Outsourcing
- Logistic solutions

Capacity

High Grade Fluoropolymer Coatings, require Heat Curing.
Accoat has a wide range of Curing ovens, with the following dimensions:

- 13,5m x 3,2mx 3,2m
- 9m x 3,4m x 3,4m
- 6m x 3,4m x 3,4m
- 3m x 3m x 2m
- 10 additional smaller Ovens

Quality:

- ISO 9001
- ISO 14001
- Achilles
- DNV-GL
