

The Scanhugger HL 2/5/5 shredder is designed for shredding most any type of wood waste, hardwood and softwood trim blocks, particleboard and MDF, furniture parts, paper and cardboard .
Depending on the material to be processed and the desired chip quality, the machine can be mounted with various screen sizes.

TECHNICAL DATA:

Hopper dimension		524 x 612 mm
Hopper volume (standard hopper)		0,3 cbm
Rotor diameter		Ø 140 mm
No. of knives	1)	14
No. of counterknives	1)	1
Rotor speed	2)	100 RPM
Main motor	2)	7,5 kW
Screen perforation	2)	15 – 30 mm
Chip length	2)	20 – 40 mm
Capacity	2)	80-130 kg/hour
Weight		560 kg
Sound level L _{pa}	3)	81 dB
1) DEPENDING ON ROTOR AND KNIFE		
2) DEPENDING ON MOTOR SIZE, MATERIAL AND SCREEN PERFORATION		
3) IN ACCORDANCE WITH ISO/DIN 11204, PREN691		

EXCLUSIVE ROTOR AND KNIFE DESIGN [1-2]

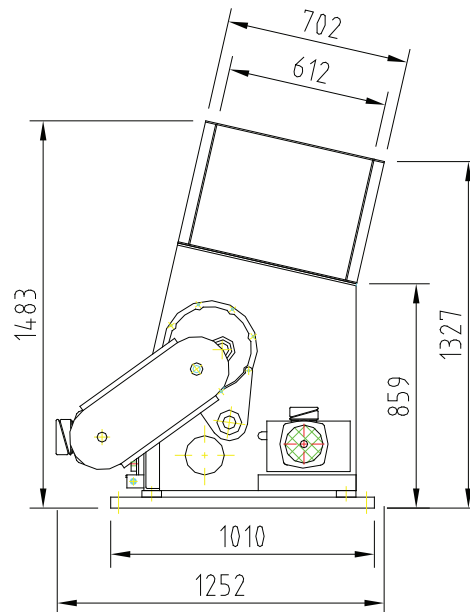

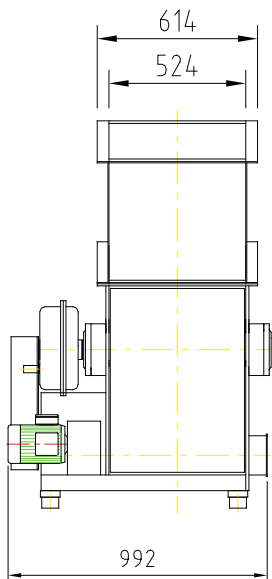

the knife and knife precision mounting arrangement ensure a long tool life, optimal chip quality and easy maintenance.

CHIP QUALITY [3]

the rotor, knife design together with the heavy duty chip screen ensure a high chip quality. The screen has square holes. Hole sizes range from 15 – 30 mm.

OUR SCANHUGGER LINE-UP [4-5] , coupled with a full range of options and auxiliary equipment enables us to build turnkey wood waste systems.

- auxiliary hopper extensions customized for each application
- pneumatic discharge systems
- auger and conveyor systems
- magnet systems for separation of ferrous metals from chips
