# Expose your company in the right context

Target your marketing and be seen in the proper context. Nordiske Medier's newspapers have more readers than any other professional media, with many of our readers being important decision-makers. Our print newspapers tune in to relevant focus areas in the respective industries. You have the opportunity to make your company visible in specific themes and magazines through various ad formats.

The selection of ad formats is plenty. You can find some classic examples of formats

on the next page. We also offer creative formats to increase the possibility for greater attention which text and images cannot always do that alone.

It is possible to place an ad connected with relevant editorial content in different sections and themes, providing your marketing increased credibility and ensuring that it is read and not just seen. Print ads have long-lasting effects and great branding value, so even though significant developments have been made in online advertising, we still see print ads as effective

means of visibility for many years to come. The print ads are also in the electronic iPaper and the PDF version.

You can access the iPaper and PDF versions on both computers or tablets - these are also the readers' newspaper archives. We are constantly optimising circulation to reach the target audiences even more profound and precisely than other media. We do this continuously to be able to deliver targeted advertising opportunities.

For HTML5 banners specifically

When delivering HTML, all source material must be collected and sent in a zip file. The zip file must max fill ten MB.

It will be an advantage that The HTML5 file stays inside a frame of 20 seconds.

HTML5 files can only be used

for banners on the portal because mail programs cannot handle the file type.

Forward fallback banners

for use on mobile and tablet screens if HTML and script banners are not made responsive.

Advertisement guidelines

The difference between advertisement and editorial content must be clear to the readers. Therefore, ads must differ from the editorial layout - both on the portal and in the newsletter, so readers are not misled and think that an ad is an article written by the editorial staff.

Generally, advertisers are asked to use a different font than ours. The word "Advertisement" appears on the website automatically just above the banner. However, the term "Advertisement" should be stated clearly at the top of the ad when advertising in the newsletter, so there is no doubt that it is an ad - in doing so, we follow the legislation in this area.

If we consider the ad too close to the editorial texts, we will request the change font and/or add the company logo so that it is clear that it is an advertisement. We do this to live up to the rules laid down by the Consumer Ombudsman.

Furthermore, all advertisements should only concern own business and own products - i.e. none misleading or bad publicity of the competitors - in doing so, we follow the Marketing Act.
