

High viscosity cosmetics

ViscoMT barrel emptying systems – 1 system 2 solutions!

 **Improve now your production and packaging process!**

Production of cosmetics:

Barrel emptying of raw compounds, e.g. Vaseline®

- ✓ No fusing required
- ✓ Rapid availability of the raw material
- ✓ Exact dosing out of the barrel
- ✓ Savings of time, energy and personnel

Packaging of cosmetics:

Product feeding to a filler

- ✓ No pressure surges to the filling devices
- ✓ No surge drum required
- ✓ Residual in the barrel <1%
- ✓ No product shearing
- ✓ No product oxidation
