raumplus

ET STRIBE AF EKSKLUSIVITET

Det er de små detaljer, som gør hele forskellen. Giv overfladen på dine skydedøre et unikt karakteristika med en stribe af vores eksklusive »*Wooden Selection*«.

Vores nøje udvalgte træsortiment er tilgængelig i flere forskellige farver og overflader og giver vores skydedøre et individualiseret design. Vores træsortiment kan bruges som et iøjnefaldende element uden at udhule dit budget. Vi har taget en bevidst beslutning om at tilbyde dig det trendende egetræ, som lige nu begejstrer indretningsarkitekterne. Vores sortiment fås i en sribet format af forskellige designs, farver og strukturer frem for en ensformig farveblok. Vores udvalg varierer lige fra fuldfarvet »*Beam Oak*« med karakteristiske knaster til den grovsavede »*Velvet Black Oak Veneer*« med en mat finish. Alle varianter kan kombineres med adskillelige **raumplus** materialer. Læs videre for at finde den kombination som fascinerer dig mest.

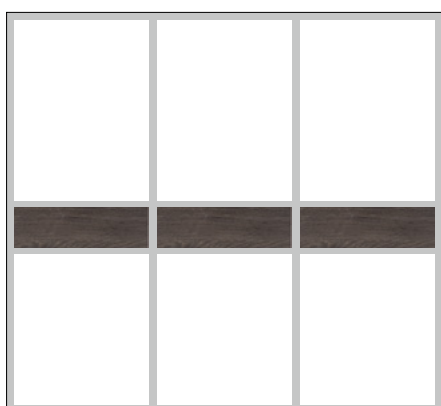

It makes that small difference, giving sliding door surfaces a unique design character – our exclusive »*Wooden Selection*«.

Available in a range of colors and surfaces, the carefully selected collection of premium veneers delivers individualized front designs for our doors. Used as an eye-catching accent, it expands visual diversity without making too much of a hole in the budget.

We have taken a conscious decision to offer on-trend wood oak, currently wowing interior designers, in a striped format made up of different designs, colors and structures instead of as a single color block. The range covers the whole spectrum from fully-dyed »*Beam Oak*« with a characteristic grain and knot holes through »*Velvet Black Oak Veneer*« with a rough sawn structure and mat lacquer finish. All variations can be combined with numerous **raumplus** materials – each one in itself an exclusive interior design story. Read on to find the one that fascinates you most.

DESIGN BY NATURE

De seks alsidige varianter er fælles om deres stamfader - Egetræet.

»Old Nature« består af en specialudviklet konstruktion af finér, som er færgjort til en sort MDF plade. Den er tilgængelig i naturlig farve eller i grå nuancer. »Oak Color« er fuldfarvet egefinér med et matlakeret og grovsavet look, som er tilgængelig i Velvet Black eller Graphite Gray. »Beam Oak« er skåret fra solide egestammer og har et naturligt look takket være dens knaster. »Beam Oak« er tilgængelig i Silver eller Vintage Gray - begge fuldfarvet og børstet før matlakering.

Uanset hvilke stribe du vælger, så vil du have et unikt look - Med venlig hilsen Modernatur

Everything at a glance. The six versatile stripe variations are united by their common ancestor - the oak.

»Old Nature« consists of a specially developed veneer construction attached to a black MDF core. It is available in natural color or gray versions. »Oak Color« is a fully dyed oak veneer with a mat lacquered, rough sawn look achieved with the help of a fine gate saw cut and available in Velvet Black or Graphite Gray. Beam Oak is as the name suggests, sawn from solid oak beams and has a natural look thanks to its splits and knot holes. It is available in two versions - Silver or Vintage Gray - both fully dyed and brushed before being given a mat lacquer coating.

No matter which stripe you decide on, you will always have a distinctive look - compliments of Mother Nature.
