Wood Supply

Wood Supply is a Danish online media outlet that covers the wood and furniture industry – one of Denmark’s largest export sectors with an annual turnover of over 25 billion DKK. Through daily news articles, reports, and analyses, we closely follow the players in the wood industry, ranging from large, well-established companies to smaller, local businesses.

We investigate what’s happening among manufacturers, sawmills, and wholesalers, while also covering the kitchen industry, window manufacturing, timber merchants, and building centers. This ensures that the reader is always well-informed about the latest market moves and strategies in the wood industry.

Wood Supply is published digitally on wood-supply.dk and as a daily newsletter.

Technical Specifications - Online

Deadline

The deadline is arranged with the graphic designer, who will provide the booked advertising campaign, specifications, and deadline. Delivery of Finished Material If finished material is provided, the deadline is 2 business days before the start.

The advertisement, including the link to the landing page, is sent directly to the email: online@nordiskemedier.dk.

Graphic Assistance

If you need a graphic designer to assist with your design, the following requirements apply to images, logos, and text.

Images should be at least 80 DPI in the file formats .jpg, .tiff, .eps, .psd, and .png.

Logos and graphic elements are provided as .eps or .ai vector graphics. The text is sent separately in .docx format or in the email with the material. Material for our production should be received no later than 10 days before the advertising

campaign is scheduled to start. Banners are created for free when banners are ordered for a minimum of 2 months; otherwise, the price is 500 DKK per banner.

Banner Advertising

Our site is responsive, and the banners adapt to the screen they are displayed on. Please note that the banners are legible on different screens.

The banners share space with up to 3 others. However, title banners are displayed alone, while sticky banners share space with up to 2 others.

The banners rotate with each page shift. All banners can be either static or animated – HTML5, gif, or script – except for the title banner. Banners are delivered in the following formats: .jpg, .gif, .png, or HTML5.

Specific to HTML5 banners

When delivering HTML, we need to receive a zip file with the entire source material.

The zip file must not exceed 4 MB. It is advantageous for the HTML5 file to stay within a 20-second timeframe.

HTML5 files can only be used for banners on the portal, as the file type cannot be handled by email programs. If HTML and script banners are not made responsive, a fallback banner must be provided for use on mobile and tablet screens.

Guidelines for advertisers

It must be clear to the readers what is an advertisement and what are articles written by the editorial team.

Therefore, advertisements should distinguish themselves from the layout - both on the portal and in the newsletter, so that readers are not misled and do not believe that an advertisement is an article written by the editorial team.

In general, advertisers are requested to use a different font than ours.

On the website, the word "Advertisement" automatically appears just above the banner, but when advertising in the newsletter, the word "Advertisement" should clearly appear at the top of the advertisement, if there is any doubt that it is an advertisement - so we comply with the legislation in this area.

If we consider the advertisement to be too close to the editorial texts, we will request a change in font and/or the addition of the company's logo, so that it is clear that it is an advertisement.

This is done to comply with the rules set out by the Consumer Ombudsman.

Furthermore, only advertising for one's own company and products is allowed - meaning no misleading or negative mention of competitors - in order to also comply with the Marketing Act.
