

# Reliability on the road without compromises

Products for public sanitary facilities  
made by Franke Water Systems

**FRANKE**

”

## PEOPLE TAKE CENTRE STAGE

Where there are many people who have the same needs all at the same time, it is easy to see who must take centre stage in our thinking and actions: that's people!

To make sure that this guiding principle does not merely remain lip service, our harmonised product solutions support planners, clients and operators in their efforts to implement this idea. For users, this means: easy-to-operate sanitary technology system solutions that guarantee the highest level of hygiene without having to compromise on comfort and design.

## Public washrooms

Sanitary products used in publicly accessible toilet facilities at railway stations and airports must be able to withstand the most severe conditions. The extremely high rate of users combined with a constantly changing array of people do not always make these points of contact pleasant.

High-quality, sturdy washbasin taps and flush valves as well as accessories that, ideally have touch-free operation, meet these challenges superbly. A bright and friendly design combined with a long service life and easy-to-clean surfaces promote the clean appearance of these sanitary facilities. What remains is a good feeling – even in public washrooms.

### OUR EXTENSIVE RANGE OF SOLUTIONS FOR WASHING FACILITIES:

- Washbasin taps
- Washbasins made of stainless steel or mineral granite
- Accessory lines
- Accessible washroom equipment

## Durable sanitary solutions

### Public Toilet Facilities

Public toilet facilities can be an unpleasant situation the ideal combination for urinals and toilet facilities are optimum cleanliness, hygiene and no unpleasant odours. Frequently, however, not even one of these ideals can be found in public toilet facilities.

These usually problematic facilities requires the use of reliable flushing valves such as push-button flush or the latest in flushing systems, such as automatically controlled electronic flush valves. For sanitary facilities, it is recommended to use urinals and toilet bowls made of easy-to-clean, durable, vandal resistant stainless steel.

”

NO LONGER  
FOLLOWING  
THE NOSE ...

### **OUR EXTENSIVE RANGE OF SOLUTIONS FOR FLUSHING FACILITIES:**

- Touch-free electronic flush valves for automatically flushing urinals and toilets
- Electronic flush valves with piezo buttons for toilets
- Push button flush valves for toilets and urinals
- Urinal and toilet bowls made of stainless steel
- Urinal dividers
- Accessory lines

# Safety First

## Sanitary facilities on motorways

Nowhere is there such an anonymous coming and going of people in toilet facilities than at motorway rest stops. The constantly changing group of users increases the risk of dirtiness and vandalism. Reliability and hygiene can be assured here only by using exceptionally durable and easy-care sanitary fittings made of stainless steel that comes with intelligent, touch-free water control.

Safety aspects are also paramount when designing the equipment of sanitary facilities. The risk of vandalism, the appropriate sanitary facilities must be provided to counteract. Durable fitting systems as well as stable stainless steel solutions, are all part of our safety product range.

**OUR EXTENSIVE  
RANGE OF SOLUTIONS  
FOR SPECIAL APPLICATIONS:**

High-security range with:

- Taps
- Wash place units
- Washbasins
- WCs & urinals
- Accessories

Water management system  
AQUA 3000 open

# AQUA 3000 open

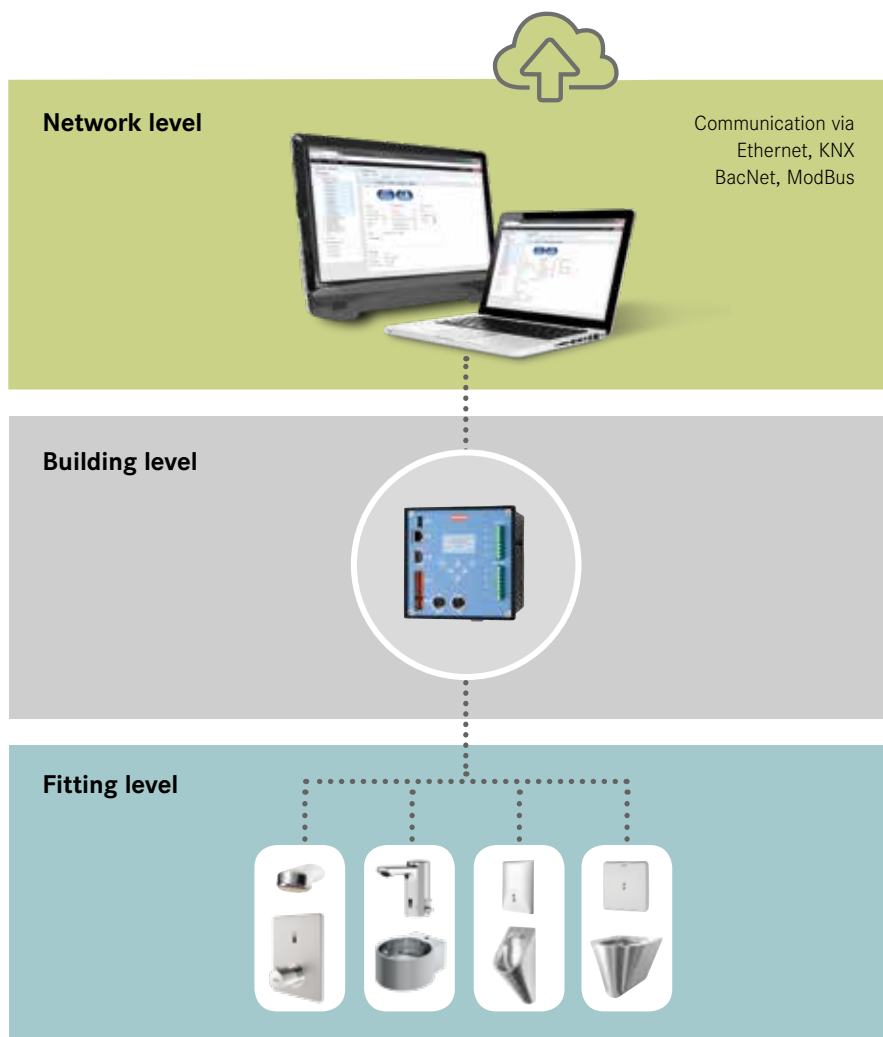

## Water management system

### Smart Building: Manage water efficiently on the go

The requirements made of sanitary facilities in highly frequented and safety-relevant areas are continuously increasing. The AQUA 3000 open water management system, consisting of fittings and accessories, sets new standards. The focus of attention will be the energetic optimisation of building operation for operating costs, building safety and building safety and the best-possible level of drinking water hygiene.

The intelligent water management system enables the central control and monitoring of the entire drinking water installation within the building and can be connected via KNX-IP, for example, over a standardized RJ45 interface in the ECC2. Franke has also been a member of the KNX Association since 2016. For a spatial subdivision within a building or for performing safe and effective hygiene options, it is useful to divide all

of the taps connected to an ECC into groups. All data and related taps parameters can be extracted directly, showing the date and time. The extracted data are available in csv format and can then be displayed by the operator in their preferred format. The internal storage time is a maximum of three months. The easy-to-read, illuminated display simplifies reading and navigation in the menu.

#### SCOPE OF FUNCTIONS

- Water hygiene flushing
- Thermal disinfections
- Switching operating modes
- Deactivation of cleaning
- System fault messages
- Statistic functions
- Sequential controls
- Connection to computer-aided building management systems
- Mobile access via Internet to the system for remote maintenance
- Sending error messages via SMS to up to 5 recipients

## Our Materials

### Stainless steel & MIRANIT

**InoxPlus**  
by Franke

### Stainless steel – high quality material

Using AISI 304 chrome-nickel steel as the basic material for equipment in public and industrial facilities has the following four benefits: The material is robust, easy-care, hygienic and inhibit vandalism. Chromium nickel steel is not just resistant to moisture and most acids; it also stands out due to its hardness, durability, high tolerance with respect to heat and cold, and its hygienic properties.

Dirt and grease can be easily washed from the smooth, pore-free surface. Scratches and nicks on covers soon lose their hard-edged contours and blend into the surface.

#### InoxPlus Surface finishing

The EXOS. Accessories and the front surfaces of STRATOS products are refined using proven InoxPlus technology as standard. With this technology, nano-particles intermesh with the molecules of the metal surface and cling tightly to the microscopic irregularities. The resulting ultra-fine structure makes fingerprints virtually invisible. As a result, the sanitary facilities remain cleaner for longer, making cleaning significantly easier.

### MIRANIT – stable and elegant material

Sanitary basins made of resin-bonded mineral granite are, in the truest sense of the word, produced seamlessly from a single source and are ideally suited for the modern and aesthetic design of sanitary facilities in public buildings. MIRANIT is a stable compound consisting of approximately 80% natural minerals such as marble powder, sandstone and quartz sand and approximately 20% high-quality unsaturated polyester resin. Due to its excellent fluidity, the res-

in-bonded mineral material can also be used to create products of almost any shape with a minimal material thickness as well.

The fracture-resistant material is enclosed in a smooth, pore-free and high-polished exterior skin. This colouring gel coat is easy-care and extremely durable. Even water temperatures up to 80°C have no detrimental effect on standard-coloured Gelcoat surfaces.

#### Benefits in comparison with sanitary ceramics

- Increased stability with respect to impact strength and breaking strength
- Clear form language due to very flat surfaces and small radii
- Row washbasins and niche washbasins can be installed up to a total width of 3.60 m
- Damaged surfaces can be mended with special repair sets and the washbasins can be machined mechanically

The composite material offers important benefits in providing customised solutions for optimum utilisation of space in the sanitary facilities of sports venues, industry, hotels and restaurants as well as hospitals and healthcare institutions.

## Product solutions for washing facilities

### Self-closing valves and mixers

## Product solutions for shower facilities

### Self-closing mixers

F3S-Mix self-closing  
in-wall mixer  
**F3SM2004 + F3BX2001**

F5S-Therm self-closing  
thermostatic in-wall mixer  
**F5ST2004 + F5BX2001**

### Electronic mixers

F3E-Therm electronic  
thermostat in-wall mixer  
**F3ET2001 + F3BX2001**

F5E-Therm electronic  
thermostat in-wall mixer  
**F5ET2004 + F5BX2001**

R5 Franke system box with sliding  
adhesive flange as mounting material  
for in-wall mixers for shower facilities  
**F5BX2001**

### Shower heads

AQUAJET-Slimline  
**AQUA751**

MÜNCHEN  
**SHMU0012**

### Shower panels made of stainless steel | Paid supply of water | Shower tray

F5S-Mix shower panel  
**F5SM2020** with shower head  
**SHAS0011**

F5E-Therm shower panel  
**F5ET2020** with shower head  
**SHAC0011**

AQUAPAY coin-operated  
controller for single shower unit  
**AQUA801**

AQUAPAY coin-operated controller  
for multiple shower systems  
**AQUA803**

Shower tray  
**CMPX401**

## Product solutions for flushing facilities

### Urinal flush valves

AQUALINE urinal flush valve  
for surface installation  
**AQRM460**

FLUSH-C urinal flush valve  
for in-wall installation  
**AQLN0005 + AQLN0006**

PROTRONIC electronic urinal  
flush for surface installation  
**AQRE430**

### WC flush valves

AQUALINE WC flushing valve  
for surface installation  
**AQRM559**

AQUALINE WC flushing valve  
for in-wall installation  
**AQRM555 + AQRM556**

AQUATIMER - A3000 open WC  
controller for in-wall installation  
**AQUA501 + AQUA500**

PROTRONIC - A3000 open WC  
controller for in-wall installation  
**AQUA502 + AQUA500**

### WC controllers and flushing plates for cisterns

AQUATIMER - A3000 open  
electronic WC controller  
**AT300051**

EXOS. - A3000 open  
electronic WC controller  
**EXOS0027**

Flushing plate with  
dual-flushing  
**AQUA555**

### Installation frames for flushing facilities

for urinal, with basic  
installation kit for FLUSH-C  
**AQFX0002**

for WC, with basic installation kit for  
AQUALINE, AQUATIMER, PROTRONIC  
**AQFX0008**

for WC, with cistern for EXOS.,  
AQUATIMER flushing plates  
**AQFX0007**

Subframe  
for grab rails  
**AQFX0004**

## Urinal bowls, urinal dividers, row urinals made of stainless steel

CAMPUS wall-mounted  
urinal  
**CMPX538**

CAMPUS waterless wall-  
mounted urinal  
**CMPX538WF**

CAMPUS  
urinal divider  
**CMPX560**

CAMPUS  
urinal divider  
**CMPX700**

CAMPUS row urinal  
**CMPX551GE**

## WC pans, squat toilet made of stainless steel

CAMPUS wall-mounted  
WC pan  
**CMPX592**

CAMPUS wall-mounted WC pan  
with shroud to the floor  
**CMPX597**

CAMPUS accessible  
wall-mounted WC pan  
**CMPX594**

Squat toilet  
**CMPX504**

## Grab rails, wall-mounted foldable grab rails

CONTINA grab rail, straight  
**CNTX300W**

CONTINA grab rail  
**CNTX700WA**

CONTINA angled grab rail  
**CNTX21W**

CONTINA grab rail  
**CNTX40NL**

CONTINA wall-mounted foldable  
grab rail with toilet roll holder  
**CNTX73A**

CONTINA wall-mounted foldable grab  
rail with electronic flushing button  
**CNTX72F-R**

## Accessories EXOS.

### Soap dispensers / disinfectant dispensers

EXOS. soap dispenser  
**EXOS618X**

EXOS. electronic soap  
dispenser  
**EXOS625X**

EXOS. foam soap  
dispenser  
**EXOS616X**

EXOS. electronic  
disinfectant dispenser  
**EXOS627X**

EXOS. disinfectant  
dispenser  
**EXOS629X**

EXOS. soap dispenser  
for recessed mounting  
**EXOS618EX**

EXOS. electronic soap dispenser  
for recessed mounting  
**EXOS625EX**

EXOS. foam soap dispenser  
for recessed mounting  
**EXOS616EX**

### Hand dryer, towel dispenser

EXOS. electronic  
hand dryer  
**EXOS220X**

EXOS. towel dispenser  
for paper roll  
**EXOS637X**

### Towel dispensers / waste bins / combination

EXOS. paper towel  
dispenser  
**EXOS600X**

EXOS. paper towel dispenser  
for recessed mounting  
**EXOS600EX**

EXOS. waste bin  
**EXOS605X**

EXOS. waste bin for  
recessed mounting  
**EXOS605EX**

EXOS. paper towel dispenser/  
waste bin combination for  
recessed mounting  
**EXOS602EX**

### Hygiene waste bins

EXOS. hygiene  
waste bin  
**EXOS611X**

EXOS. hygiene waste bin  
for recessed mounting  
**EXOS611EX**

### Toilet roll holder

EXOS. double toilet  
roll holder  
**EXOS676X**

EXOS. double toilet roll holder  
for recessed mounting  
**EXOS676EX**

### Toilet brush set

EXOS. toilet  
brush set  
**EXOS687X**

## Accessories STRATOS

### Soap dispensers / disinfectant dispenser / hand dryer

STRATOS soap  
dispenser  
**STRX618**

STRATOS electronic  
soap dispenser  
**STRX625**

STRATOS soap dispenser  
for recessed mounting  
**STRX619E**

STRATOS electronic  
disinfectant dispenser  
**STRX627**

STRATOS electronic  
hand dryer  
**STRX220**

### Paper towel dispensers

STRATOS paper  
towel dispenser  
**STRX600**

STRATOS paper towel dispenser  
for recessed mounting  
**STRX600E**

STRATOS paper  
towel dispenser  
**STRX637**

STRATOS electronic  
paper towel dispenser  
**STRX630**

STRATOS paper towel/soap  
dispenser combination  
**STRX601**

### Combination

### Waste bins, combination

STRATOS waste bin  
**STRX605**

STRATOS waste bin for  
recessed mounting  
**STRX605E**

STRATOS hygiene  
waste bin  
**STRX611**

STRATOS paper towel dispenser/  
waste bin combination  
**STRX602E**

### Dispenser

STRATOS toilet seat paper  
cover dispenser  
**STRX680**

### Toilet roll holders

STRATOS double  
toilet roll holder  
**STRX672**

STRATOS double toilet roll  
holder for recessed mounting  
**STRX671E**

STRATOS large  
toilet roll holder  
**STRX670**

### Toilet brush set

STRATOS toilet brush set  
**STRX687**

### Clothes hook

STRATOS double clothes hook  
**STRX694**

STRATOS clothes hook  
**STRX692**

## Accessories RODAN und ergänzende Produkte

### Soap dispensers / disinfectant dispenser

RODAN soap  
dispenser  
**RODX619**

RODAN soap  
dispenser  
**RODX618**

RODAN soap dispenser  
for recessed mounting  
**RODX618E**

RODAN electronic  
soap dispenser  
**RODX625**

Table soap  
dispenser  
**SD80**

RODAN electronic  
disinfectant dispenser
