ENGINEERING YOUR SUCCESS.

# Surveying and consulting services to the offshore and maritime industry

Parker Maritime provides a wide range of services including subsea metrology, 3rd party verification dimensional control surveying onshore and offshore, vessel and ROV attitude verifications and GNSS "health checks", as well as maritime services like seabed mapping. In addition Parker Maritime has developed and manufactures the ParkerPMS™ for shuttle tankers and other vessels.

Parker Maritime was established in Stavanger in the early 1970's to serve the offshore industry with maritime and industrial related surveying services and is now a part of Parker Hannifin Corp - Tube Fittings Division Europe

## Our main markets

- Oil & Gas companies
- Marine industry and yards
- Offshore and Seabed-to-surface contractors
- Public services
- Pipeline, power and telecom cable owners
- Offshore Wind mill installation companies

# Services and products

We develop unique services and competitive products to meet the high requirements of our clients. Parker Maritime accomplishes this by keeping a highly qualified staff and the best equipment available.

Today Parker Maritime works world wide and cover a range of services and products including:

## Dimensional Control

Dimensional control consists of acquisition, processing and presentation of geographic and geometrical information. The information is used as basis for construction, prefabrication and mating of constructions as well as verification and control.

## Subsea metrology

SICAMS® is the perfect tool for subsea metrology with millimetre level accuracy. SICAMS® uses

photogrammetry principles to extract 3D dimensions and coordinates from images.

construction, dredging and filling. Surveys of harbors, pipe- and cable routes has been performed along the Norwegian coastline.

## Windmill Installation Survey

Installing windmill monopiles and transition pieces offshore demand precision survey on the fly.

## Heading Calibration and GNSS Control

Vessel Reference System - Parker Maritime establishes a vessel 3D reference system. This coordinate system is based on the vessel centreline, rudder stock and reference plane based on main deck.

## Position Monitoring System

The main purpose of the Position Monitoring System, ParkerPMS™ (formerly named BlomPMS™), system is to increase safety during offshore loading of crude oil

## Seabed Survey

High resolution seabed mapping to IHO specifications. This includes hydrographic surveys and engineering surveys for con-

## Software

Parker Maritime distributes Olex MBES. Olex MBES is a real time charting system for multi beam echo sounder.
