Spring ideas for greater productivity

Invitation

Solution Days 2015 in Losone/Switzerland

Would you like to step into spring with new ideas for more efficient production? Join us at the Solution Days in Ticino for the latest insights into how to raise your productivity and competitiveness. Experience live how you can produce around the clock with the latest manufacturing technology and automation. You will learn at first hand from GF MS customers how together we have raised productivity by as much as 50%.

We will show you how GF Machining Solutions successfully manufactures all die-sinking EDM machines in Switzerland and exports 92%. Growth of 13% in 2014 testifies to the success of our strategy.

We hope you will take up our invitation to visit us during the Solution Days in Losone; in the present competitive climate we must all become more efficient, and we are therefore very pleased to present you our solutions on the following date:

Thursday, April 16th

17:00 Welcome and aperitif, followed by dinner, overnight stay

Friday, April 17th

08:30 – 15:00 Solution Day
