

# cabicon

The ideal supplier for  
industrial, power &  
electrical installation

■ High quality selection of:

# VETTER

Cabicon delivers complete solutions within cable handling and equipment - whether you work in or above the ground.

- Cable Reels in several materials and high quality means that you can always find what suits your needs.
- Handling of very large cable reels.
- Complete program of short or long cable pull.

We also provide equipment to pull cables in large dimensions.

Cabicon will assist you with the calculations of equipment requirements and capabilities for your project.

The quality of Vetter products is recognized by its high demand around the world.

# FRÄNKISCHE

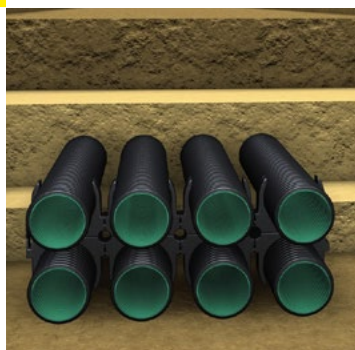

---

FRÄNKISCHE

FRÄNKISCHE develops, produces and sells pipes, shafts and system components made of plastic and metal.

With their range of products, they provide perfect solutions for structural and civil engineering, automotive and industrial applications.

Since 1906 Fränkische has continuously developed their expertise, know-how and consulting skills.

This combined with a consistent high product quality, has made them the marketleader in many fields and a very reliable partner.

# MEASUREMENT INSTRUMENTS

Cabicon - your choice within measurement technology.

Not sure which category to choose - CAT IV, CAT III or CAT II?

When you buy a voltage tester or a multimeter from Cabicon, you do not have to worry about choosing the right measurement instrument with the right category.

Cabicon only sell selected equipment to ensure the quality of the product, which meet IEC 61010-1 and is categorized with CAT IV.

The customers of Cabicon should not risk using the wrong measurement instruments for the wrong tasks - it's all about your safety.

- Voltage Tester
- Multimeter
- Insulation Testers
- Clampmeter
- Thermometers
- Differential thermometer
- Microohmmeter
- Combitesters - SKS
- Loopmeters

# TOOLS

---

A connection is no better than the crimp tool that has been used.

That is why it is important to use the right tool for pressing different connections.

Cabicon offer high quality tools, which is half of what it takes, to get a job well done.

The wide range of tools and machines means that we can solve almost every request you may have.

Contact us for a discussion and a good deal.

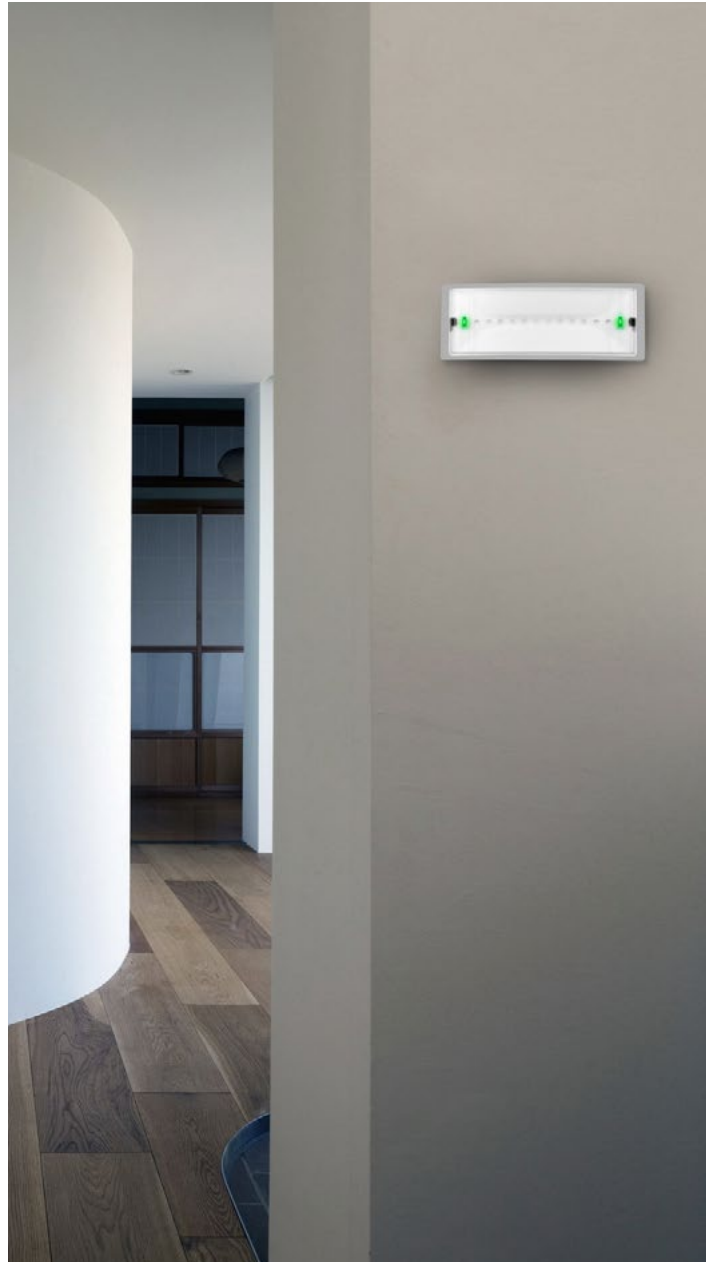

# SAFETY & SECURITY SYSTEMS

Greece based Olympia Electronics deliver security equipment to 72 countries all over the world, their high quality products and WCM (World Class Manufacturing) ensure the constant improvement of the product.

The company has an extraordinary focus on innovation and R&D, this is your choice for a stable, modern and safe security system.

Contact us on [sales@cabicon.com](mailto:sales@cabicon.com) for more details on the products.

# MEGGER

Cabicon offers our customers test and measuring instruments from Megger and “Programma” - now Megger Sweden AB.

Megger is among the worlds best producers and suppliers of test and measurement instruments for power plants, electrical installations and telecommunication industry.

Megger is known by all who works with electrical engineering.

Megger has an extensive program of professional test and measurement instruments:

- Insulation testers
- Transformer testers
- Transformer oil testers
- Battery testers
- Earth testers
- Cable testing and fault locating equipment

Contact us by phone:  
+45 7623 4400 and get a good deal on equipment suitable for your task.

**Megger**

# CONNECTIVITY

Cabicon has a very wide range of connectivity products.

This includes a large variety of different types of ferrules - both insulated and uninsulated.

Along with our quality tools, you can achieve just the right compression of your connections.

This is your assurance of correct work.

**cabicon**

# CABLE GLANDS

---

At Cabicon we offer our customers glands from the German company - RST.

RST has for more than 20 years supplied fittings to more than 25 countries.

RST is known for their wide and well-structured ranges of cable glands.

Cabicon offer cable glands in:

- Brass
- Stainless steel 316
- EMC
- Polyamid
- EX / ATEX

All cable glands are tested and certified to ensure the quality in heavy industrial use.

# INDUSTRIAL POWER SUPPLY

Cabicon has a large selection of products within industrial power supply, ranging from CEE plugs, distribution boxes, circuit breakers, extension cords to panelboards.

**We are able to find solutions for almost any request or product requirement, call us for more information about this.**

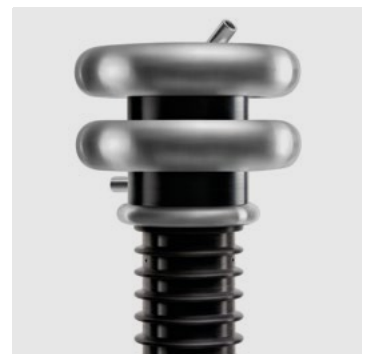

# CABLE TEST & ANALYSIS

Cabicon offer equipment for VLF, PD and Tan Delta test and analysis of MV and HV cables.

We offer the most advanced, compact and lightweight VLF tester on the market. This is your essential tool for mobile field work by boat, car or any other situation where test on wind, power, and offshore installations are needed.

**Cabicon offer courses and training within these products, contact us for more information.**

## IN- & OUTDOOR LIGHT W/ SENSOR

---

Cabicon possess a small but well chosen selection of luminaires with built-in sensor for in- and outdoor use on: facades, parking areas, hallways and basement locations etc.

The luminaires are designed for mounting on wall or ceiling.

**Call us or take a look at [www.cabicon.com](http://www.cabicon.com) for more information about these products.**

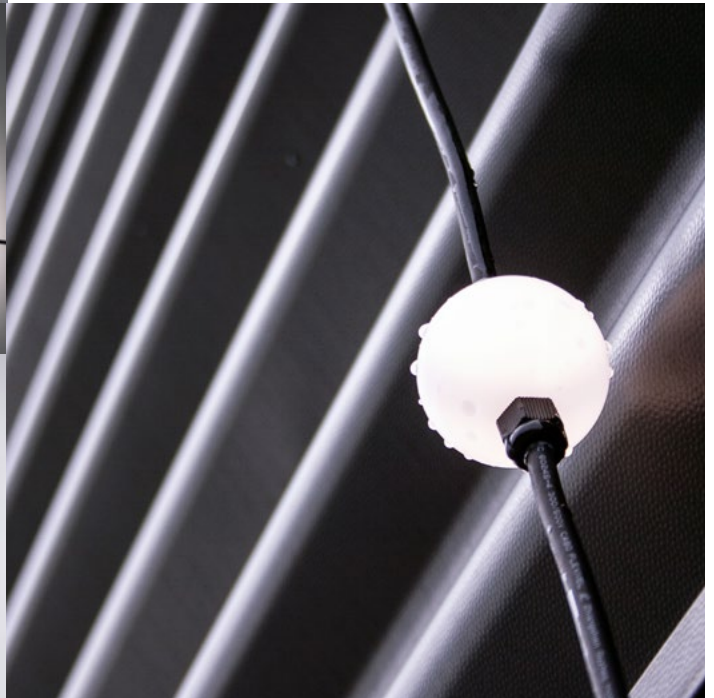

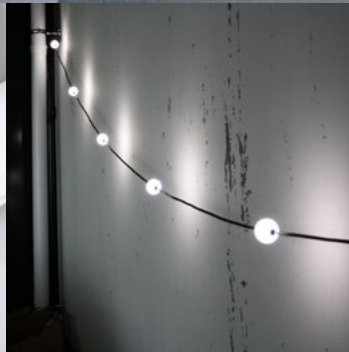

# INDUSTRIAL LIGHTING

---

LED construction site lighting in halogen-free plastic. The luminaires are fire resistant UL94 HB approved and pass the requirements for the European standard EN606180-1.

The luminaires are available with single or double LED tubes and with plastic or steel clips.

The choice is yours whether your luminaires are with or without cables.
