Experience meets the
spirit of innovation

After four years, we are delighted to be back at AMB in 2022 – a major milestone in the large trade fair landscape.

Our ambition is to provide you with solutions that enable you to produce reliably and competitively in your day-to-day business – at maximum availability and productivity, 24/7. To achieve this, we need to take a holistic approach to manufacturing solutions. That is why the main focus of HELLER's appearance at AMB will be the 360° performance for your production. To us, 360° means offering solutions beyond the machine. For this, we are placing the spotlight on five solution areas, focusing on your requirements in modern manufacturing.
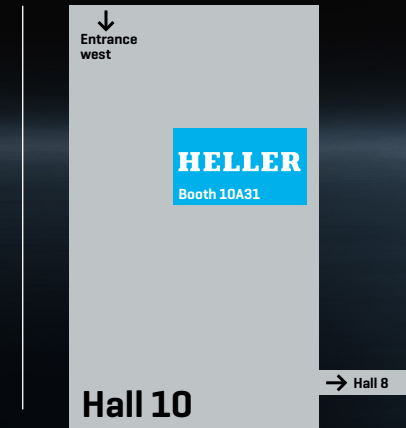

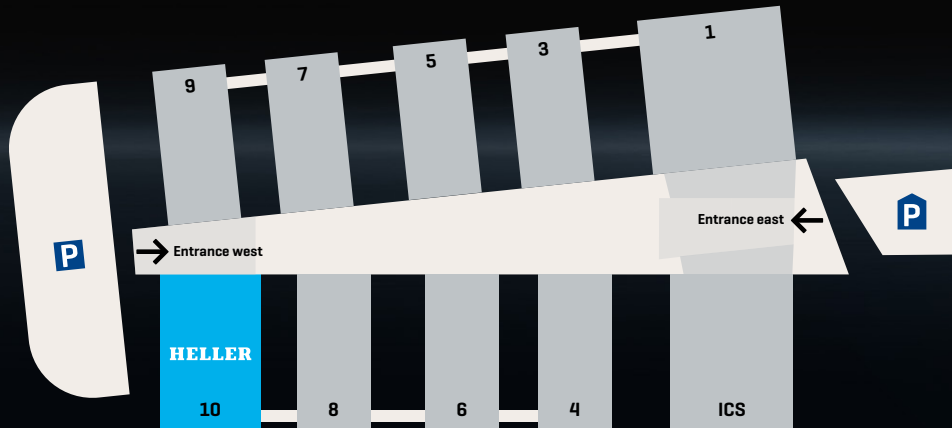

Discover 360° solutions from HELLER at AMB:
_ HF 5500 5-axis machining centre with mill-turn function
_ H 4000 4-axis machining centre with robotic automation
_ Rotary pallet storage system as stand-alone exhibit
_ products for the digitisation of production
_ a comprehensive range of services
_ innovative manufacturing processes and technologies
  for complete machining on a single machine
