Electronic Supply

We are close to the Danish electronics industry

The industry medium Electronic Supply delivers news, insight and perspective to and about the Danish electronics industry.

We cover everything from the smallest EMS company to the very big players, and span topics such as drones, sensors, 5G hardware, re-search, battery systems, and what the creative and dedicated industry otherwise manages.
We are involved when companies break the code for good business, when a new director announces new times and when it floods in with orders and employees.

Our focus is on news, but we also just go about the industry and deliver stories about startups, or how the good idea turned into a whole company with wind in its sails.

Our mission is to create inspiration and enthusiasm in the industry.

Marketing channels

Tailor-made marketing creates value

The newsletter is sent out daily to over 4,900 individuals and unique visitors on the portal are on an average 1,500 to 2,000 a day, with an average of 2 page views.

The combination of insertions in the newsletter and the portal, advertising in the newsletter and banner advertising makes it possible to gain a variety of marketing advantages, compared to traditional marketing.

- Advertising usually takes place over a longer period of time, which is convenient for most companies and their continuous need for marketing.
- What is more, the adverts are targeted towards specific market segments and decision makers. 50 views by the right people, is of course more effective than 50,000 views by random groups of people. The individuals we sign up for our newsletter are mainly business managers, purchasing managers, production managers and development managers.
- Marketing via the internet is much cheaper compared to the outcome than marketing via traditional media sources, direct mails etc. Compared to all other media types, the exposure is much higher.
- The construction of the degree of knowledge is either available through frequent views of either insertions or adverts. In a world where customers seek information themselves, new skills and new subcontractors online, the most important aspect when it comes to marketing is to create brand awareness.
- The immediate road from Attention to Response. Besides information about the number of views and thereby the brand awareness, we also deliver information on the number of direct clicks from adverts to the website.
- Your insertions are available whenever the customer has a current need, and seeks a solution. It does not matter whether the customer seeks information via the portal or search engines.
- Direct access to your contact information, which makes it easier for the customer to seal the deal faster.
- Search engine optimisation is an additional gain.

Based on these facts online advertising is a growing sector, while traditional advertising and marketing activities are diminishing. (source: "Dansk Oplagskontroll" – The Danish Audit Bureau of Circulations)
This synergy between the portal, the newsletters and advertising is also the main reason why advertisers are advised to become members.

All advertisements on the portal or in the newsletters are relevant for the industry. You will never find advertisements for phone companies etc. on our portals. 80% of our readers find that is an important factor in our services.

Advertiser Guidelines
It should be clear to readers what are ads and what are articles written by the editors. Therefore, ads must differ from the layout - both on the portal and in the newsletter, so that readers are not misled and think that an ad is an article written by the editors.

In general, advertisers are asked to use a different font than ours. On the website, the word Advertisement appears automatically just above the banner. In contrast, on advertising in the newsletter, the word Advertisement should appear clearly at the top of the advertisement, if there is no doubt that it is an advertisement - so we follow the legislation in this area.

If we consider the ad to be too close to the editorial texts, we will ask to change the font and/or add the company logo so that it is clear that it is an ad. This is done to live up to the rules laid down by the Consumer Ombudsman.

Furthermore, you only have to market for your own company and your products - i.e. no misleading product comparisons or bad publicity of competitors - then the Marketing Act is also complied with
