

The World's Most Trusted Industrial Bolting Systems

Digital jGun™

The First FRL-Free Torque Gun with LCD Display

Features:

- The only pneumatic multiplier that does not require a filter/regulator/lubricator
- Instant torque readout on built-in display for quick verification
- In Line Air Regulator for fast and easy torque adjustment
- New motor design eliminates need for lubrication and air dryers
- Built-in cycle counter for convenient operation and maintenance
- Built-in silencer reduces operational noise and vibration
- Highest power-to-weight ratio of any comparable torque wrench
- Compatible with the HYTORC Washer and HYTORC Nut

TORQUE GUN

A HYTORC COMPANY

120 WESLEY ST., S. HACKENSACK, NJ 07606

ACCESSORIES

HYTORC WASHER

Replace your standard washer with the revolutionary HYTORC Washer to optimize your bolted joint. This simple upgrade is the best value in the industry for increased safety, speed and accuracy on bolting jobs.

HYTORC NUT

The HYTORC Nut™ is a perfect solution for limited radius applications. Applications set into a pocket or a counter bore pose a problem with conventional tooling. Standard drive extensions and machined down accessories compromise the safety of the operator.

OFFSET LINKS

For tight spaces and limited overhead clearance, the offset link is the answer. This slim-design link works with our full line of pneumatic and hydraulic tools and is available with various sized hex cartridges to fit on all applications.

DIMENSIONAL DATA

	Torque Range	Drive	Bolt Sizes	H	L	R	RPM	Weight w/o Arm	Weight w/ Arm
