The place to meet for the industry

The industry's daily **NEWSLETTER**

Nordiske Medier is a young company, which runs commercial networks within the industrial sector. Together with our associated company in Sweden, Norway and Denmark we are over 115 employees divided between our offices in Denmark, Oslo in Norway and Gothenburg, Sweden. We manage the following networks:

[Licitationen – Byggeriets dagblad](#), [Jern & Maskinindustrien](#), [Mester Tidende](#), [Motor-magasinet](#), [Transportmagasinet](#), [Magasinet Pleje](#), [Building Supply](#), [Metal Supply](#), [Food Supply](#), [Wood Supply](#), [Electronic Supply](#), [Energy Supply](#), [IndustriNyt idag.dk](#), [RetailNews](#), [Metal Supply Sweden](#), [Food Supply Sweden](#), [Building Supply Sweden](#), [Entreprenad Supply Sweden](#), [Skog Supply Sweden](#), [Metal Supply Norway](#)

With our different business portals, Nordiske Medier has created a unique forum, where suppliers, subcontractors and buyers can get in contact with each other, nice and easy. It is also possible to gather information about other businesses, exchange news items with each other, sell products, machines, skills to each other, place job adverts, sell surplus stocks and used machines, etc.

Every day, our newsletter goes out to 200,000 key persons. Our members and advertisers have a unique opportunity to get in touch with these key persons through our newsletters and portals. Our portals and newsletters are characterised by the fact that they contain relevant content for every single user.

Today, we are the focal point within the industry when it comes to information flow and effective contacts and connections within the industry. We have a close co-operation between the industry portals, which makes it easy for our members to construct a dialogue with the different industries.

Our work is always forward-looking with increased internationalisation in mind, in order to make communication and commerce between Denmark and the foreign countries easier and more effective.

Target group / users of Electronic Supply

Electronic Supply uses permission marketing, which is highly effective within internet marketing.

We contact all key figures in the industry by phone, in order to get their acceptance prior to adding them to our newsletter. The majority says yes to a subscription to our daily newsletter. Furthermore, we also have a group of people, who subscribe to our newsletters on their own initiative.

There is an ongoing renewal of the recipients due to job change or similar reasons. Every month, we cancel subscriptions, if the newsletter continually bounces back to us. The number of subscribers reflects the majority of important people and decision makers within the industry. What is more, we never pass on email addresses to a third party, when we add a subscriber.

The newsletter is sent out daily to over 4,500 persons within the industry. Electronic Supply has over 400 companies as members in Denmark, which actively uses the portal in their everyday work. We cover companies widely spread all over Denmark, and in all sizes.

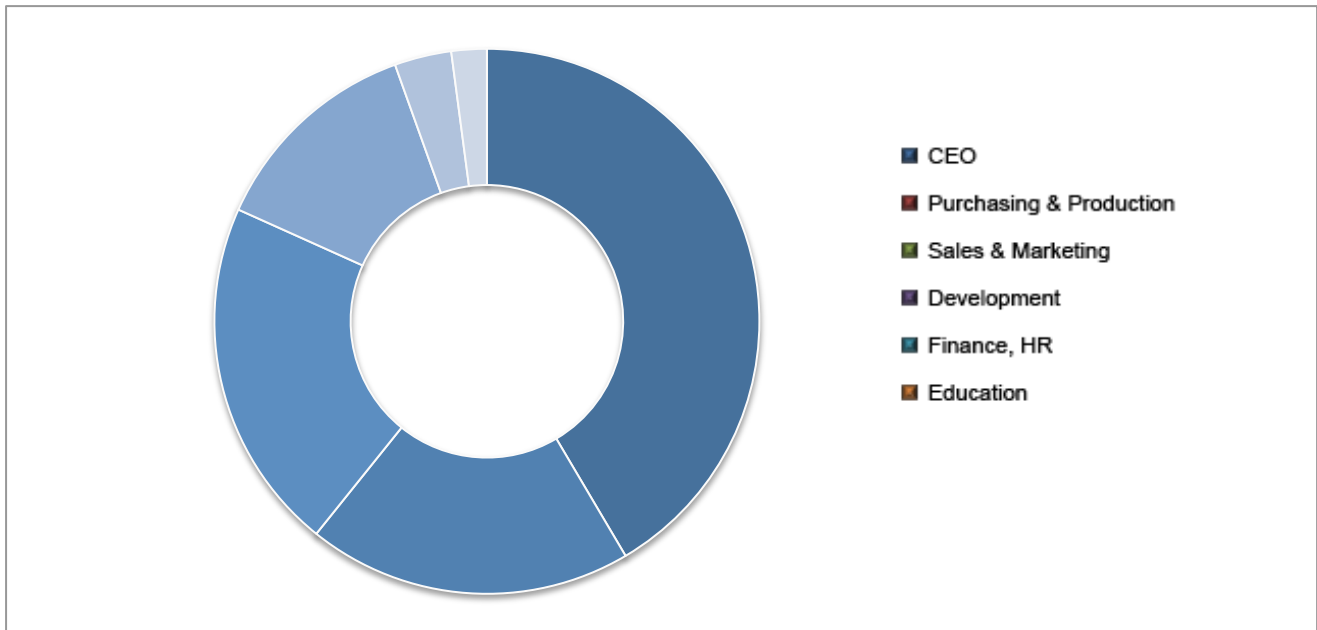

The user profile and the subscribers of our newsletter are characterised by the fact that they are decision-makers. In other words, they are primarily business managers, purchasing managers, production managers, sales managers etc.

Add to this, salespersons and buyers in general, because they use the newsletter in order to keep themselves updated about what goes on in the industry.

The allocation of readers of the newsletter compared to the business.

The allocation of readers compared to job position

In February 2010, we asked our subscribers to fill out a survey concerning Electronic Supply. 327 users chose to give their opinion.

Here are some of the conclusions from the analysis:

- 64% of the subscribers have subscribed to the newsletter for more than 12 months, and 80% read the newsletter 3-5 times a week.
 - > In comparison, 45% of Electronic Supply's readers read the paper every day.
- 55 % describe Electronic Supply as their main/key media within the electronic industry.
- 65 % click on the content of the newsletter 3-5 times a week.
- 65 % have recommended the newsletter from Electronic Supply to a colleague.

The newsletter is sent out daily to over 4,500 individuals and unique visitors on the portal are on an average 1,000 to 1,500 a day, with an average of 2 page views.

The combination between insertions in the newsletter and the portal, advertising in the newsletter and banner advertising makes it possible to gain a variety of marketing advantages, compared to traditional marketing.

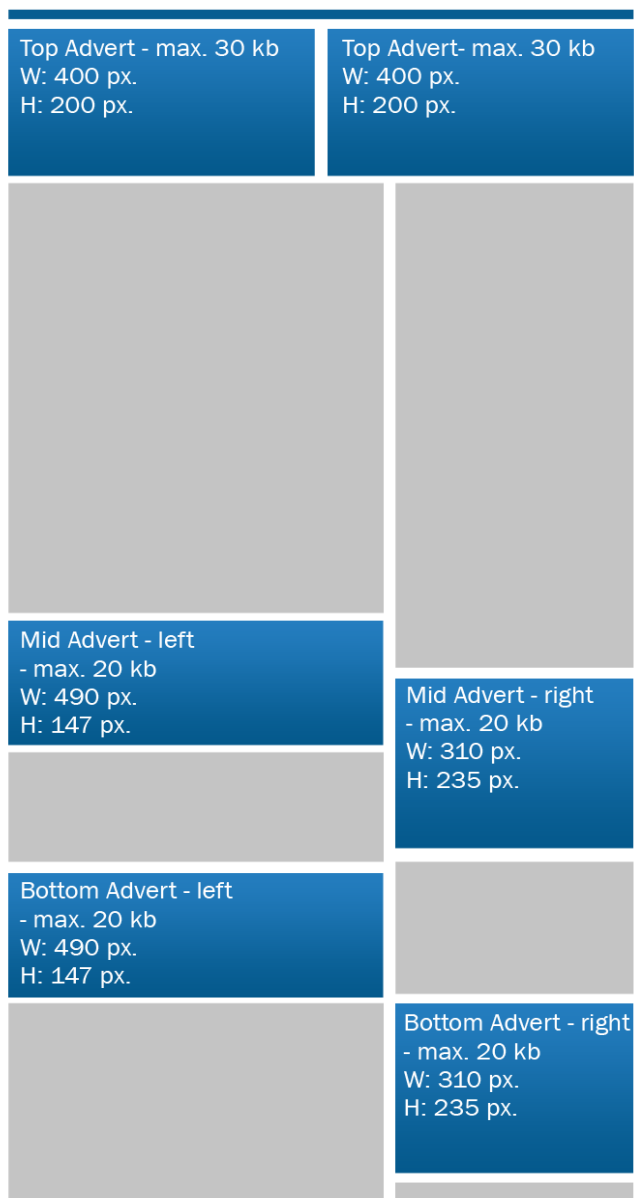

- Advertising usually takes place over a longer period of time, which is convenient for most companies and their continuous need for marketing.
- What is more, the adverts are targeted towards specific market segments and decision makers. 50 views by the right people, is of course more effective than 50,000 views by random groups of people. The individuals we sign up for our newsletter are mainly business managers, purchasing managers, production managers and development managers.
- Marketing via the internet is much cheaper compared to the outcome than marketing via traditional media sources, direct mails etc. Compared to all other media types, the exposure is much higher.
- The construction of the degree of knowledge is either available through frequent views of either insertions or adverts. In a world where customers seek information themselves, new skills and new subcontractors online, the most important aspect when it comes to marketing is to create brand awareness.
- The immediate road from Attention to Response. Besides information about the number of views and thereby the brand awareness, we also deliver information on the number of direct clicks from adverts to the website.
- Your insertions are available whenever the customer has a current need, and seeks a solution. It does not matter whether the customer seeks information via the portal or search engines.
- Direct access to your contact information, which makes it easier for the customer to seal the deal faster.
- Search engine optimisation is an additional gain.

Based on these facts online advertising is a growing sector, while traditional advertising and marketing activities are diminishing. (source: "Dansk Oplagskontroll" – The Danish Audit Bureau of Circulations)

This synergy between the portal, the newsletters and advertising is also the main reason why advertisers are advised to become members.

All advertisements on the portal or in the newsletters are relevant for the industry. You will never find advertisements for phone companies etc. on our portals. 80% of our readers find that is an important factor in our services.

Possible placements of the advertisements in the newsletter
