Licitationen

Licitationen - Byggeriets Dagblad has, for the past 100 years, been the only daily newspaper in Denmark that focuses daily on all the most important things within the construction industry. And we continue to believe that an industry that is in continuous development to such an extent and has such a vast influence on all branches of society needs its own daily newspaper.

We want to be the natural first choice for everyone who wants to be close to developments and deliberate coverage of the construction industry. Licitationen - Byggeriets Dagblad focuses on the companies, their strategy, economic situation, and construction projects - from initial design to delivery.

We cover the industry's personality gallery through exciting interviews, portraits, and

name news that bring out personal stories. In this way, our readers gain insight into new developments in the industry, whether to find new customers, be in close contact with competitors and colleagues or follow the development of ongoing projects.

We bring in-depth knowledge of the industry's financial key figures, development, and trends with thorough monitoring of the companies' accounts and personnel gallery. Both in the daily newspaper, in interviews and analyses, as well as in a number of special magazines that we publish throughout the year. Including, among other things, Who is Who and Byggeriets Top. We publish

Licitationen in print, as an e-newspaper, and as a newsletter. It is all collected and easily accessible at licitationen.dk.

Facts about Licitationen

Licitationen is an industry-specific media outlet with **20,000** print readers and a total circulation of **7,605**.

Licitationen’s newsletter is sent daily to over **37,000** people in the industry, and we currently have 681 member companies actively using Licitationen’s member portal in their daily operations.

These companies are located throughout the country and are evenly distributed in terms of company size.

The user profile and recipients of the newsletter are characterized as decision-makers, primarily including CEOs, procurement managers, production managers, and sales managers. Additionally, salespeople and general buyers also use the newsletter to stay updated on developments among their customers and suppliers.

All recipients of our newsletter are relevant targets. We regularly contact key figures in the industry by phone to ensure that we are reaching the right audience with our newsletter. Furthermore, there is an ongoing turnover in newsletter recipients due to job changes and similar circumstances.

We regularly unsubscribe recipients if the newsletter bounces back.

Editorial content and sections

Editorial content and sections

Licitationen - Byggeriets Dagblad is Denmark's best and largest media outlet within the construction and civil engineering industry. This unique position is reinforced daily through our focus on key individuals and companies in the construction and civil engineering sector.

We emphasize strategies, industry leaders, and companies, as well as follow the country's largest construction and civil engineering projects, from initial planning to completion. We aim to be the natural first choice when decision-makers need updates, and we strive to ensure that our readers gain valuable knowledge, inspiration, challenge their perceptions, and expand their understanding.

Licitationen is a part of a construction and civil engineering sector in constant development. Our ambition is to stay at the forefront and set the agenda. We are the necessary friend who curiously and critically investigates what's happening - because everyone benefits from being challenged. That's why we also focus on the industry's shortcomings, always approaching it with

fairness, giving people a voice and the right to be heard.

We report on the industry's challenges and seek answers to how these challenges can be addressed. Through weekly themes, we delve into technology, where future solutions and innovation can lead to better business practices.

Our journalists are all driven by the ambition to set the agenda and contribute their own knowledge and insights about the industry through analyses and background stories. They all aim to make it to the front page and write the most-read stories, which are shared and cited in other places, even outside Licitationen's readership. We use services like Ritzaus citattjeneste, social media, and networks to stay up-to-date.

To cover all aspects of the industry, we complement the main newspaper with two weekly sections, highly relevant themes, and special magazines where we delve deeper into various niches within the construction and civil engineering industry.

Licitationen

Licitationen's main newspaper is published in physical form from Tuesday to Thursday, except during holidays and public holidays.

Construction & Properties

Focus on current construction cases & developments in the construction & real estate industry.

Every Tuesday, the second section Byggeri & Ejendomme is published, where we focus on current construction cases and the general developments in the construction and real estate industry.

Byggeri & Ejendomme revolves around specific themes where we delve into various niches. We explore construction with a focus on building, renovation, indoor climate, future construction, new construction, and procurement. We also delve into housing, collecting news, trends, and projects related to owner-occupied housing, cooperative housing, public housing, homeowners' associations, rental housing, new housing forms, indoor climate, and more.

Responsible construction is another recurring theme in Licitationen - Byggeriets Dagblad. Throughout the year, we place a special focus on the construction and civil engineering industry's social responsibility, including aspects such as creating internships, new job opportunities, CSR, sustainability, environmental concerns, and meeting climate goals.

Construction & Machinery

News for everyone within the construction industry.

Construction & Machinery

Every Thursday, the second section Anlæg & Maskiner is published, where we specifically focus on what is happening in the construction industry. Here, we zoom in on current construction projects and developments in construction, infrastructure, and utilities.

The recurring themes in Anlæg & Maskiner are:

Roads and infrastructure

Sewage, drainage, and wastewater

Climate resilience

Licitationen Tema M-Xtra Maskiner & Materiel

Messe på den grønne gren

Når Maskiner Under broen åbner i næste uge, er det med alle sejl sat til, og en branche, der tror på fremtiden

af Henrik Sjögren

I dagene den 24. og den 25. august åbner den såkaldte Maskiner under broen for første gang siden pandemien. Og de 140 udstillere glæder sig til at vise alle deres talenter i form af maskiner og udstyr frem til den grønne sektor.

Og det bliver en messe med øget aktivitet i forhold til tidligere, for denne gang er det faktisk tilladt at par gange på Høve & Landskabs vil på samme måde blive udsat her, med hovedet er man eventuelt vil købe, inden man sætter underskriften på slutstadiet.

Ikke nok med det: Der bliver også en prøvedag på messen, hvilket er helt nyt i denne messesammen-

hang. Konceptet innovationsorienteret, som er blevet udsat et par gange på Høve & Landskabs vil på samme måde blive udsat her, med hovedet er man eventuelt vil købe, inden man sætter underskriften på slutstadiet.

Udstillere maskiner har været populære og fremherskende på podiet de to gange, priserne har været udsat tidligere, men denne gang vil man kigge meget på ring som ergonomi, søj og meget andet. Og branchen har travlt, så der er behov for at kunne derude. Som en af udstillerne her forud for messen siger til Licitationen Byggeriets Dagblad:

»Vi har ikke selv overbudsgrænset endnu, for det bliver hele tiden skubbet, og aktiviteten er fortsat høj derude.

Så forventningerne er høje.

Antallet af udstillere har aldrig været højere, og ligeledes har man månet udvide udstillerområdet, men arrangementet fra Maskiner under broen har først at det ikke kommer til at gå ud over parkeringsfaciliteter og adgang til messen.

Så alt i alt er det lagt op til et par gode og informationsrige dage under broen ved bredden af det smukke Lillebælt.

Hvem er Hvem

Key Figures in the Construction Industry

HVEM ER HVEM is the construction industry's most important and comprehensive reference work. In this publication, Licitationen - Byggeriets Dagblad profiles the largest and most influential contractors, architects, and consulting engineers in the Danish construction and civil engineering scene.

Companies are presented with a description of their core business, providing an overview of key personnel, contact information, and the latest financial figures.

HVEM ER HVEM in the construction and civil engineering industry is also available digitally at www.licitationen.dk/hvemerhvem, which is continuously updated. As a subscriber to Licitationen, you have year-round access.

Byggeriets Top

Get an Overview of the Leading Companies in the Construction Industry

Byggeriets Top provides an overview of how the most influential companies in the construction industry are performing. We achieve this by categorizing the construction sector into 11 sub-industries, encompassing 230 Danish construction companies. We analyze these companies based on their current financial statements.

By dividing the industry into sub-sectors, we enable a comparison of companies with their peers in the same sub-industry. We focus on financial figures such as revenue/gross profit, operating profit, pre-tax profit, equity, profit margin/return on investment, and the number of employees in each sub-industry.

Towards the end of the magazine, we present a comprehensive top list, ranking all companies from the 11 sub-industries based on pre-tax profit. Additionally, we provide more in-depth financial metrics, including solvency ratio, return on equity, and pre-tax profit per employee.

	Publication	Deadline

Building Awards

The construction and civil engineering industry's largest award show.

Building Awards is the focal point of the construction and civil engineering industry. Here, the largest and most innovative players in the industry come together as Licitationen celebrates the companies, individuals, and projects that have set new standards for Danish construction. Building Awards kicks off in March when nominations for various awards open and culminates in November at the annual award show where the industry gathers to be inspired, network, and discover the winners.

At Building Awards, it's not only possible to attend as a guest or as a nominee for one of the awards. We have various types of collaborations and partners, all of which contribute to creating visibility in the industry and making a mark in specific industry areas.

Do you also want to be part of laying the foundation for the future of Denmark? Learn more about your opportunities by emailing us at salg@nordiskemedier.dk.

Membership

Medlemskab+

With a Membership+, you are connected to a media consultant who assists you in getting started and provides professional media advice, ensuring that you get the most out of your membership.

Benefits of Membership+

- Access to all the advantages of a regular membership
- We set up your membership so you get off to a good start
- Assistance in creating sales advertisements for your products and sharing your news on our media
- Annual discussions and advice regarding target audiences, media and channel selection, and more.

PREFFERED CHOICE

Basic Membership

Selected options with a membership include:

- Plan and share news posts on the membership portal.
- Post 1 news update per day in the media's newsletter.
- Unlimited creation of sales advertisements.
- Access to Market Overview: a tool that keeps you updated on the competitors you want to follow.
- Easy collaboration with multiple users linked to the same profile.

NewsBooster

Purchase NewsBooster for your membership and receive

- Assistance in building and showcasing your brand on the membership portal.
- A dedicated partnership where you'll be connected with one of Nordiske Medier's professional writers.
- The opportunity to ease your workload as we write and publish up to two stories per month about your company.
- Compelling and search engine optimized content that strengthens your visibility to potential customers and partners.

Technical specifications – Online

Deadline

The deadline is arranged with the graphic designer, who will provide the booked advertising campaign, specifications, and deadline.

Delivery of Finished Material If finished material is provided, the deadline is 2 business days before the start.

The advertisement, including the link to the landing page, is sent directly to the email: online@nordiskemedier.dk.

Graphic Assistance

If you need a graphic designer to assist with your design, the following requirements apply to images, logos, and text. Images should be at least 80 DPI in the file formats .jpg, .tiff, .eps, .psd, and .png.

Logos and graphic elements are provided as .eps or .ai vector graphics. The text is sent separately in .docx format or in the email with the material. Material for our production should be received no later than 10 days before the advertising

campaign is scheduled to start. Banners are created for free when banners are ordered for a minimum of 2 months; otherwise, the price is 500 DKK per banner.

Banner Advertising

Our site is responsive, and the banners adapt to the screen they are displayed on. Please note that the banners are legible on different screens.

The banners share space with up to 3 others. However, title banners are displayed alone, while sticky banners share space with up to 2 others.

The banners rotate with each page shift. All banners can be either static or animated – HTML5, gif, or script – except for the title banner. Banners are delivered in the following formats: .jpg, .gif, .png, or HTML5.

Specific to HTML5 banners

When delivering HTML, we need to receive a zip file with the entire source material.

The zip file must not exceed 4 MB. It is advantageous for the HTML5 file to stay within a 20-second timeframe.

HTML5 files can only be used for banners on the portal, as the file type cannot be handled by email programs. If HTML and script banners are not made responsive, a fallback banner must be provided for use on mobile and tablet screens.

Guidelines for advertisers

It must be clear to the readers what is an advertisement and what are articles written by the editorial team.

Therefore, advertisements should distinguish themselves from the layout - both on the portal and in the newsletter, so that readers are not misled and do not believe that an advertisement is an article written by the editorial team.

In general, advertisers are requested to use a different font than ours.

On the website, the word "Advertisement" automatically appears just above the banner, but when advertising in the newsletter, the word "Advertisement" should clearly appear at the top of the advertisement, if there is any doubt that it is an advertisement - so we comply with the legislation in this area.

If we consider the advertisement to be too close to the editorial texts, we will request a change in font and/or the addition of the company's logo, so that it is clear that it is an advertisement.

This is done to comply with the rules set out by the Consumer Ombudsman.

Furthermore, only advertising for one's own company and products is allowed - meaning no misleading or negative mention of competitors - in order to also comply with the Marketing Act.

Technical specifications - Print

Materiale

Material should be sent to:
materiale@licitationen.dk

Compensation

Compensation for materials is negotiated individually, with a maximum of 5%.

Cancellation Conditions

Cancellations and date changes must be made in writing at least 14 days before the publication date. If changes in the insertion plan result in the conditions for obtained discounts not being met, the improperly paid discount will be retroactively debited.

Reproduction

If Nordiske Medier does not receive fully finished advertising material, the completion of the material will be invoiced at 0,5 DKK per millimeter.
