Hall no J Stand no 5602

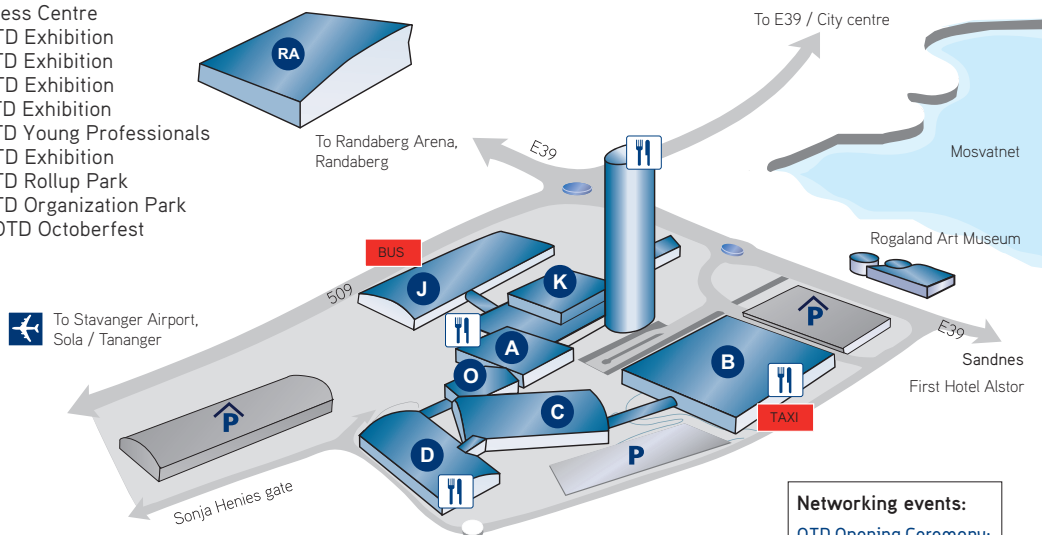

OTD2013

The OTD2013 STAVANGER show attracts an audience of engineers, technical specialists, industry leaders and experts in order to share ideas and innovations from the Norwegian Continental Shelf.

In 2013 the Offshore Technology Days is held for the 15th consecutive year. OTD has been the largest annual Norwegian oil show for the last four years. With a maximum capacity of 510 stands the exhibition is completely sold out, with long waiting lists.

OTD2013 STAVANGER is a multi-faced event for continuous learning, show-casing and innovation of solutions and tools required to compete in an accelerating technology race within an increasingly complex business.
