

STAND ALONE UNITS

The Primoreels® system is successfully installed on numerous high capacity machines around the world.

Now the Primoreels® system can be adapted to any type and brand of filling machine – old as well as new.

The units are tailor-made and have their own touch screen panels and controls, making them independent units.

YOU GET:

- Up to 40,000 lids on a reel – one day's production
- UV-C sterilized lids – low risk of contamination
- High print quality – completely smooth surface
- No waste material in production
- Low environmental hazard – lids as thin as 23 microns with lower carbon footprint
