

Clip-Lok Expendable Box for transporting expensive and sensitive power quality units.

The Clip-Lok Expendables box is tailor-made for power quality units used in various industries. The power quality units are bolted at the pallet base to secure them during transport. The Clip-Lok QIK Plastic clips a nail free packaging. The boxes can also be stacked, thereby ensuring transportation is cost-effective.

Clip-Lok boxes:

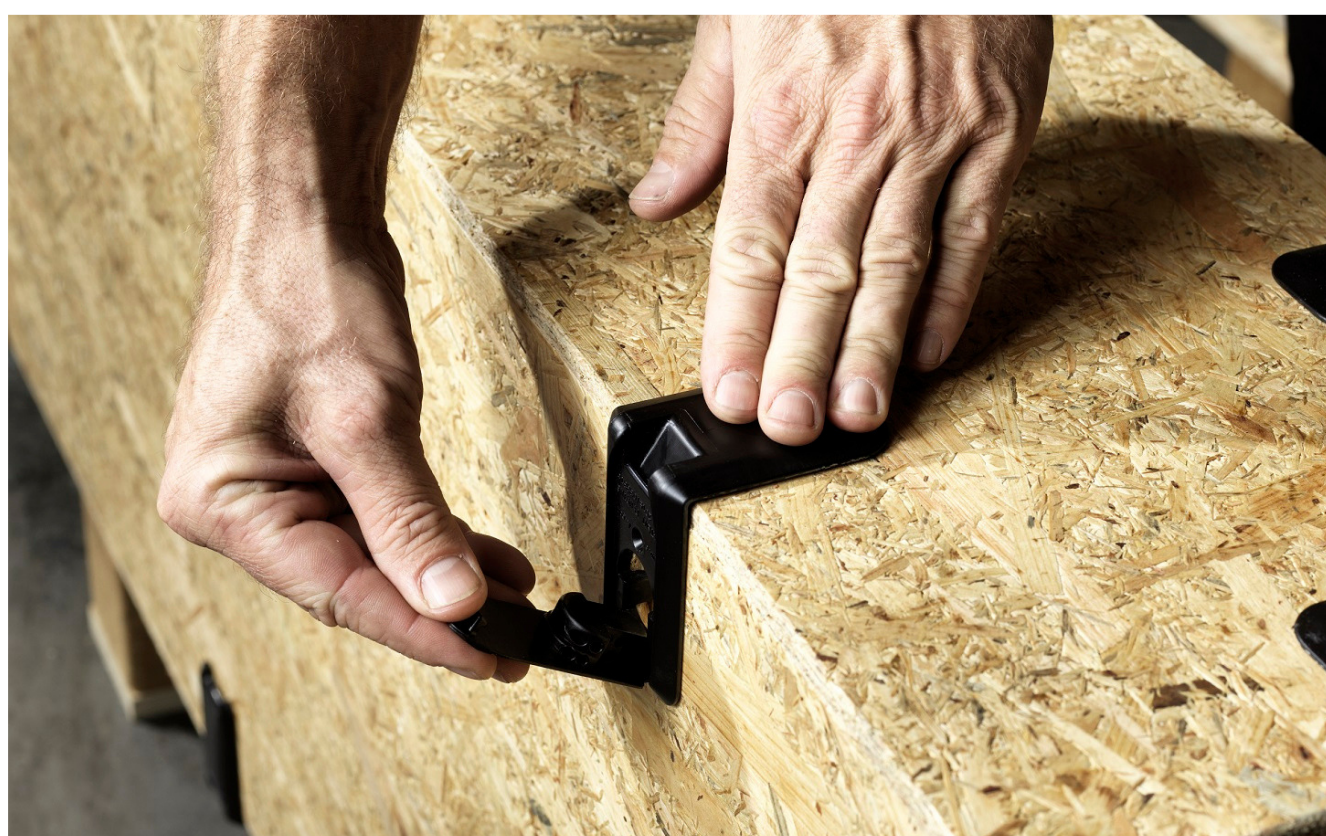

- are tailor made to suit needs of the customer.
- are ideal packaging for lean manufacturing.
- can be stacked without the need for racking.
- can be easily and quickly flat-packed, reducing transport and storage volume by up to 80%.
- can be easily stored in case the power conditioner require re-calibration or repair.
- are suitable for transport by road, rail, sea or air.

The Clip-Lok Expendable box loaded with two power quality units and bolted at the pallet base.

Clip-Lok Expendable box built up and loaded with power quality units ready for transport.

Clip-Lok QIK Plastic clip makes it easy to open and close the box.

Clip-Lok QIK Plastic clip requires no tools while assembling or disassembling the box, ensuring a tool free environment.
