Mirka® LEROS

Perfection from any angle.

Perfection from any angle.

Less than 3.5 kg. 180° flexibility. 100% comfort.

Mirka® LEROS 950CV

Long Electric Random Orbital Sander

Years of development work and a determined focus on ergonomics and user-friendliness have resulted in the lightest brushless electric wall and ceiling sander on the market, Mirka® LEROS. This unique tool has features like no other comparable sander on the market.

Technical specifications	Mirka® LEROS 950CV
Power input	350 W
Speed	4,000–8,000 rpm
Orbit	5.0 mm
Noise level LpA	84 dB
Vibration level	2.5 m/s ²
Weight	3.5 kg
Size of pad	225 mm
Dust system	Central vacuum ready

180° flexible sanding head

The flexible sanding head enables the tool to easily follow the operator's movements and permits the operator to use ergonomic working position. The flexible head also helps the operator to reach the surface from different angles.

Lightweight, only 3.5 kg

Mirka LEROS is the lightest wall and ceiling sander on the market. Thanks to the lightweight, the operator can sand for longer periods and less strain is put on the operator's body.

5 mm random orbital movement

The random orbital movement enables an easy handling of the tool and a better finish. Hence, there are fewer interruptions due to fatigue and less re-work is needed.

Full force system

Due to the lack of springs and brushes there is no need to press the tool against the wall when sanding with Mirka LEROS. Instead the complete force is transferred to the sanding process.

Brushless motor

The brushless motor reduces the weight of the tool significantly. In addition, less maintenance is needed since there is no carbon brushes that needs to be changed.

Dust-free

To enable efficient dust-free sanding the shroud has two suction points and a pad that is optimised for Abranet sanding discs. The operator saves time and money and the working environment is cleaner and healthier.

Combine Mirka® LEROS with Mirka's dust-free net abrasives and suitable dust extraction system to create a cleaner and healthier working environment.
