

Hydraulic

Advanced Press Solutions and Service

www.hydraulic.com

WELCOME TO **HYDRAULICO**

- More than 4000 hydraulic presses, 500 press modernizations and 100 production lines.
- Custom designed solutions. Up to 10.000 tons power and 6 forming axes.
- A networking company, experienced in turn-key production solutions and professional service.
- Market presence in over 60 countries.

BEST PRACTICE

Energy efficiency, ergonomic maintenance, user-friendly programming, and sustainability are permanent values in our solution engineering.

MAXIMIZING PROFIT

Highest output with lowest running cost. Providing you with competitiveness is our main focus.

EFFICIENT EXECUTION

Effective project management combined with professional technicians allow peace of mind. Always on time and cost-effective.

SERVICE EXCELLENCE

Highest uptimes in the market. Guaranteed spare parts availability. Service on all your hydraulic presses.

BEST MANUFACTURING EXPERIENCE

Reliable solutions designed to enhance material flow and versatility for the future. We value quality in everything we do.

CUSTOMER-ORIENTED

From turn-key to renovations and service on all your presses. We want partners, not only customers.

INTEGRATED SOLUTIONS TO EXCEED YOUR EXPECTATIONS

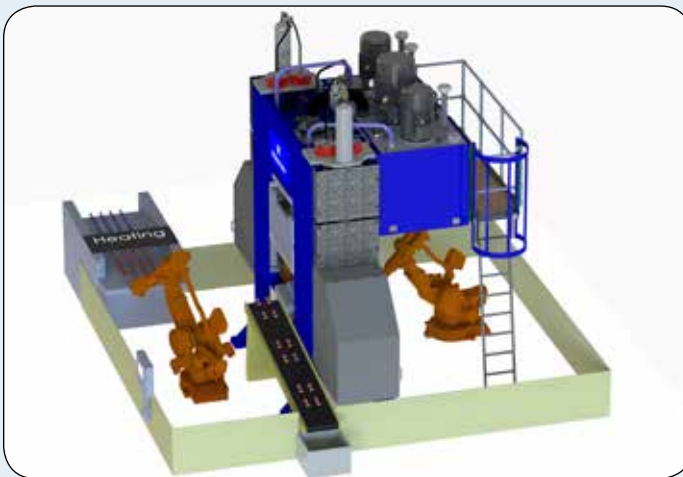

“We find the sweet spot for you to experience sustained competitive advantage at the lowest risk and most reasonable price”

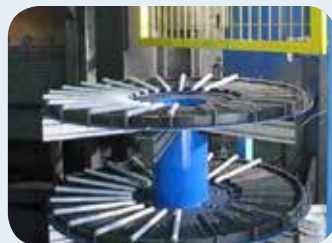

Gastronom containers
Cookingware
Single and double bowl sinks

- Experts in deep drawing of stainless steel
- Computerized lubricating systems
- Electronic Shimming™ (dynamic and programmable)
- Active and passive forming integrated in the same press
- Centralized production line panel

Blades for jet engines and turbines
High-voltage isolators
Truck cabin stabilizers

- Experts in titanium, nickel and aluminum
- Effective simulations and smart tooling set-up
- Hot Isothermal Forging (HIF) and Super Plastic Forming (SPF)
- Induction, electric and gas-based heating solutions
- Proven isolation systems against press heat penetration

Plate heat exchangers
Automotive parts
White goods

- Remote data collecting and production monitoring
- Full part traceability (Industry 4.0)
- Servo and CNC solutions for handling, stacking and flatness perfecting
- Integrated de-coiling, tool recognition/clamping, welding, and laser engraving systems
- Only 10 min. change-over time

HYDRAULIC PRESSES SINCE 1946

“Tailor-made quality presses, designed to fit your purpose and perform over time”

- ✓ Validated structural and working elements by FEA analysis
- ✓ Piston rods made from one single piece and highly durable low friction seals
- ✓ First-class hydraulic, electronic and electric components
- ✓ Highly efficient cooling and filtering system for maximal protection and oil durability
- ✓ Minimized energy consumption and noise levels
- ✓ User-friendly controls, increased remote serviceability and monitoring
- ✓ Minimized piping, zero leakage valve-block, automated guide lubrication. Easy maintenance

JEBENS

MASSARBEIT IN STAHL

Jebens is the specialist for ready to install steel fabrication for the heavy industry.

MAKE YOUR INVESTMENT GO FURTHER THAN YOU EVER IMAGINED

- ✓ Technicians with an average of 10 years in press service experience
- ✓ Access to hotline service 24/7
- ✓ Standard spare parts dispatch within 24 hours
- ✓ Assistance en route within 24 hours from written notice
- ✓ Versatility to service hydraulic presses of any brand

BEST IN CLASS SERVICE

- Press inspections, frame repairs and safety certifications
- Remote diagnosis (Hydraulic Link™)
- Identification and conversion of obsolete components
- Cylinders supply and repair
- Seals supply and replacement

EFFICIENCY INCREASERS

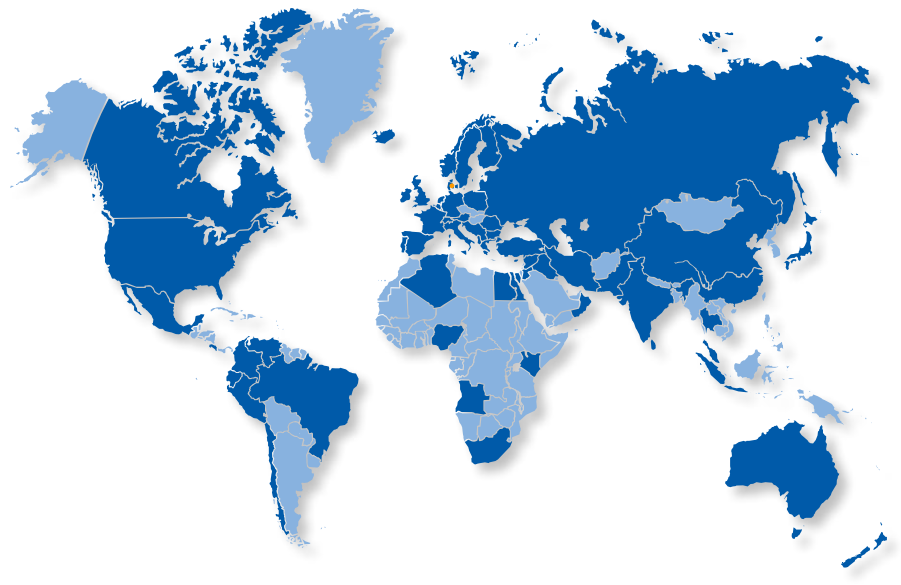

- Assistance in process optimization
- Supply and integration of new functionalities and accessories
- Guaranteed press modernizations (upgrades)
- Safety stock agreement
- Preventive and predictive maintenance programs

UPGRADE
Maximum performance and guarantee

REFURBISHMENT
Maximum uptime at minimum cost

CONTROL
Reliability upgrade

SAFETY
Legalization

YOUR PROFESSIONAL PARTNER FOR HYDRAULIC AND PNEUMATIC SEALS

We have more than 40 years' experience with hydraulic, pneumatic, static and rotary seals. Our customers benefit from our experience and expertise.

Find more information at www.carstenholm.com

Supplier of standard and custom-made sealing solutions for hydraulic, pneumatic, static and rotary applications.
