GRUBER SPECIALIZES IN:

→ CONVENTIONAL TOOLS

Get a grinded tool at a competitive price. Gruber offers conventional tools at just as conventional prices.

→ HIGH PERFORMANCE

A High Performance tool from Gruber ensures you high performance production. We guarantee both an extremely high tool life and high production rates.

→ SPECIALIZED MACHINERY

Rubber assembly machine, punch-thread machine or something else entirely: Gruber develops advanced machine solutions that fulfil the precise need for your production.

→ PACKAGING TOOLS

Regardless of whether you manufacture tins for the food, medical or the paint and adhesive industry, you are assured an efficient production with a specially adapted tool from Gruber.

→ CENTRIFUGAL FEEDERS

A centrifugal feeder from Gruber ensures that your components are sorted and oriented quickly and correctly before they are used in your automated assembly line.

→ SERVICE

Avoid expensive production stoppages due to failing tool parts. A service agreement from Gruber guarantees your tools will be maintained so they are always ready to use.

Nothing is left to chance at Gruber. To ensure accuracy we produce your tool in a 1500 m² modern, air-conditioned manufacturing environment.

GRUBER

We make sure your production runs efficiently

Gruber produces customized tools and machinery for manufacturing specialists.

40 years of passion

For four decades, the passion for precision has been the watchword for Gruber's development, manufacture and delivery of tools and machines. Many of our processes are absolutely unique, but so are our customers.

In close dialogue

Gruber develops our unique tools and machines in close and trustworthy dialogue with you from the idea phase to the finished product.

Our tool engineers devise the most efficient and cost-effective solution and our skilled employees in the tool shop ensure that your tool is durable and accurate.
