ROBOHAND

Grippers, Rotaries, and Linear Slide Solutions

Engineered Reliability

Destaco's Robohand products are engineered for reliability and long life to ensure maximum production uptime. These products are designed and machined for precise repeatability with minimal maintenance.

CAMCO

Rotary Indexers and Conveyor Solutions

Smarter Precision Indexing

Destaco's CAMCO products have been the industry standard for the highest quality cam-actuated motion control products available. Destaco manufactures a wide range of motion control products including indexing drives, linear and rotary parts handlers, precision link conveyors, magnetically-propelled conveyors, servo-mechanical drives, and custom cams.

Manual and Pneumatic Clamping Solutions

Designed to Hold Securely

Destaco manual and pneumatic light-duty clamps are built to last for years of service, and designed to keep your workpieces in place. Manual and light-duty clamps are offered in a wide variety of styles to hold a part securely in place during an application.

Power Clamping and Pivot Solutions

Clamp with Confidence

Destaco power clamping products range from heavy-duty sealed clamps for welding environments, to compact light-duty clamps for a variety of clamping applications. Pin clamps and pivot units are used in locating and positioning applications. All of these products offer exceptional clamping forces, holding capacities, and durability.

End Effector Solutions

Speed Matters

Destaco end effectors are designed to help you move parts faster in today's production line by using high strength, lightweight aluminum modular components, durable vacuum cups and the fastest venturis on the market.

CRL

Remote Handling and Containment Solutions

Clean. Safe. Flexible.

Destaco's Central Research Laboratories (CRL) rapid transfer ports, gloveport systems and telemanipulators allow human operators to safely perform dexterous maneuvers in hazardous or sterile environments. Destaco's CRL products are designed for safe and efficient handling of materials where the human operator cannot have direct contact.
