

The Welser Profile

Last updated: 15.09.2018

Progress in keeping with tradition

- Welser is the leading manufacturer of special sections and tubes in Europe
- Welser has been working with steel for 11 generations

Innovation in steel

- More than 22,000 cross sections designed and produced
- 3-5 new cross sections each day
- Processing of steel, stainless steel and non-ferrous metals
- Steel strip thickness 0,3 - 8,2 mm (0.011 to 0.323 inches) and strip width up to 800 mm (31.5 inches)
- About 90 high-performance roll-forming lines with more than 60 cold forming stages

We speak your language

- International sales offices: CH/1975, DE/1976, SE/1978, NL/1986, FR/1987, IT/1988, ES/1990, GB/1993, PL/2003, CZ/2005, TR/2012, RU/2013
- Competent partners in your vicinity

History of Welser Profile

- Family owned company since 1664: previously a forge
- Roll forming since 1960
- Since 1980: continuous seam welded special section tubes
- 1999 Welser Profile took over both the RP Technik and Hoesch profile works based in Germany
- Production site in Bönen, Germany since 2001
- Production plant Superior Roll Forming in Valley City (USA) as of 2018

Production area

- Total production area in Austria/Germany/USA: 563,000 m² (139 acres), built-up area: 218,000 m² (54 acres)

Focus on personnel

- Welser currently employs more than 2,400 people worldwide
- More than 7% of the workforce are currently in training

Custom-made Manufacture

- Sections and tubes laser-welded, laser-cut, bent and as a system
- Punching and notching before, during or after the forming process
- Profile manufacturing to customers' individual requirements
- Most modern centres of further processing

Certifications

- ISO 9001:2015 – Quality Management System
- OHSAS 18001:2007 – Health & Safety Management System
- ISO 14001:2015 – Environment Management System
- ISO 50001:2011 – Energy Management System
- IATF 16949:2016 – Quality Management System
