

Kitting and assembly line for your Bicycle, E-bike and Cargo bike production

OCS helps bicycle manufacturers improve productivity and secure capacity through smart kitting- and assembly line solutions. We offer turn-key solutions with our Power & Free overhead conveyors including a carrier designed for optimal ergonomics for the operators.

A high-contrast, low-key photograph of a bicycle. The bicycle is mostly in silhouette against a dark background. A bright light source from the right creates a strong highlight on the top tube of the frame and the seat. The handlebars, front wheel, and rear wheel are also visible in silhouette. A yellow rectangular box is positioned in the upper right corner, containing white text.

Leading provider of overhead conveyor solutions for the bicycle industry

A selection of OCS bicycle installations:
Canyon, Riese & Müller and Internetstores.

ABOUT

OCS Overhead Conveyor System

OCS Overhead Conveyor Systems offers internal transport systems to a range of different industries, including the bicycle industry.

THE FOUNDATION FOR OCS's success is control of our own production in Sweden, but above all our friction-based patented technology for hanging conveyors. A technology that enables us to offer modern industry solutions that are clean and oil-free, ergonomic and quiet, and highly flexible for fast changes.

With more than 500 installed systems globally in a range of different industries, our long experience has given us a strong position as lean production specialists. We create the optimal solutions based on your needs and our know-how.

Facts

Owner: Axel Johnson International*, Christer Lundgren, Kenth Almqvist and Mathias Frunz

Headquarters and production: Borås, Sweden

Sales offices: Sweden, Germany, UK, Czech Republic, USA and Japan.

Markets: 30 countries

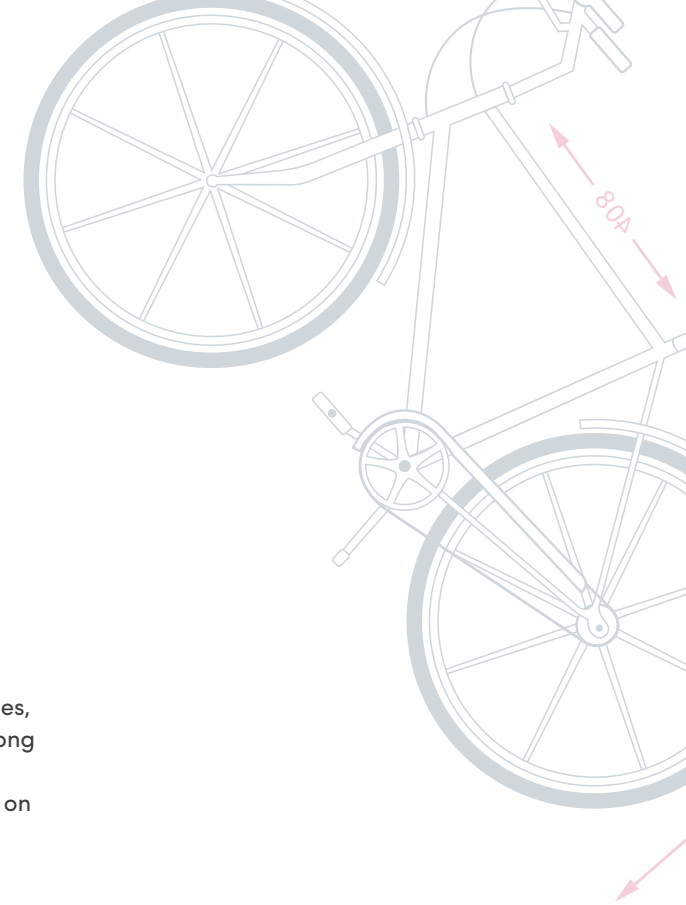

Installed systems: Approx. 500

Employees: 50 (120 worldwide)

Revenue: 10 MEUR (24 MEUR worldwide sales)

Certifications: ISO 9001 Quality, ISO 14 001 Environment and EN 1090-1

*Axel Johnson International is a privately owned Swedish industrial group of more than 150 companies in 27 countries. We acquire and develop companies in strategically selected niche markets guided by a long-term approach to ownership.

A close-up, artistic photograph of a bicycle's drivetrain. The image shows a black chainring, a silver chain, and a black crankset. A small, stylized cartoon character with large, round eyes and a white body is perched on one of the teeth of the chainring. The background is dark and out of focus, emphasizing the mechanical components.

Our technology provides

Overhead conveyor:

- Friction driven
- Low noise
- Oil free and clean
- Power and free
- Modular
- Allows full line accessibility for operators

The carrier:

- Gives full 360° bicycle accessibility
- Height adjustable
- With box for components and hooks for the wheels
- Connection to saddle hole or frame

Smart conveyor solutions for the Bicycle industry

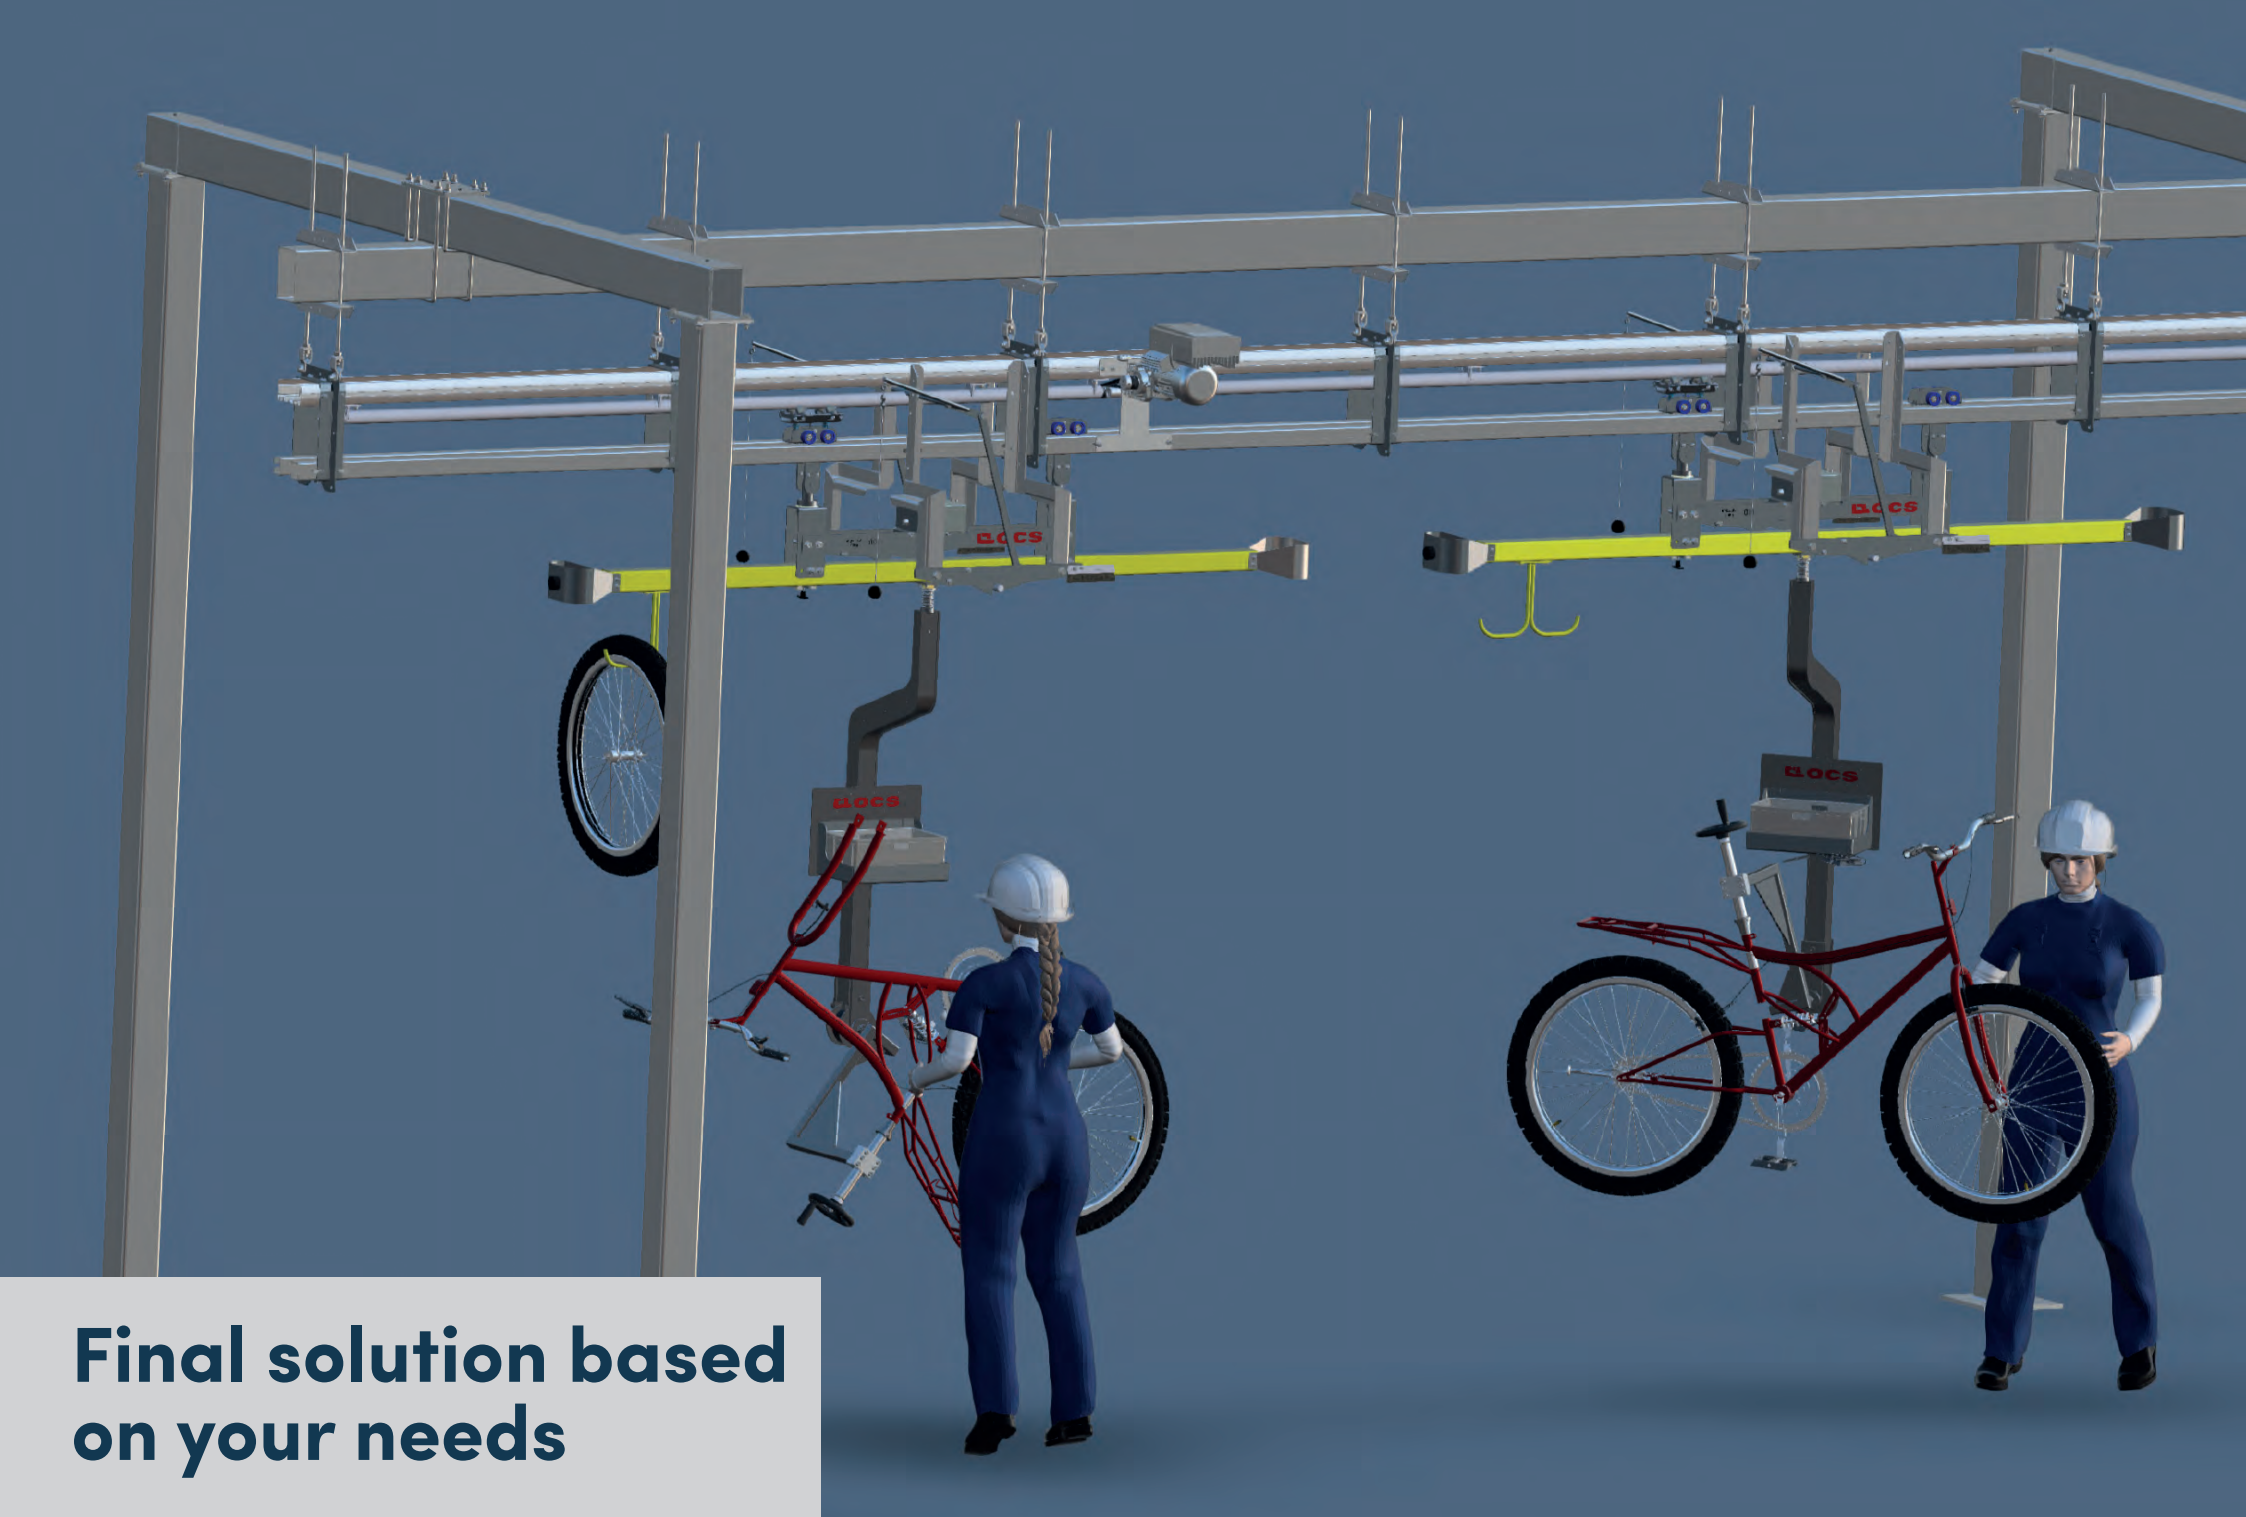

Improve workflow of your manufacturing or assembly process with smart conveyor solutions from OCS.

FOR ANY KIND OF BICYCLE:

Mountain bike, road bike, touring bike, e-bike, cargo bike, scooters etc.

- Assembly line following lean principles and thus high productivity.
- Batch or mixed order-based production allows just-in-time production.
- Sequential and/or parallel workstations for various capacity needs.
- From kitting and pre-assembly to final assembly, quality control and packaging including needed buffers.
- Smart layout to optimize floor space utilization.
- Flow management and track & trace using RFID technology and SCADA system.

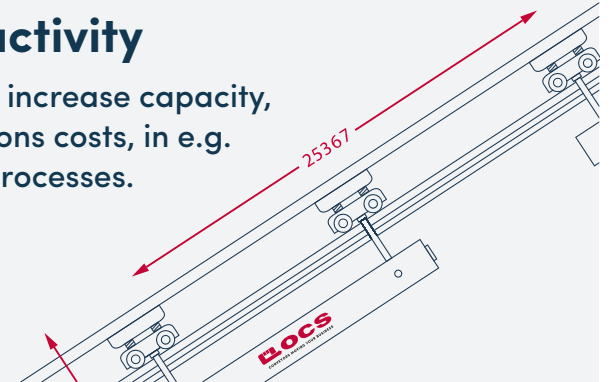

**Final solution based
on your needs**

Efficient material flow solutions

We solve your transport needs with the best solution for your operation/business.

Increase productivity

Our Turn-key solutions increase capacity, with reduced productions costs, in e.g. kitting and assembly processes.

Lean, Clean, Green – sustainable production

Efficient production flows that are oil free, quiet, energy effective and safe.

Your needs, Our Know-how

You will benefit from our competence and experience in material flow solutions for the industry.

Future proof technology

The OCS conveyor system is robust, flexible and modular for easy changes and low maintenance costs.

Increased safety & security with direct impact on profitability

Increase staff productivity and yield in a safe and ergonomic working environment.

Maximize valuable floorspace

With OCS overhead conveyors valuable floor space in production is made available.
