

New Flyer for Product Series RFC-4800

1 Introduction

Since the introduction of the detailed data sheets for each interface or mechanical design of a product series, we have been providing an additional “product flyer”. This flyer presents in a very compact form the special product properties, areas of application, the sensor technology and the available models of this product series.

A new product flyer is now available for the universally applicable RFC-4800 series.

You can find the new flyer as usual on our webpage at:

Catalog / Brochures	Catalogs	Product Brochures
Data Sheets	Catalogue 2020	Non-contacting Rotary Sensors
CAD Data	Company Presentation	IO-Link Interface
Operating Manuals		Linear Transducer TF1
Certificates		Linear Transducer TM1
Terms and Conditions		Linear Transducer TFD and TFC
Quality Assurance Agreement		Rotary Sensors RFC-4800
Archive Data Sheets
