

RODAN

COMPANY PROFILE

Design, develop and prototyping

From the very early stage our experienced engineering team will assist and guide you into getting the right suitable solution that ideally meets your unique requirements.

We have the advantage of having our own in-house production in Denmark and Lithuania which enable us to manufacture rapid prototyping and can furthermore integrate 3D print into your solution.

Production

Regardless of the connectors you specify to your application, we can customize and manufacture a cable that ideally meets your requirements.

With the use of modern tools and technology along with our many years of experience in manufacturing cable assemblies, you will in RODAN have a partner that work with you through every part of the design and production process and offers a comprehensive range of value-added services – regardless of volume size.

Perfect end-product

Testing is the final yet the most critical stage of any of our cable assembly production and it has a very important purpose – to ensure that our products meet its specifications and requirements.

Finalized products are built to meet ISO9001:2015 and IPC/WHMA-A-620 quality standards, and are tested for the most demanding industries, including energy, military, medical, electronic, transport, etc.

Our products

We deliver high-reliably interconnect solutions to meet your specific requirements.

CABLE ASSEMBLY & WIRE HARNESS SOLUTION

Regardless of the connectors you specify to your application, we can customize and manufacture a cable that ideally meets your requirements.

OVERMOLDED SOLUTIONS

We can offer extensive overmolding design and manufacturing capabilities, which includes both low and high pressure molding.

ELECTRONIC BOX BUILD SOLUTIONS

We offer turn-key fabrication of electro-mechanical assemblies and sub-assemblies including the design, tooling, procurement of all materials, ESD assembly and testing for customers across many industries.

CABLE SOLUTIONS & ACCESSORIES

Together with some of the best cable manufactures, we offer a wide selection of high-quality cables that will be ideal for most applications.

CONNECTORS

In addition to our cable assemblies, we can also offer a comprehensive range of connectors as a distributor and partner to some of the leading manufacturers in the world.

OUTSOURCING

For more than 35 years, we have completed several successful outsourcing projects, with small and medium sized customers around the world.

Who are we

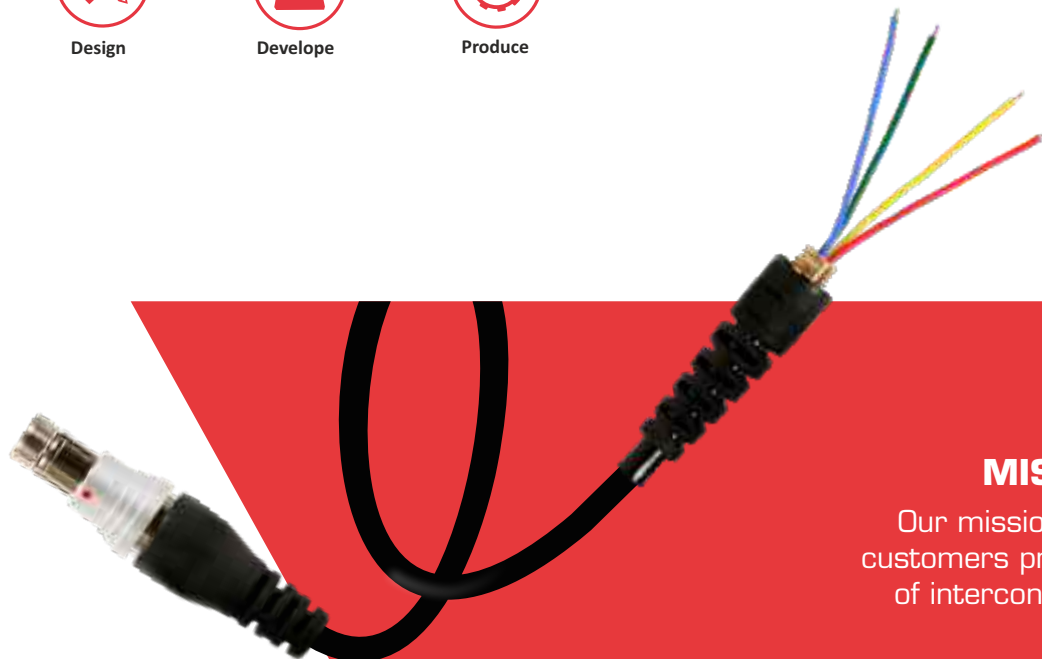

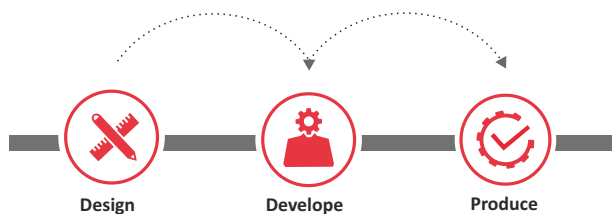

We were founded in 1984, in a cooperation with Rosenberger Hochfrequenztechnik GmbH and have ever since been a part of the Group.

Today Rosenberger is among the largest manufacture of RF connectors, with a global network of 11.800 employees.

We have specialized in custom cable assemblies and wire harnesses and in addition to our own in-house production, we have production site in Lithuania.

In 2020, we merged our subsidiary UAB RODAN Technologies with our Lithuanian partner through 15 years, UAB COMRI Technologies, who subsequently became a member of the RODAN group.

Our decades of expertise in manufacturing custom cable assemblies and value-added processes, coupled with experienced and dedicated people, allows us to be your one-stop source.

MISSION

Our mission is to be our customers preferred supplier of interconnect solutions

Allow us to be **your one-stop source**.

KNOW HOW

More than 35 years of innovation and experience in interconnect solutions.

GLOBAL

We export to more than 20 countries, within cable assemblies.

RELIABLE

AAA rating ensures future business relationships To be based on a safe and reliable foundation.

IPC - 620 standard

With a disciplined approach of continuous improvement and our commitment in the quality of our products, RODAN has a highly experienced & certified IPC/WHMA-A-620B operators that ensures that our products are made by the IPC standard to achieve a continuous high production level.

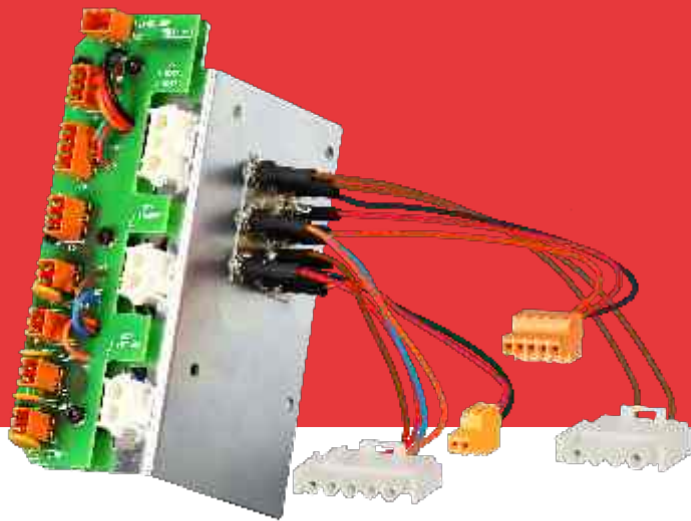

Quality & Environment

Being customer-driven - it is our objective that we deliver uncompromising manufacturing performance by delivering superior quality products on time, every time.

From design concept through product delivery and beyond, we make quality a part of our business in every phase of the process.

Our quality system is certified and registered to **ISO 9001:2015** and our management team and staff are committed to building your products to the highest standards of excellence.

VISION

We have a vision to be the best in quality and customer satisfaction as well as being a serious and reliable partner

Our markets

Our approach to the market combined with modern technologies enables us to design and manufacture cable assemblies for any market or application – **all over the world.**

Outsourcing *-It's a matter of trust!*

For more than 35 years, we have completed several successful outsourcing projects, with small and medium sized customers around the world, which have given us the strength and the know-how, to meet the needs of today's customers.

You specify, we produce!

We customize solutions to each customer and the key element to success here is quality, reliability, efficiency, and flexibility.

With an innovative approach to each customer's specific requirement, we as your outsourcing partner, will always strive to have a planned way to respond to the rapid changes in the market. This allows us to stay up to date on best practices and innovation, to deliver the product to your expectations.

New and modern production facilities in Denmark and Lithuania

Commitment to customer communication and interaction

A unique team of highly skilled operators, trained according to IPC 620 standard.

All sales, development and prototyping are made at our HQ in Denmark in close cooperation with you.

Partnership – we work hard to earn your trust

Every Customer that trusts us as their outsourcing partner is important for us, and we are well aware of that we constantly must have focus on product quality, process optimization, increasing efficiency and cost, to continue being a trustworthy and reliable partner.

We work hard to live up to our motto “Manufacturing Relationship, Distributing Quality” meaning that we have a clear goal to build a strong long-term customer relationship based on good customer service and quality conscious and competitive products.

Our valued Partners

Besides our valued partners, we have an extensive network of suppliers who make a critical contribution to the continued success of our business.

High performance circular connectors with unique push-pull locking system. IP67, IP68 and hermetic sealed connectors.

Complete product range within standard coaxial connectors, jumper cables, corrugated cables, grounding kits and accessories.

Produces a very wide and deep range of D-Sub connectors, accessories such as connector hoods and high quality contacts.

Waterproof connector series include RJ45 connector, waterproof USB connector, waterproof power connector, sealed circular connector, etc.

Heat shrinkable tubes, Cable ties, flat- and round cables, IDC connections, IC sockets, memory card connectors, test & burn-in connectors.

Heat shrinkable tubes, Cable ties, flat- and round cables, IDC connections, IC sockets, memory card connectors, test & burn-in connectors.

An industry leader in fiber optic, RF, high-speed digital, and sleeving and overbraiding products.

Complete cable crimping systems for electrical connections, and tools. Abiko terminals - End Sleeves and tools – UL/CSA approved.

Pre-insulated terminals, end sleeves, crimping, cutting and stripping tools.
