

Wireless Charging Seminar

Wireless charging is the new trend not only in mobile phones but also for other handheld equipment and many other applications.

Avnet Abacus and Silica would like to invite you and your colleagues to a seminar with two of the most innovative manufacturers within wireless power, TDK-EPC and Texas Instruments.

The seminar takes place at our offices in **Them**, Knudlundvej 24 on the **2nd of October** and in **Herlev**, Ellekær 9 on the **3rd of October**.

8.30 Arrival and coffee

9.00 Texas Instruments

Introduction to wireless power

- » Why wireless power
- » Wireless power basics
- » Wireless Power Consortium (WPC)
- » Wireless power – system operation

TI's wireless power solutions – bqTESLA™ Solutions

Future directions

10.30 Coffee break

10.45 TDK-EPC

- » Wireless charging technology overview
- » Industry landscape
- » Transmitter solutions
- » Receiver solutions
- » User cases and customization potential
- » Future roadmap

12.00 Lunch

12.30 Questions and answers – one-on-one sessions – hands-on demos

Register for the seminar with Janne Traneberg -
janne.traneberg@avnet-abacus.eu , phone 87972735.

The seminar is free of charge.

Best regards, Avnet Abacus and Silica
