Leading Magazine of Engineering Industry – 46.500 readers!

The Magazine Verkstäderna – production technology in 112 years

Verkstäderna is the magazine that meets the engineering industry's need for a continuous reporting on developments in manufacturing: machinery, materials, methods and people.

With a total of over 108 years experience in the industry and intensive interaction with the players, Verkstäderna conveys the most useful news and gives the best examples from successful engineering companies.

Events

The personal meeting has become more important. Verkstäderna arrange together with different partners and in-house, events and meetings, where current subjects within the machine industry will be in focus and discussed. Verkstäderna will guide your company to meet the right people at the right meeting. Please contact us to take part of an event that suits you.

Reader statistics

9 out of 10 who read Verkstäderna feel great confidence in the contents of the newspaper and think that it contains many innovations. It was apparent when the independent polling institute SKOP made a readable study for Verkstäderna. This verdict is obviously an incentive and a confirmation that we are working properly. Now we look forward and lift the bar further. We believe that together we can make a good product even better.
