

It's all about hydraulics

PMC Hydraulics delivers hydraulic components or customised solutions for industrial, mobile, wind, and marine applications including niche market applications. PMC Hydraulics cooperates with the world's leading and most innovative manufacturers of hydraulic components.

PMC has been part of the hydraulic market for nearly 60 years. Design, assembly, service and repair are all under the same roof enabling PMC Hydraulics to offer solutions tailor made to fit your requirements.

PMC Hydraulics designs and manufactures complete block solutions for all kinds of system applications for the industrial, mobile, wind-, and marine markets.

Wide-range of hydraulic solutions

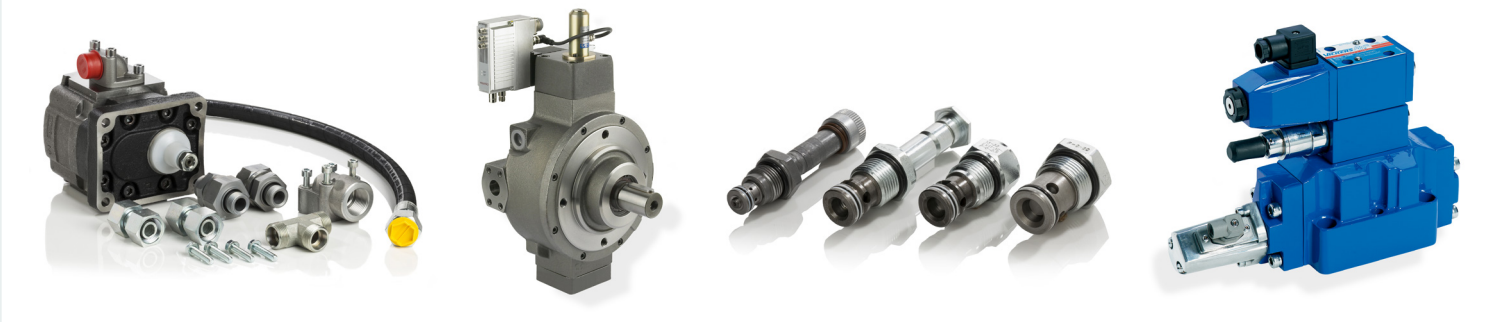

PMC Hydraulics A/S
Baltorpbakken 1
DK-2750 Ballerup
Denmark

Lammefjordsvej 2
DK-6715 Esbjerg N
Denmark

Supplier Overview

pmchydraulics

PMC Hydraulics A/S Supplier Overview

PMC offers a wide variety of quality products for many different hydraulic applications, and cooperates with manufacturers worldwide. This brochure provides an overview and general information about our products. If you require brands or products not represented in this brochure, feel free to contact us for further support. PMC can be contacted via e-mail; info@pmchydraulics.dk or by phone +45 7514 4444.

| | | |
|---|--|---|
|  | Full product range in bladder and diaphragm accumulators. |  |
|  | Full product range in Screw In Cartridge Valves (SICV) with up to 5 years warranty. |  |
|  | Micro and mini hydraulic power packs. |  |
|  | Specialised in measuring instruments and accessories. |  |
|  | A wide variety of Screw In Cartridge Valves (SICV). |  |
|  | Variable and fixed displacement piston pumps for open and closed circuits. |  |
|  | High pressure piston pumps and motors with variable displacement for open and closed circuits. |  |
|  | 700 bar high pressure hydraulics for rescue applications as well heavy industry. |  |
|  | Unique magnet filters. |  |
|  | Gear pumps and motors, and flow dividers. |  |
|  | Radial piston pumps – very compact. |  |
|  | Filter solutions for all hydraulic applications. |  |
|  | Closed-loop pumps for mobile applications. |  |
|  | Hydraulic cylinders for the most demanding applications. |  |
|  | Industrial applications. |  |
|  | Piston motors – with fixed and variable displacement. |  |
|  | Screw pumps for high viscosity fluids. |  |
|  | Zero-leak quick release couplings according to ISO 16028, A and B up to 720 bar. |  |
|  | Full programme of Screw In Cartridge Valves (SICV). |  |
|  | Wide programme of flow restrictors with or without check valves. |  |
|  | Market leader of quick release couplings for applications with special requirements. |  |
|  | Stainless steel hoses up to A4, compensators and bellows for the most demanding applications. |  |

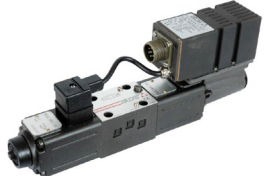

Proportional valves specialised for marine applications.

Air and water oil coolers with 12-24-400 Volt fan drive.

Leading position in proportional hydraulics.

Large programme for fittings and hydraulic hoses.

A large range of valves for various applications.

Moisture absorbing air breathers.

World leading manufacturer of hydraulic components.

World famous for manufacturing valves, pumps, and motors.
