WORK LIGHTS
OF THE FUTURE

2016

// The “ORIGINAL SCANGRIP” symbol is your guarantee that the product is designed and developed by SCANGRIP in Denmark and protected by EU design patent.

High quality

SCANGRIP products are known for high quality with a price-to-quality ratio considered to be the best on the market. We have comprehensive quality check procedures, and we are ISO 9001 certified.

Unique design

SCANGRIP receives strong recognition in the marketplace for unique product design. We are inspired by the concept of Danish design and gather ideas from other industries to create new products that have not been seen before.

Europe’s leading supplier

SCANGRIP provides the strongest and most comprehensive range of durable and functional LED work lights and is Europe’s leading and trendsetting supplier of work lighting solutions for professionals.

First-mover

SCANGRIP is first-mover and is always two steps ahead when it comes to developing new and innovative LED work lights.

Since 1906

SCANGRIP has manufactured hand tools of very high quality for the industrial and automotive sectors for 110 years.

NOVA - the world's most sophisticated work light

// Next generation of the original NOVA

SCANGRIP is introducing a completely new generation of five re-designed and significantly improved NOVA-work lights.

The NOVA series consists of the best, most sturdy and unique COB LED work lights for the professional market at all.

- Extremely powerful illumination up to 10,000 lumen
- Light dimmable in 5 steps
- Rechargeable versions with display for battery capacity and remaining operating time
- New elegant design with integrated carrying handle
- New re-designed stand for direct mounting on tripod

// Extreme durability

The body of NOVA is made of diecasted aluminium which makes it extremely sturdy and shockproof. Also, NOVA endures the rough, wet and dirty conditions of the professional working environment, and withstands even outdoor work in all kinds of weather conditions, as it is completely waterproof (IP67).

EU DESIGN
PATENT
2954123

// Designed for efficient workshop use

The COB (chip on board) LED provides a uniform and completely even illumination with a high CRI (colour rendering index) value close to daylight which is particularly effective as work lighting. The new light dimmer function makes it possible to adjust the light into five different levels. With the new integrated carrying handle, it is convenient to hand carry the lamp. The flexible stand can be used as a

hanger and to position the lamp in the desired lighting angle. The stand is now designed for direct mounting on the SCANGRIP TRIPOD.

**DUAL 2 in 1
SYSTEM**

// Improved rechargeable NOVAs

The NOVAs with the unique DUAL SYSTEM are **both** rechargeable **and** with cable providing you unlimited application possibilities. Now, the DUAL SYSTEM connection is improved for easier and faster mounting and disconnecting the cable. The rechargeable versions are also supplied with a user-friendly display showing both battery capacity and the remaining operating time.

VEGA - new range of LED floodlights

// Innovative, high performance work lights

SCANGRIP is introducing a brand new range of 3 high quality floodlights in cool design offering very powerful light output at an attractive price.

- Powerful, diffused, non-blinding illumination
- Durable housing made of highly shock-resistant plastic material
- Rechargeable version with DUAL SYSTEM
- For indoor as well as outdoor use
- No fire hazard as LEDs do not produce heat

ORIGINAL
SCANGRIP

SINCE 1906

// Powerful, diffused LED light

The many powerful LEDs of the new VEGA floodlights provide a diffused and pleasant, non-blinding, uniform work light, with a large dispersion.

// Designed for professionals

The lightweight, sturdy and durable housing of the VEGAs is made of a highly shock-resistant plastic material, constructed for use in the demanding working environment. Contrary to halogen work lights, there is no fire hazard, as the LEDs do not produce heat. The stand is made of powder coated steel and can be mounted directly on the SCANGRIP TRIPOD.

// Unique functionality

The VEGA 1500 C+R is with the unique DUAL SYSTEM which means **both** rechargeable **and** with 5m cable providing complete flexibility and unlimited application possibilities.

New TRIPOD

// Designed for direct mounting of the new VEGA and NOVA work lights without bracket. Made of durable and sturdy powder coated steel for both indoor and outdoor use

ORIGINAL
SCANGRIP

SINCE 1906

// High stability tripod adjustable up to 3m

The SCANGRIP TRIPOD is indispensable for stationary positioning of the work light for illumination in a specific working area. The SCANGRIP TRIPOD is extendable from only 1.35m up to 3m which gives you complete flexibility to position the light in the requested height.

// Optimum safety

The stable construction of the SCANGRIP TRIPOD makes it safe even when fully extended. To increase safety when in use the cable of the lamp can be fixed in the safety clips placed on each separate leg.

// Wheel stand for mobile positioning of the work light

The SCANGRIP WHEEL STAND is developed for mobile positioning of the work light typically in the workshop. It makes it easy to move the light to where you need it, and at the same time you avoid uncomfortable and heavy lifting from one workplace to the other. When the job is done the stand can easily and fast be put aside.

// Safe and fixed position

The SCANGRIP WHEEL STAND is extendable from only 0.7m up to 1.9m which gives you complete flexibility to position the light in the requested height. The 3 wheels are sturdy and of high quality and roll easily even on uneven surfaces. 2 of the wheels are lockable to secure a safe and fixed position.

STAR - Work light and floodlight in one

// STAR is the missing link between a work light and a floodlight. It is a new multifunction work light that does it all!

- Extremely powerful illumination, up to 1000 lumen
- Rechargeable up to 5h operation time
- Waterproof IP65
- Ergonomic design for a comfortable, firm hand grip
- Flexible handle for multifunctional positioning and application
- Sturdy handle with built-in magnet
- Direct mounting on the SCANGRIP TRIPOD
- Durable housing made of shock-resistant plastic material
- Built-in power bank

ORIGINAL
SCANGRIP

SINCE 1906

NEW

// Multifunctional work light

STAR is designed to be the work light that does it all. The lamp is ergonomically designed to be used as a hand-held work light. Extending the position of the handle, the lamp transforms itself to be a searchlight.

// Handy floodlight

Due to the extremely powerful light output, STAR is also applicable for illumination of a larger working area, in spite of its small size compared to other floodlights. The handle is designed for direct mounting on the SCANGRIP TRIPOD.

// Flexible positioning

Due to the flexible handle the STAR can stand in different positions to obtain the optimal lighting angle for a specific work task. The handle is also clickable in fixed position to serve as a hook for suspension. Using the powerful built-in magnet in the handle the STAR can be placed in flexible positions on any metalized surface.

EU DESIGN

SLIM - Only 3-in-1 slim light on the market

// The new SCANGRIP SLIM light series provides a true three-in-one, flexible and multifunctional work light for all kinds of application areas.

- 3-in-1: inspection light, work light and flashlight in one lamp
- Extremely powerful illumination up to 500 lumen with a powerful flashlight function
- Ultra-slim and compact design
- Strong built-in magnet and hook for flexible positioning
- Choose between 2 light settings (50% or 100%) for maximized operating time
- Rechargeable up to 6h operation time

NEW

// Ultra-slim light for inspection

The ultra-thin, compact design only \varnothing 7mm allows inspection in even the most inaccessible and narrow work areas. This makes the SLIM lights ideal for very demanding and difficult inspection jobs.

// Work light in pocketsize

The 2 new SLIM lights are designed with a 100% foldable body. When fully folded the lamp can be used as a traditional handheld work light. In folded position, the SLIM is reduced to pocketsize - compact and portable to take with you everywhere.

// Flashlight function

The powerful 100 lumen spot light of the SLIM lights provides you with a flashlight function. As a unique feature, never seen before, SLIM can be used as flashlight when the lamp is folded, providing a powerful flashlight with a handy, firm grip.

MAG - the next generation of Europe's most popular work lights

// Powerful rechargeable work light bestsellers

SCANGRIP is now introducing the next generation of the popular bestseller: The MAG lamp - the work light everybody knows

- Improved price/performance ratio
- More powerful spotlight and main light

NEW

// Highly improved light output

The MAG range comprises powerful, rechargeable LED work lights and flash-lights in one containing the latest, high performance LED technology providing up to two times more light output.

// Cool new design

The new and modern design of the MAG lights provides an ergonomic and user-friendly grip.

Place anywhere you want with the three strong built-in magnetic holders and the two retractable suspension hooks.

The lamp head is flexible and tilts up to 180 degrees.

HEADLAMPS *for professionals*

ORIGINAL
SCANGRIP

SINCE 1906

// Pursuing the vision of designing innovative work light for the professional end-user

- Illuminates your entire workspace
- Rechargeable
- Long duration time
- Easy to operate
- Sensor function with touchless on/off switch

As opposed to all other headlamps providing a beam of light, the new I-VIEW and ZONE headlamps are designed to provide optimum work light illuminating your entire work area.

Supplied with the newest COB LED technology, both headlamps provide an extremely powerful illumination which spreads the uniform light to the maximum and lightens up your entire field of view.

You avoid turning the head to illuminate your actual workspace from a limited headlamp beam.

I-VIEW
€ 69.90

EU DESIGN
PATENT
2635946

// Rechargeable I-VIEW with touchless sensor

I-VIEW is provided with the very newest rechargeable battery technology with extraordinary long duration. When set on sensor mode I-VIEW is switched on/off only by waving a hand in front of the lamp.

The design is ergonomic for a perfect, comfortable fit, and the woven band is strong and adjustable. The robust and sleek I-VIEW is both dust and waterproof (IP65) with a low weight of only 120g.

LINE LIGHT - *Unique lighting concept*

ORIGINAL
SCANGRIP

SINCE 1906

// LINE LIGHT is a flexible lighting solution for universal application designed for use anywhere where strong, efficient and concentrated light in a specific working area is needed

- “Unbreakable” - extremely sturdy and shockproof
- Waterproof to resist wet and dirty workshop environment
- Low voltage 24V DC
- Technical lifetime of LEDs 100,000 hours
- Made in Denmark

// Bright illumination exactly where you need it

By means of a built-in prism, LINE LIGHT concentrates the light in a 75° beam angle providing an extremely bright and powerful illumination of the specific working area. Blinding during work is avoided, and the lamp itself can be turned to provide the optimum lighting angle.

EU DESIGN
PATENT
1882523

// Innovative LED technology

The LINE LIGHT series is based on the newest state-of-the-art LED technology. LINE LIGHT provides almost double illumination compared to the traditional 36W fluorescent tubes which are commonly used within the industry.

The quality of the light is extremely powerful, like daylight which is optimum for precise recognition of colours, shades and other product details. The uniform, flicker free illumination without strobe effects also minimizes the risk of accidents.

// Extreme durability

LINE LIGHT is constructed by a closed "unbreakable" extruded acrylic profile which makes it extremely sturdy and shockproof to endure even strong strokes, shocks and vibrations from industrial machinery. LINE LIGHT endures the rough, wet and dirty conditions of the professional working environment within the industry and is resistant to both oil and chemicals. The IP67 classification means that it is resistant to both dust and water. LINE LIGHT is completely maintenance free.

// Reduced power consumption

Compared to traditional fluorescent tube lighting LINE LIGHT only consumes half the amount of electricity which presents serious cost savings on electricity.

LINE LIGHT for 2-post lifts and mobile column lifts

ORIGINAL
SCANGRIP
SINCE 1906

// Universal all-in-one solution

LINE LIGHT 2-POST is always available at hand and ready to use when needed.

The lighting unit can be positioned everywhere underneath the car with magnets and can be moved under the car to the actual repair work.

Due to the 5m spiral cable, the lamp can easily be used for illumination around the entire car, or as a dedicated lamp for engine bay or wheel arch illumination.

- Fits all 2-post lifts and mobile column lifts regardless of type
- Designed to be mounted on existing lifts
- Integrated part of lift
- Easy and uncomplicated to mount
- No drilling in the lift construction

LINE LIGHT *for automotive lifts*

// Complete lighting solution

LINE LIGHT provides an extremely bright and powerful illumination of the entire undercarriage - almost double illumination compared to traditional 36W fluorescent tubes. The slim and compact design leaves space for the center jack to pass.

// Easy DIY installation

As LINE LIGHT is a low voltage (24V DC) system, you can easily do the installation yourself. All basic fittings are supplied with each kit together with power supply and cable. The pre-defined LINE LIGHT kits are considered universal and will fit the majority of all automotive 4-post lifts, regardless of the manufacturer or brand.

**BEAM

EXPLOSION PROOF

work lights

// SCANGRIP is first-mover when it comes to development of new and innovative LED work lights. Now, we are proud to launch a new range of explosion proof work lights.

The LED technology is evolving very rapidly. We have taken advantage of these multiple technology developments to design a new range of explosion proof LED work lights providing extremely bright illumination and very long lifetime.

The pricing of this new EX range with high functionality is very competitive. This new product range is in fact offering you a huge business potential.

SCANGRIP EX work lights are approved and certified by TÜV SÜD according to the ATEX Directive no. 2014/34/EU effective from April 2016.

WORK LIGHT SOLUTIONS

for detailing and colour match

// SCANGRIP has developed a series of specialized work light solutions for the paint and detailing industry. The unique work lights are also specifically designed for colour match.

The SCANGRIP DETAILING range increases the quality and finish of each operation and reduces the rate of time-consuming and costly re-work. Due to the special LED features, the SCANGRIP DETAILING range is perfect for any paint, polish, cleaning or prep-zone operation.

The sturdy work lights are designed for use in the demanding painting workshop. The long operating time of the work lights makes it possible to complete a job without interruption of time-consuming recharging.

The second generation of the SCANGRIP DETAILING range features a 2 COLOUR LIGHT function. This provides you with the option to choose between 2 different colour temperatures WARM LIGHT (4500K) or COLD LIGHT (6500K) depending on the type of job to be carried out.
