

Double Chain Conveyor

Turn-key solutions for the Sawmill and Wood Industry

WE DO

- Double Chain Conveyors

OBEL-P Group/Aagaard design, manufacture, install and service Double Chain Conveyors with capacity upto 120m³/h.

This is the optimal solution when the transfer system demands reliability, flexibility, low noise and low power consumption.

Robust, modular design affords you a pressure-less transport of materials with no dust leaks, over long and short distances. From a dust collector to a container or silo at a fraction of the cost of a pneumatic conveying system.

- **Low noise**
- **Low power consumption**
- **Reliability**
- **Flexibility**
- **No dust leaks**

The OBEL-P Group of Companies has for more than 50 years been a strong and reliable partner for the Sawmill, Wood and Furniture Industry.

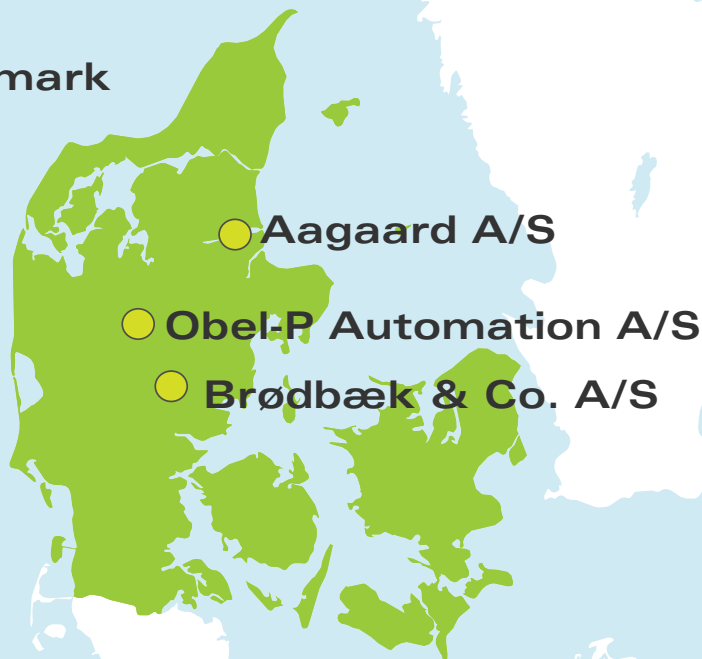

We design, manufacture, install and service turn-key solutions globally and we believe in maintaining a strong and reliable partnership with everybody we work together with.

Doing business with us is not just about buying a product! Customers buy our experience to identify the best solutions to fit their unique needs. We strive to add value to your business.
