Steel Wire Rope

High Performance

CERTEX offer an unrivalled product range of high performance Crane Ropes, Elevator Ropes, Stainless Steel Ropes, Fibre Rope, General Engineering Ropes & Small Cords, all carefully selected to meet our stringent quality standards.

We supply premium rope brands which exceed the safety, cost and operational demands of our customers who include a huge range of industry leading crane manufacturers, owner operators, OEM's, contractors, service and construction companies.

Over 50 years, our global lifting expertise has been widely recognised in the construction, marine, shipbuilding, off shore, manufacturing and steel markets resulting in our enviable track record of benchmarked standards for national, global and preferred supplier contracts.

CERTEX have established an outstanding stock and distribution chain for steel wire rope in Europe guaranteeing the flexibility, availability and choice to meet each customer's rope specification. Our huge range of high integrity stock includes tower, lattice boom, production and off shore pedestal crane ropes through to specialist wire rope assemblies for heavy duty hot metal cranes to name a few.

With our extensive buying power, competitive prices, off shelf availability, same day delivery and expert support services, CERTEX are the perfect partners for your high performance steel wire, fibre, stainless and general rope requirements.

Lifting Hardware

Hardware Range

CERTEX supply an impressive range of lifting machines including all models of manual, powered and pneumatic hoists and trolleys sourced from world leading manufacturers. Our range of compact drum and wire rope pulling winches are light, easy and safe to operate in multi positions, offering maximum application flexibility.

We also offer an innovative portfolio of fall arrest products and lifeline systems designed to deliver safe solutions. Featuring an award winning selection of retrieval blocks and evacuation devices which are ideal for challenging on and off shore environments, our lifting hardware range also includes a wide choice of:

- Hoists, Trolleys, Winches, Beams & Blocks
- Production & Warehousing Cranes
- Harnesses, Lanyards, Fall Arrest Blocks
- Evacuation & Rescue Systems
- Wire Rope, Chain, Round & Webbing Slings
- Anchor Lines, Lashing Equipment & Mooring Systems

- Installation
- Inspection & Testing
- Repair & Maintenance
- Certification Management
- Training

Services

Total Lifting Solutions

CERTEX's extensive training ensures that our engineers, trainers and inspectors are the most competent and highly qualified lifting experts in the world.

Our Inspection and Testing Division guarantees that customers accomplish legal and regulatory compliance, improve operational efficiency, benchmark safe working practices and minimise downtime. Dedicated teams and independent inspections deliver the crucial expertise and flexibility required for customers to realise significant cost savings.

We operate one of the largest repair and maintenance divisions in Europe and incorporate a pre-emptive defect management system designed to maximise asset management and safety standards. An expansive network of well equipped local facilities has been built at key locations across Europe which accomplishes the essential fast turnaround rates demanded by customers.

CERTEX offer a comprehensive range of lifting, safety and inspection training courses which can be undertaken at our customer's on site premises or at one of the many CERTEX advanced training centres across Europe. Our flexible range of training modules allows customers to tailor courses to boost specialist competency and preserve operational compliance.

The CertMax+ system is a unique leading edge certification management system which is ideal for managing a single asset or large equipment portfolio across multiple sites. Designed by CERTEX, to deliver optimum asset integrity, quality assurance and traceability, the system also improves safety and risk management levels.

- Exceptional Levels of Support
- Benchmarking Best Practice
- The Lifting KnowHow
- European Lifting Leaders

Support

CERTEX are committed to delivering outstanding customer support and operate the most comprehensive supply and distribution network in Europe offering the flexibility, availability, quality and choice to meet each customer's specific lifting requirements.

We are renowned for establishing best practice standards and use our advanced engineering, technical and project management expertise to optimise quality assurance for all lifting application and specification demands.

CERTEX are focused on delivering Total Lifting Solutions and have designed The Lifting Knowhow, a unique knowledge transfer programme which is included as an integral added value service. Developed to reduce accidents and improve safety, the Lifting Knowhow offers customers exclusive access to specialist products including: Technical Trouble Shooting, Application Education & Instructional Videos.

Our industry expertise is unrivalled. CERTEX accredited teams are the most highly trained in every lifting discipline and work closely with customers to deliver benchmarking asset management, operational efficiencies and safety standards.

We continue to grow our position as the European Lifting Leader. With the highest levels of customer loyalty in industry and an invaluable reputation for providing global standards with local service, CERTEX are proven perfect lifting partners.

Group & European Network

CERTEX division employs 1,000+ personnel across 41+ European locations. CERTEX guarantee: availability, choice, quality, delivery, flexibility, service, support and expertise.

Over 50 years, CERTEX have built the largest company supplying lifting products and solutions to the construction, oil and gas, logistics, manufacturing, marine, mining, agriculture, renewable and utilities markets.

Our technical, engineering and design hubs, are widely recognised as the leading industry facilities and are complimented by our expansive European warehousing, logistics and service network which ensures we deliver increased efficiency and profitability to customers.

CERTEX have also developed an excellent European network of Advanced Inspection Training Centres, R&D Centre of Excellence, NDT Test Centres and Certmax+ Technology Centre which further enhances our Total Lifting Solutions Service.

CERTEX are fully supported by parent company, AxLoad, a member of Axel Johnson International.
