## Product description

NS57 is a quality LED luminaire in a minimalistic and neutral design. The product is of the highest quality both in relation to the linear luminaire's construction and lighting quality. With NS57 it is possible to achieve quality lighting of for example car parks and it is also possible to choose between attaching NS57 directly onto the ceiling or to hang it from a wire. NS57 is an extremely robust lamp and can be applied in rougher environments without getting damaged. Characteristic for NS57 is the lamp's nice, consistent lighting, which according to scientific studies can improve the wellbeing of humans. The technology behind the LED luminaire enables you not to see the small LEDs but only to see a nice, luminous line of neutral lighting. NS57 comes in three sizes including 600, 1200 and 1500mm.
