

MAINS AND WORKSTATION SUPPLY

gesis[®] NRG

APPLICATION

The different versions of the gesis[®]NRG flat cables supply floor boxes with and without decentralized fuse protection.

THE SYSTEM

- Industrially prefabricated system components
- Flexible flat cable systems for easy extendability
- Flexible layout with modification option

BENEFITS

- Fast, easy, and safe installation
- High functional reliability through prevention of mismating
- Simple adjustment of the installation to local conditions
- Subsequent extensions made easy thanks to pluggable components
