THE FILTRATION MANUFACTURER
THE SCANDINAVIAN FILTRATION PARTNER

REVERSE OSMOSIS HC-SERIES

WWW.ULTRA-FILTER.COM

Reverse Osmosis

HC-Series

Technical Data

- 3000-20000 l/h (depending on model)
- Up to 98%-99,5% Salt reduction
- 50%-95% System recovery
- 6000 ppm, Max inlet TDS

The RO-HC series systems are high-volume reverse osmosis water purification units for large-scale applications. Fully equipped with high-end components, RO-HC series features a reliable problem-free energy-efficient operation with easy maintenance. This product line is a go-to solution for industrial applications and municipal water preparation and can also be supplied as a containerized unit.

System equipment

- Various product Sizes 3000 - 20000 l/h
- Stainless steel frame and equipment panel
- Stainless steel 316 pressure piping
- 5 micron pre-filtration
- Energy saving GE AK-series brackish water high rejection membranes
- Multi-stage centrifugal stainless steel 316 pump
- Fully equipped electric board with pump protection and soft starter
- Clean-in-place integrated system
- Grundfos DDE antiscalant dosing pumps
- 100 liter PE antiscalant tank
- FRP side port membrane housings
- Motorized feed valve, product drain valve and flush valve
- Stainless steel 316 regulation valves
- MP controller for quality monitoring
- High pressure shutoff • Double low pressure shutoff
- Permeate conductivity SS 316 sensor
- RAW-water pump control relay
- Permeate tank level monitoring
- Alarms: low inlet pressure, low feed pressure, high permeate conductivity, motor fault, high concentrate pressure

Optional features

- Supply pumps and storage vessels
- Integrated ABB PLC and color touch screen display with remote control kit
- UF pre-treatment
- Nalco antiscalant

Benefits

- **Improved water quality**
- **Extended membrane life**
- **Low maintenance operation**
- **Space saving design**
- **Quiet operation**
- **Reduced operational costs**

ABOUT US

Ultrafilter Scandinavia offers a wide selection of filtration products for compressed air, liquids and gas. We have stock in Denmark and from here we distribute all of our products to Scandinavia and the Baltic countries.

Ultrafilter Scandinavia is a part of the Ultrafilter group. Our production facility is in Germany and we have several subsidiaries in Europe and the United States.

You can buy our products on local websites. Information about our products as well as brochures and manuals can be found on our website (www.ultra-filter.com).

We can adapt all of our filtration products to your needs, and we offer visits from our consultants in order to find the right solution for you. We also offer on going service on our products once they are installed.
