service

Services & products

This is an overview of our main services and products – some times we find ourselves called upon for other specialized jobs where Lifting KnowHow is vital.

- **Tests & inspection services**
- **Load tests**
- **Inspection & certification**
- **Maintenance & repair**
- **Installation- & rigging service**
- **Rental**
- **Stock & shop**
- **Engineering services**

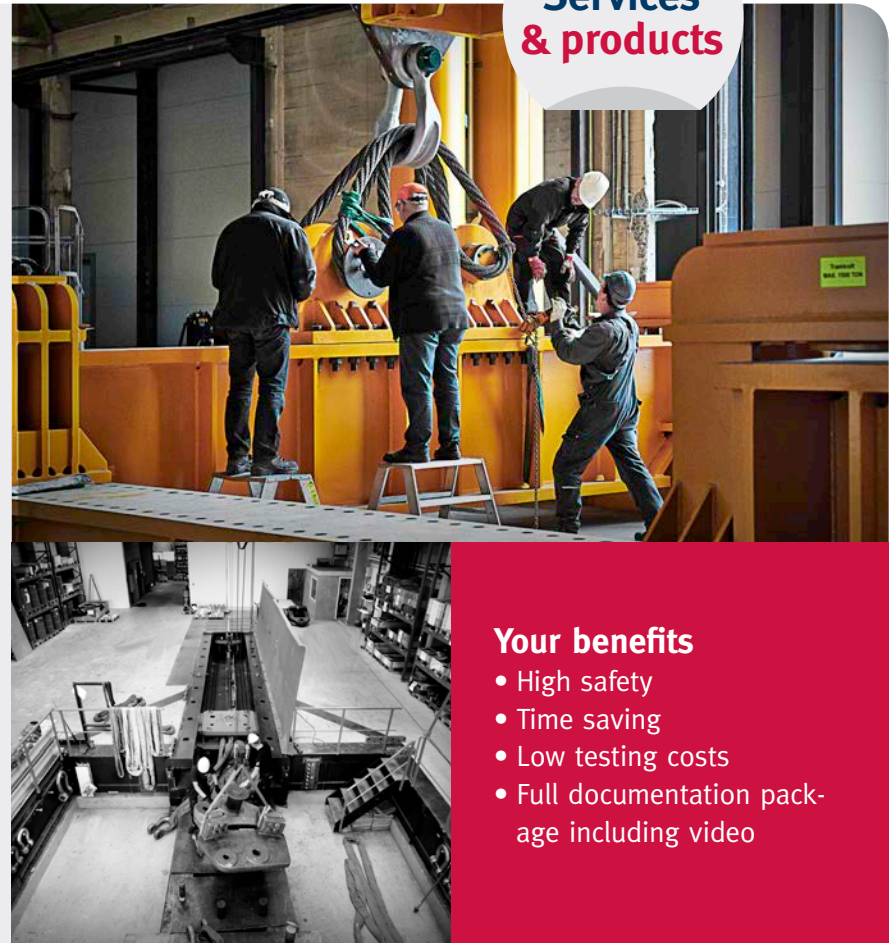

Tests & inspection services

We perform all kinds of tests and services on- and offshore. Our services are always performed with safety in focus.

- Various load tests: Cranes, MOB / Lifeboats, lifting beams, frames and winches
- Calibration of crane measuring systems and load cells
- Socket casting
- Periodic maintenance of lifting, IACS certified equipment
- Break load test – up to 900 ton
- Class certification tests
- NDT testing – level 3

UP TO 1,500 TON

Services
& products

Your benefits

- High safety
- Time saving
- Low testing costs
- Full documentation package including video

Load tests

State of
the art
testing

Test tower

The first 1,500 ton test tower in the world with 3D laser measurement.

UP TO 1,500 TON

Water Weights

Test of lifting beams, cranes etc. up to 900 ton with our Water Weights.

UP TO 900 TON

Test tower

We perform load testing of all kinds of equipment in our vertical test tower.

UP TO 50 TON

Test bench

Pull tests up to 1,200 ton and breaking tests up to 900 ton.

UP TO 1,200 TON

Inspection & certification

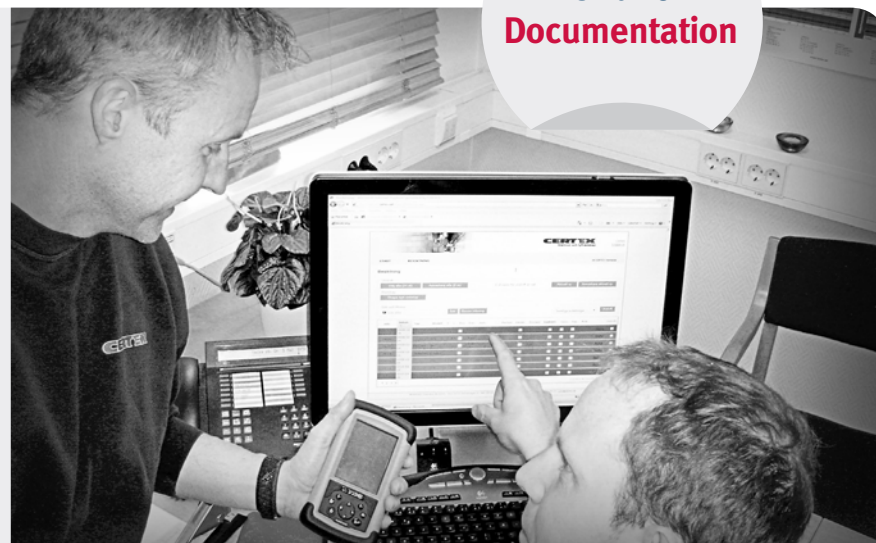

Online documentation

We know documentation is important to you, and we have made it easy for you to keep track of the various tests we perform on your equipment and facilities.

All certificates are kept in CERTMAX, our online certification service, giving you online access to all your certificates issued by CERTEX Peter Harbo A/S – wherever/whenever.

CertMax 

Online
Documentation

Your benefits

- Full documentation
- Online database overview
- 24/7/365 access to your certificates and history
- Search on product data
- Automatic request for test of your equipment (option)

Maintenance & repair

Services
& products

Our products are often subject to usage in rough environments and exposed to harsh conditions. As a result they need maintenance and repair to remain fit over a long period of time.

General repair services:

- Chain and lever hoists blocks
- Lifting slings and beams
- Fall arrest equipment
- Chain assemblies
- Winches

Maintenance services:

- Lubrication
- Monitoring
- Crane Service

Installation- and rigging **service**

**Services
& products**

We recognize customer need for support and help in our area of expertise. Therefore we offer installation and rigging services worldwide.

Installation and rigging services:

- Supervision
- Wire rope installation
- Socketing
- Rigging
- Spooling & installation of steel wire rope

Spooling

Correct spooling of wire rope is critical to effective lifting.

We are specialized in:

- Wire rope spooling on cranes
- Offshore winches spooling
- Spooling with the possibility of back tension up to 100 ton

Rental

We offer a wide range of lifting equipment for rental. Rental enables you to have temporary access to a complete set-up of lifting tools, convenient for project based operations.

Our range of rental equipment includes:

- Pneumatic, electric and hydraulic winches in various sizes
- Manual chain- and lever hoists
- Electric, pneumatic and hydraulic chain hoists
- Snatch and crane blocks
- Shackles in all sizes
- Water Weight bags
- Loadcells
- Equipment on request

**Services
& products**

Your benefits

- No long-term capital investment
- No maintenance-, handling- or storage costs
- Variable costs
- Safety

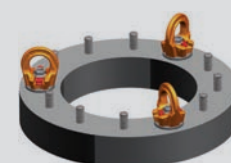

Stock & shop

Your one-stop-shop

Time is costly, and we stock 12,000 items to ensure quick delivery. It also enables us to cover your needs in urgent matters.

- Steel wire ropes
- Chain & fittings
- Lifting gear
- Marine supply
- Slings
- Overhead cranes
- Fall protection
- Rigging hardware
- Heavy lifting equipment
- Anchor handling equipment

Services & products

Engineering

Often we help customers with various types of engineering services. These include:

- Design and concept of lifting products
- Project management
- Calculation
- Requirements specification
- Design and implementation
- Testing

**Expert
knowledge**

Your benefits

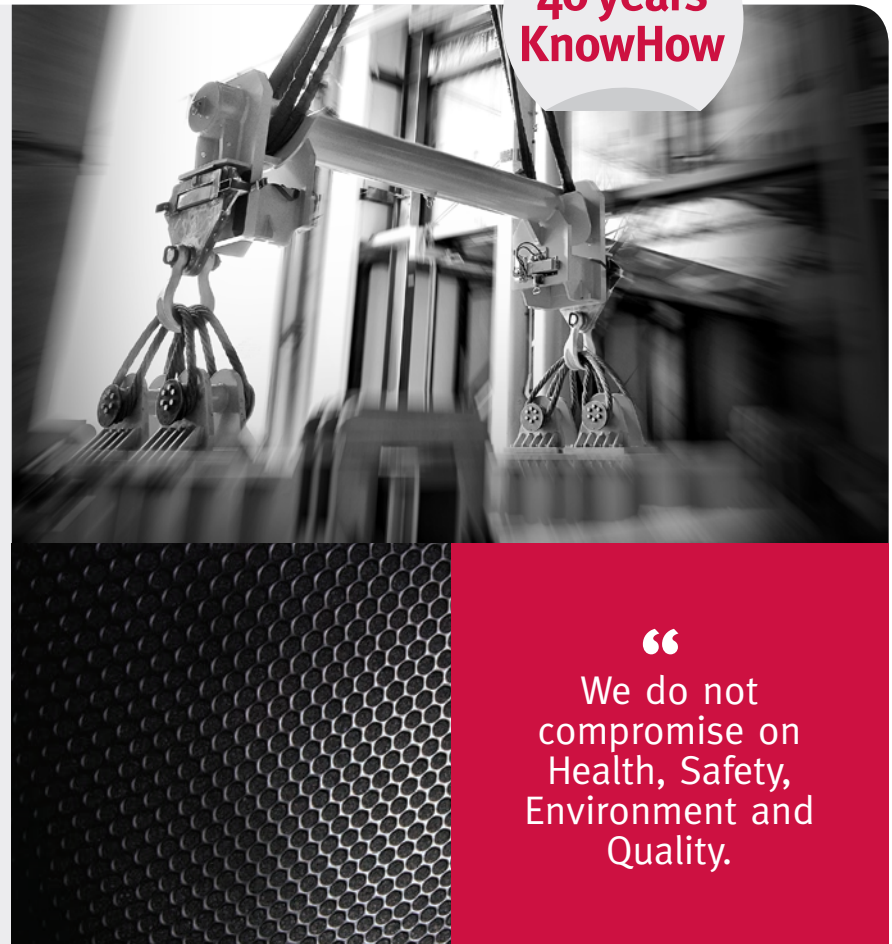

- Access to experts within the lifting field
- Fixed price
- One-stop-shop
