In water dissolving Paper Labels

Dissolving paper labels suitable for reusable boxes of all kinds, articles made of glass, plastic, metal and laboratory apparatus that are washed after the use, as well as retain samples in the food industry etc.

After the washing process no residue on the surface. Absolutely clean substrate. Labels dissolve in very short time without any mechanical agitation. No additional washing process needed as the substrate is clean after the first process.

Food Labeling in accordance of HACCP

Medical Labels

MedicalLine helps you comply with legal sterilisation requirements. METO autoclave labels doublecheck the sterilisation process. Our sterilisation labels are ISEGA certified. A special indicator ink changes to a different colour, on completion of the sterilisation process to the EU standard. Using a duplex label it can be removed from the sterilized product and replaced on the ID card of the patient. It is mainly used as a control label. Sectors: institutions, pharmacies, laboratories, hospitals.

Promotional Labels

Tests have shown that products labeled with promotional labels sell more easily because the customers perceive the product as a good offer even if the price is not marked down. Use the labels to clear your stock and get rid of your slow movers. By drawing attention to your offers you can create interest and generate sales. For the different label sizes we have a range of dispensers that will make the labeling easy at store level saving time for the staff. The dispensers are easy to load with the label rolls and the dispensing runs smoothly and quickly.
