

DRUM HEATER, 0 - 90 °C

Applications:

- The heaters are more efficient and use considerably less energy than conventional band heaters.
- Heat blankets are the fastest, easiest and most cost efficient method for heating and maintaining the temperature of your industrial materials.
- Three standard sizes suitable for 25-30, 50-60, 105 and 200 liter drums or container.
- Suitable for metal, PP and PE drums, pails and containers
- Best solution for viscosity and flow control
- Heat propane and other compressed gas containers
- Adjustable and high quality Jumo thermostat for accurate temperature control
- Heating up to 90 °C
- Heating duration approx. 48 hours (200 litre from +15 °C to 60 °C with a 450 W drum heater)
- IP Rating: IP 40

The heating element of the Drum Heaters is stitched into an insulated jacket made from a water resistant, nylon/silicone coated material. Comes complete with quick release buckles for ease of installation and removal. The heating element is shielded with a tinned copper earth braid for safety. All our Drum Heaters are supplied with 3 metres of braided power cable and fitted with a 0 to +90 °C capillary thermostat and 110 volts or 230 volts AC.

	25-30 litre	50-60 litre	105 litre	200-220 litre	200-220 litre
Total length	1200 mm	1330 mm	1650 mm	1990 mm	1990 mm
Width	400 mm	460 mm	370 mm	450 mm	800 mm
Power	225 W	300 W	400 W	530 W	980 W
Weight	Approx. 2kg	Approx. 2,5kg	Approx. 2,75kg	Approx. 3,0kg	Approx. 7,3

Jacket material:

- Cordura, teflon and polyester

Temperature control:

- 0-90 °C adjustable Jumo thermostat.

Power:

- 230 VAC or 110 VAC 3 metre power cable

Safety:

- It is advised that power to the Drum heater is disconnected when the container is either empty, being filled, upon installation or removal of the heater itself. It is recommended that the unit is operated in a dry environment.
