COLLABORATIVE CHAIR CONCEPT

WITH BUILT-IN STORAGE IN THE PERSONAL WORK SURFACE

SixE Learn is a collaborative chair concept uniting functional requirements and elegance. By adding storage into the personal work surface all main materials and devices are available at your fingertips whilst leaving free room for moving your legs below the seat. Features as integrated tablet stand, cup holder, bag hanger all adds to a thought through chair concept for active learning environments.

SIDE CHAIR

ARMCHAIR

SIXE LEARN
MOVIE

The personal work surface can easily be positioned behind the back of the chair.

CUP HOLDER (optional)

The cup holder rotates under the personal work surface.

PERSONAL WORK SURFACE

Tablet stands and built-in storage with side access are integrated in the work surface top.

BAG HOOK (optional)

The bag hook is mounted on the top of the shells back and is in the same colour as the shell.

HEIGHT ADJUSTABLE

Push-button function underneath the chair.

BUILT-IN STORAGE

Sliding slots in the bottom of the storage make it easy to slide out stored materials.
