

SPEEDMAX

- Up to 24,000 rpm

- Smooth-running

- Precise

Precision drilling machine with very high concentricity for drillings starting from 0.2 mm. Because of the stepless adjustment of spindle rpm this machine is optimally suited for precision engineering and electronics.

Standard capacity in E 335	0.2 - 4.0 mm
Spindle / Collet	ER 11
Spindle travel	65 mm
Spindle to column	215 mm
Spindle to baseplate	60 to 345 mm
Table surface	280 x 475 mm
Total height	780 mm
Weight	51 kg
Motor	0.75 kW
Stepless spindle rpm	700 - 24,000 rpm
Mains connection	230 V / 50-60 Hz

Picture similar, changes and errors excepted.
