- Weight: 2200kg

## Approvals:

- Approved CE
- EN 60204-1
- EN ISO 10218-2
- EN ISO 13849-1

## CE marked:

All machines require CE-marking, which can be an extensive process.

As Uniwelco ApS has specialist knowledge in the industry, we have chosen not to take any risks when it comes to safety and CE-marking. This is why, RBCobots are CE-marked by Danish Safety of Machinery ApS, that goes through all material as well as continuously monitors standards, so that RBCobot always abides applicable regulations.

This ultimately gives us more time to refine RBCobot and provide you with more peace of mind.
