

A close-up photograph of a welder's gloved hand holding a welding torch. The torch is in contact with a metal surface, creating a bright, intense blue-white light at the point of contact. A large, dense shower of bright orange and yellow sparks is erupting from the point of contact, radiating outwards. In the background, a square metal plate is visible, and the overall scene is dimly lit, with the primary light source being the welding process itself.
