Søfart provides an overview, perspective, and knowledge

The industry-specific media Søfart delivers news, insights, and perspective to the Danish maritime industry. Søfart provides an ongoing look into the development of several branches in Blue Denmark and inspires new ways of thinking and further developments by sharing best practices.

Søfart prioritizes news coverage but is equally focused on going behind the news feed. Søfart provides a perspective and insight on the long-term tendencies that drive the development of Blue Denmark within the scope of business economy, technology, and policies. Søfart is the only maritime media that extensively covers Blue Denmark: We have our finger on the pulse when it comes to the development within the following niches in the industry: Shipping companies, ports, shipyards, equipment manufacturers, service companies, freight forwarders, and port companies. Our mission is to create inspiration and excitement among all actors within these sectors.

Below you can read more about some of the journalistic themes that will be the primary focus throughout 2021.

Family-owned industry companies:

Oversight on what family-owned maritime companies that still exist in the Danish maritime cluster and how they look at the future and how the owners perceive the pros and cons of family-based management.

Executive portraits:

The executives from the large and medium-large shipping companies elaborate on how they assess the longterm consequences of the crisis and how it can be turned into something positive.

The port sector under development:

The Danish ports are in the middle of a grand consolidation. The volume of goods in the ports are staggering, and the port is fighting to find their place in the future port structure. But how will they handle such a challenge?

Technology and innovation among maritime manufacturers:

The many tech-manufacturers in Blue Denmark have an important task at hand: They have to help shipping companies launch the first CO2 neutral ships on the sea within the coming decade. What do they have in the pipeline, and what strategy do the manufactures follow?

Advertisement - Print

Expose your company in the right context

Ads in our print-media palette provide highly-effective visibility to most decision-makers in a specific industry since newspapers have more readers than other specialist media. Print ads have a long-lasting impact and significant branding value. So, even though there has been a significant development in the field of online advertising, we believe that print ads will make up a large portion of the overall advertising budget for many years to come. The print ads also appear in the electronic iPaper and the PDF edition.

Both editions can be accessed on both PCs and tablets and are simultaneously the newspaper readers' newspaper archive. We are continually working to optimize circulation to reach target audiences with greater depth and precision than that offered by other media. We do this so that we can continuously provide targeted advertising opportunities.

Moreover, we work with great flexibility in terms of formats here, including creative formats to increase the potential for greater attention - text and images do not always accomplish this by themselves. There is the option of placing an ad in the context of relevant editorial content, e.g. in sections and themes that will help boost the credibility of your marketing, ensuring that your audience not only sees it but reads it.

Target your marketing to be viewed in the right context. Nordiske Medier print releases tunes in on relevant focus areas in the respective industries. Take advantage of the opportunity to make your business visible in specific themes and special magazines.

It is possible to send two different banners.

Specifically for HTML5 banners

When delivering HTML, we must have sent a zip file with all the source material in. The zip file must be max. fill 10 mb. It will be an advantage that the HTML5 file stays within a frame of 20 sec. HTML5 files can only be used for banners on the portal, as the file type cannot be handled by mail programs.

* Sticky, corner banner and side banner are only displayed on desktop.

Technical specifications

Finished banners for the website must be delivered as above specifications.
If you need a graphic designer to help with your design, there are the following requirements for images, logos and text.

- Pictures must be mine. 80 DPI in the formats and sent in the file formats .jpg, .tiff, .eps, .psd and .png.
- Logo and graphic elements are delivered as .eps or .ai vector graphics.
- The text is sent separately in a .docx format or in the email with the material.

Material for production by us must be received no later than 10 days before the advertising campaign starts.

Preparation of banners

The banners are prepared free of charge when ordering banners for min. Two months. Otherwise, the price is NOK 500, - pr. banner. If you want to make banners yourself, these must be delivered in either GIF, JPG or HTML5.

Advertiser Guidelines

It should be clear to readers what are ads and what are articles written by the editors. Therefore, ads must differ from the layout - both on the portal and in the newsletter, so that readers are not misled and think that an ad is an article written by the editors.

In general, advertisers are asked to use a different font than ours. On the website, the word Advertisement appears automatically just above the banner. In contrast, on advertising in the newsletter, the word Advertisement should appear clearly at the top of the advertisement, if there is no doubt that it is an advertisement - so we follow the legislation in this area.

If we consider the ad to be too close to the editorial texts, we will ask to change the font and/or add the company logo so that it is clear that it is an ad. This is done to live up to the rules laid down by the Consumer Ombudsman.

Furthermore, you only have to market for your own company and your products - i.e. no misleading product comparisons or bad publicity of competitors - then the Marketing Act is also complied with
