

HELLER

13 - 17 September 2016
Hall 5, Stand B55

LIFETIME PRODUCTIVITY

Added value for your production

HELLER solutions:
Knowing how it's done.

Added value for your production. With LIFETIME PRODUCTIVITY.

Smaller batch sizes, shorter lead times, complex components, optimal per-piece costs. These are the competitive challenges you are facing. Visit us at AMB and learn more about our added-value solutions for your production tasks of today and tomorrow:

- Added value for lifetime production diversity - with the new, universal HF series of 5-axis machines
- Added value for the reliability of your production - with our lifetime services partnership
- Added value for your production support - with expanded functionalities for machine operation, process optimisation and maintenance

Experience model HF 3500 live in two versions - as direct loading machine for single-part manufacturing and equipped with pallet changer for series production.

We look forward to seeing you!
