

Visit us in Nuremberg  
**You are invited!**

**FENSTERBAU  
FRONTALE**

HALL 6 · STAND 354

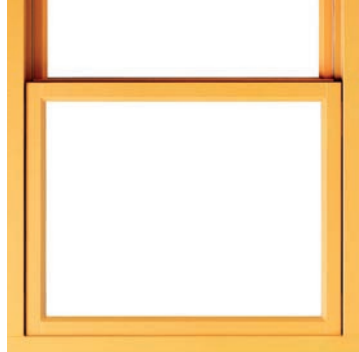

## Dear Business partner,

This year's trade fair in Nuremberg provides important orientation for all window and door manufacturers. And it is not just about individual products. It also covers practical solutions made possible by the expertise and support of an experienced manufacturer. And this is just what we want to show you in Nuremberg. See for yourself – we look forward to meeting you!

**Tomas Kjellker**

Strategic Business Director

## Perfect colourless surfaces

Colourless coatings, which protect the wood for the long term and perfectly accentuate the material, are the king's class in wood coating. Teknos will be displaying its state-of-the-art technology using oak and larch as examples.

## Flawlessly opaque

Classic white or individual RAL shades: opaque coatings depend on a flawless surface. Samples of spruce, pine and meranti show which Teknos systems are suitable.

## Translucent in all colours

From domestic softwoods, tropical woods or modified materials: Teknos has the right system and the right colour. See for yourself based on samples made of pine, spruce, meranti and accoya.

## Modern PVC coating

Durable surfaces and minimal processing times for low-VOC manufacturing? Water borne 1K coatings from Teknos make this easy! You can see profiles with a wide variety of surfaces.

## Up for a challenge?

Put your skills to the test at the Teknos stand. The SimSpray training simulator uses a 3D helmet and a real spray pistol to put you into a virtual spray booth. Prizes and a drink at the Teknos bar beckon to you as rewards.

## Here is how to get your free Teknos e-ticket for the FENSTERBAU FRONTALE.

Register online by 14 March 2016 with the following registration code online at <https://www.frontale.de/en/visitors/tickets/voucher> and print out your e-ticket (day ticket). The e-ticket is also valid as a ticket for public transportation in the Nuremberg metropolitan area.

Your personal registration code:
