FLANGEVARMELEGEMER 10-320 KW

FLANGEVARMELEGEMER
STANDARD 10-320 KW

NEWTRONIC

FLANGE HEATERS

for efficient heating of water in the power range from 10 to 320kW

The flange heater standard series was developed by Newtronic to offer industrial customers a robust electrical heating solution. In addition to the classic customer-specific heaters, Newtronic sets a standard in the process experiences of the last 20 years. Together with the matching regulation it enables the customer to have a stable heating process with almost 100% efficiency!

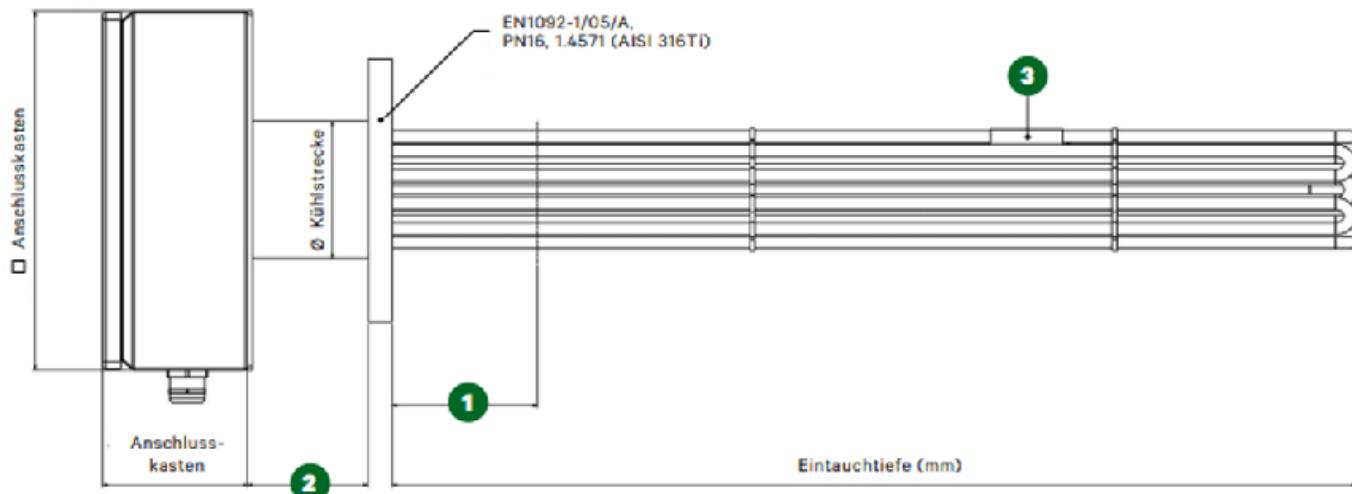

The heaters can either be flanged directly into an existing tank or in a dedicated flow pipe. On request, Newtronic can also deliver the right solution in vertical or horizontal Execution. The heating elements are 10 mm made of stainless steel AISI 316L with a wall thickness of 0.7 mm, particularly suitable in industrial processes.

The heaters are monitored by a safety temperature limiter and switch off when the temperature is too high. The PT100 temperature sensor is used to regulate the heater. Newtronic can also offer suitable thyristor controls etc..

Construction data records, such as connection and circuit diagrams, CAD files (step-file) or the technical drawing are immediately available on request and already support the user in the construction phase.

PRODUKTMERKMALE SSFHK-SERIE

Medium	Wasser, Wasser-Glykol-Gemisch (weitere: nach Absprache)		
min./max. zul. Temperatur (°C)	+5 °C / +110 °C	Heizelement	Rohrheizkörper RHK Ø 10 mm
Anschlussspannung (V)	400 3~	Oberflächenbelastung (Watt/cm²)	max. 7,89
Schaltung	Dreieck	Heizelement Werkstoff	1.4404 – AISI 316 L
Leistungstoleranz (%)	+5/-10	Unbeheizte Länge (mm)	1 120
Designdruck max. (bar ü)	10	Toleranz Eintauchtiefe (mm)	max. +5/-20
Prüfdruck (bar ü)	14,3	Heizelement Verschluss	Araldit
Einbaulage	waagerecht	Kühlstrecke (mm)	2 100
Flansch Werkstoff	1.4571 – AISI 316 Ti	Temperaturbegrenzer	STB DR 20–150 °C (1-pol.)
Flansch Norm	EN1092-1/05/A	Temperaturfühler	3 PT100 3-Leiter „B“
Anschlusskasten Werkstoff	Stahl lackiert (RAL 7035)	Auslegung und Fertigung nach	DGRL 2014/68/RU, AD2000
Schutzart	IP55	Zolltarif-Nr.	8516 1080
Anschlussklemmen	WDU/PVB		

AUSFÜHRUNGSVARIANTEN
