Tour:

Trawler under construction

For years Karstensen's
shipyard in Skagen has
used marine filters of a
shapes and sizes from
BMJ MARINE.

Central in the jumble of pipes and
valves, you are likely to find a robust
and maintenance-friendly filter from
BMJ Marine.

For non-standard ship construc-
tion scanty installation areas, it
may be necessary to order
special customized filters.

BMJ MARINE are used to solving
such problems, and are eager to
help with advice and instruction.

Experienced workers are our greatest resource

Competent staff ensure that BMJ MARINE deliver only Products of paramount quality.

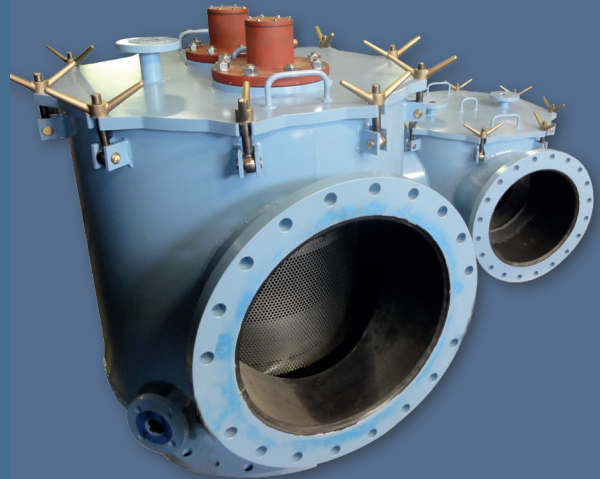

BMJ MARINE employ engineers, technicians, smiths, welders (With certificate) and, machinists.

With these assets, we resolve numerous in a very fluctuating market.

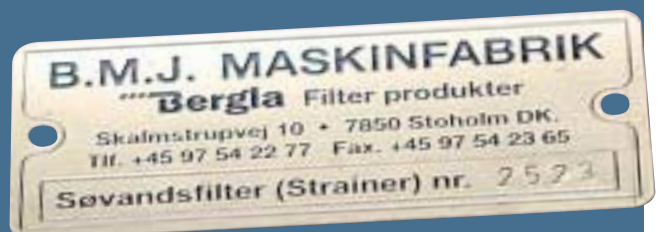

Delivery within the agreed deadlines

The Marine Filter from BMJ MARINE are supplied either directly to sailing vessels or upon orders from the European shipping industry.

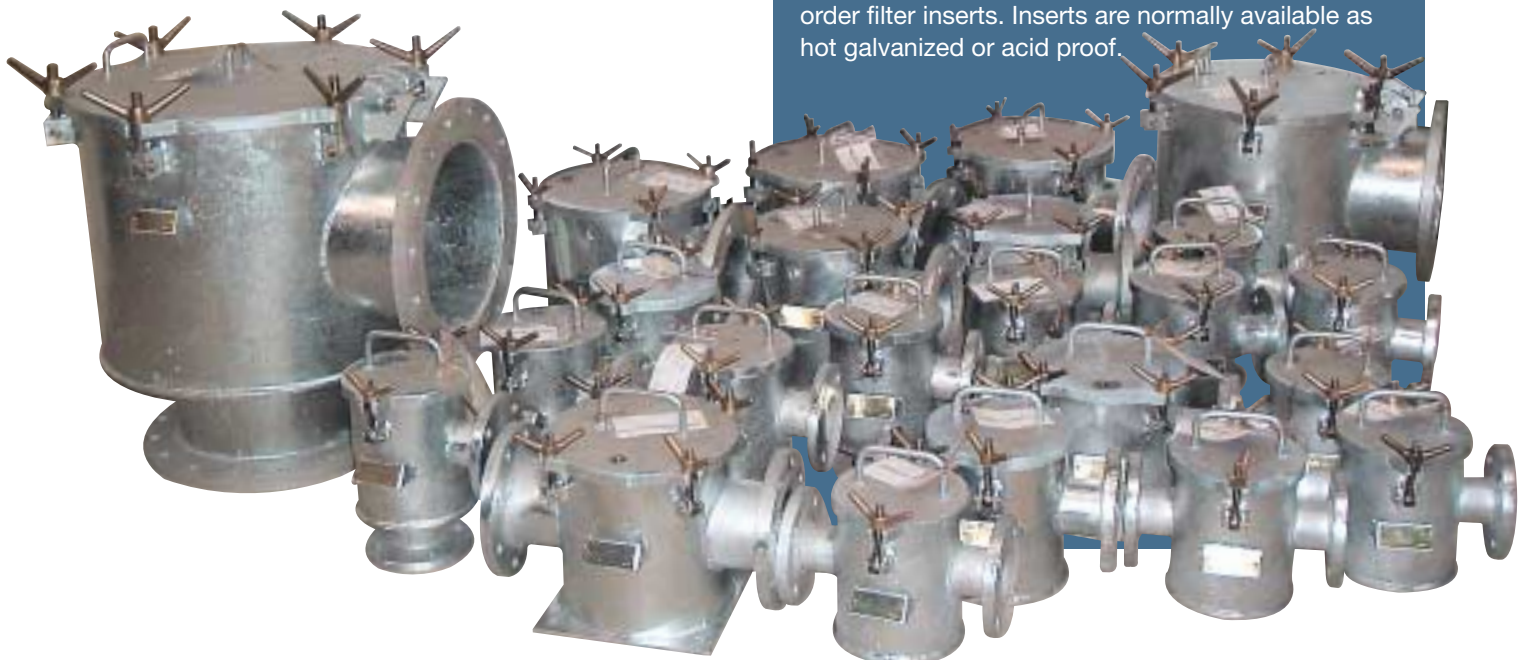

Here are two DN 400 filters, shot-blasted, epoxy painted internally and with external primer.

Simple and effective reordering

All marine filters from BMJ MARINE are labelled with a unique number, which makes reordering easy and safe. This number can also be used to order filter inserts. Inserts are normally available as hot galvanized or acid proof.
